VOL. 3, 1937-38

the 1990s, the number of people in the UK who are aged 65 and over has increased from 10.5 million to 12.5 million, and the number of people aged 75 and over has increased from 4.5 million to 6.5 million (Office for National Statistics 2000).

There is a growing awareness of the need to address the needs of older people in the community. The Department of Health (1999) has published a strategy for older people, which sets out the government's commitment to improve the health and social care of older people. The strategy is based on the following principles:

- Older people should be able to live independently in their own homes for as long as possible.
- Older people should be able to access the services and support they need to live well.
- Older people should be able to participate in the decisions that affect their lives.
- Older people should be able to live in a safe and secure environment.

The strategy also sets out a number of key objectives, including:

- To improve the health and social care of older people.
- To ensure that older people have access to the services and support they need to live well.
- To ensure that older people are able to participate in the decisions that affect their lives.
- To ensure that older people are able to live in a safe and secure environment.

NINE LESSONS IN LIVING

Learn to laugh. A laugh is better than medicine.

Learn to attend strictly to your own business.

Learn to tell a story. A well-told story is as welcome as a sunbeam in a sick room.

Learn the art of saying kind and encouraging things.

Learn to avoid all ill-natured remarks, and every thing done to create friction.

Learn to keep your troubles to yourself. The world is too busy to care for your ills and sorrows.

Learn to stop grumbling. If you cannot see any good in the world keep the bad to yourself.

Learn to hide your aches and pains under a pleasant smile. No one cares whether you have the earache, headache, or rheumatism.

Learn to greet your friends with a smile. They carry too many troubles in their own hearts to be bothered with any of yours.

—Gregg Speed Studies.

FOR SALE

Would you like to buy an excellent typewriter, one which not only sticks, jumps spaces, triple spaces instead of doubling the space, but refuses to return the keys to position after they have been struck? If you want a typewriter which is guaranteed to be at least seven years of age, then we advise you to procure one of these masterpieces of copy reproducing, a Remington, as demonstrated by the Hobart High School in its typing room.

If you are lucky you will be able to get about 11 words per minute on a test while others are sailing serenely along at 65 and 70 words per minute on a new Royal. You are not only not to, but you will fall far behind on your class work. You will become discouraged, and no wonder when you're lucky if you get 11 words per minute which is certain of failing you in that course.

To obtain such a rare bargain you must hurry, because there are only seven left out of the nineteen now possessed by the school.

SENIOR WEEK PLANS

The senior class is not required to attend school from May 22 to May 27, except for final exams, providing behavior is above reproach. The following is a complete schedule for Senior Week:

Sunday, May 22—
Baccalaureate, which will be held in the Methodist Church. The committee in charge of the plans consists of Marie Sweet, chairman, Dorothy Flick and Wayne Morgan.
Monday, May 23—

Kid Day, the success of which depends on the entire senior class. The senior girls will adorn themselves in short skirts, pig-tails, ribbons, and last but not least, their dolls and lollipops. Patched shirts, overalls and knee pants will be the dress of the boys. Plans are being completed by

Charles Donnelly, chairman; Bill Kinsman, Iris Zelenka, and Wayne Grabill.

Tuesday, May 24—

Instruction Day, in which members of the class will take over entire charge of classes and offices. Students of high scholastic standing will take over the duties of the teachers, principal, superintendent, and office girls. Neal Smith, chairman, Bette Johnson, Jacquelyn Gilger, and Anthony Kupkee will be in charge of selecting instructor, and office managers.

Wednesday, May 25—

Junior-Senior Dance, which is to be a thank-you party for the juniors. The orchestra and place are being decided upon by Doris Young, chairman, Virginia Frye, Jerry Killigrew, Elbert Ross, and Harold Stevens.

Thursday, May 26—

Color Day. A day on which red and white will be the major attraction of the day. The seniors and classrooms will be "dressed up" in red and white. The committee in charge consists of Lois Baker, chairman, Charles Miller, Edward Bowble, and Carl Westerholm.

Friday, May 27—

Senior Breakfast, at which the entire senior class and honored guest, a representative from the sixth grade who will receive the colors from the senior class, will be served a breakfast in the Methodist church.

The climax to the week's program will be the Commencement exercises in the Roosevelt gym. Dr. Robert La Follette, a graduate of Indiana State Teacher's College will be the speaker. Well known for his interest in education, Dr. La Follette has earned higher degrees from several colleges and won scholarships from Harvard and Columbia University. In recognition of his ability, part of his activities have included speaking at commencements, civic clubs, teachers' institutions, and public meetings. The plans are being attended to by Jane Rhodes, chairman, Irene Young, Ruth MacPherson, Ralph Worthington, Byron Findling, and Robert Wells.

During the week a gift will be given to the school as a farewell, which is to be selected by Margaret Adams, chairman, Emma Valette, Peter Montville, and Ann Bosnak.

THE TOP RUNG

The top rung of our ladder

Is reached graduation day

As we leave, our hearts are sadder,

But to success we'll pave our way.

College, a job, and travel are some

Of our aims that are so high.

But wher'er we are there'll always come

Fond memories of Hobart High.

Courage consists in equality to the problem before us.

—Emerson

Those who talk much never say anything.

THE LADDER OF LIFE

1-2-3-4-5-6-7-8-9-10-11-and 12. Twelve steps to the top of the ladder, to the top which leads us to our road of success. We have reached the stage where we shall become useful men and women in this large world given to us to use. Now is our chance to choose the road that will lead us to our empire of dreams, to the plans we have made while we were climbing to the top.

We started the sphere of life as a mere infant, wants a toy, a plaything. Now as young men and young women we have our career as our plaything to do with as we see fit.

Whether we be a servant or a king, we have our chance to make our life a success.

Those before us have stepped aside, and they leave the world for us to carry on. They have done their work; now it is up to us to do ours.

GRADUATION DAY

Graduation day has come at last! The highest step in our ladder has been reached. Each year we have striven for this goal—steadily climbing to the top. As we mounted each step, we felt a tinge of satisfaction at having gained one more step on the ladder of success.

It took but a short time to get up the first step, but after that each step became more difficult. It seemed we should never reach the top, for each year we encountered more hardships than in the previous year; nevertheless, we constantly kept our eye on the star at the pinnacle. This was our benefactor and guide.

Now that we have reached the first goal—what is in store for us? Some of us will probably become great personages, while a few will take the downward path. As one great professor said, "Time is a measure of life," and so it is with us—only time will tell what the future holds for each of us.

ARTICLE FROM LOWER OFFICE

The ranks of the alumni will soon be augmented by the addition of some 86 persons graduating in 1938. Your commencement exercises will mark ceremonially your entrance into a new period of life.

The faculty of the Hobart Schools sincerely hopes that the time you have spent working in co-operation with them has been a genuine period of preparation for this entrance into the period of adult living.

The four years you have spent with us in the Senior High School has been a genuine pleasure. Your teachers have taken pleasure in assigning tasks and creating situations which have contributed to the unfolding of your character. The constantly recurring phenomena of adolescent development is always an inspiration to the real teacher, is the thing which makes teachers love their profession. We have striven to hold before you those high standards of behavior which makes for the good life. We believe you have been happy in your class work, in your social experiences, in your association with each other.

Your spirit of co-operativeness has been excellent. Were this not so, the administration of the high school program would have been infinitely more difficult than it has been. The numerous handicaps that we work under would have been intolerable to us if the student body had not been genuinely willing to help in its own government, its own disciplines, its own self-restraint.

The faculty members who have served in this high school for a long period say that the past three years of work have been far more pleasant than the preceding ones. You have contributed to this situation.

In the years ahead, you and we shall look back with pleasure upon the years 1934-1935. We should not like to lose contact with you, for you are coming into the position of school-supporters from the position of schooling-consumers. The schools will need your assistance, your approval, your tax money. We hope for the good of the future Hobart High School that you will keep in close touch with your school system.

We bid you a farewell as students, but as old friends, as co-workers in a common task, we hope that our associations will go on and on.

THE SENIOR FLAG

Some of the senior girls have shown their skill with sewing as shown on the Senior Flag which hangs on the wall in room 210.

It is made of red and white material. The red stands for vitality and vigor, and the white stands for purity.

The morning of the senior breakfast this flag will be presented to the representative from the sixth grade with the numerals of their graduation year, 1943, before the 1938.

FACTS VERSUS THEORY

Engineering—including chemical, electrical, civil, and diesel; aviation, with its many phases; agriculture, pharmacy, ministry, law, radio, medical professions, metallurgy, teaching, home economics, politics, merchandising, retailing, wholesaling, manufacturing, industry at large, photography, drama, nautical professions, military professions, refrigeration, archeology, television, commercial professions, liberal arts, and research work in any of these fields offer the host of young men and women who will graduate in June, 1938, in the United States, a chance to succeed in life.

To those whose financial status is insufficient to further their preparation, scholarships present them another opportunity, but a college education is not imperative although it is exceedingly beneficial. Edison, Bell, Lincoln, and innumerable others ventured into the world of advancement and gained an everlasting prominence in American history. Wealth is not a sign of success. Financial retribution for a task does not mean the enterprise was successful. Only in a person's own heart does one know that he has attained the prime ambition of his mind.

The real logical thing in life is not gain. Experience is merely a gain for the phase of fact. All but remember that theory is not pure guess work. It is the result of careful study.

The last twelve years we have been studying facts. Probably the next four to ten years will be spent in the same manner on the theory that we can succeed in some field of work by experiencing the facts that former men have gleaned by glory.

A young man in the East was shoveling coal for a livelihood. He noticed the excess motion used by himself and his co-workers in delivering each scoop of coal. That evening the energetic fellow worked out a plan which eliminated nearly 70% of the movements originally employed. After experimenting with his plan he presented it to his fellow workers. Laughingly they tried it and were amazed at the results. Today this man is making a success of his business which results from this original experiment. He has mapped movement-saving plans for candy packers in a factory, and for lumber-jacks hewing logs in Canada, and has benefited humanity by developing that theory, which came to him in a sudden realization, into fact.

Just so, we left grade school and continued high school on the theory that our experimenting with knowledge would result in our choosing a career that will yield new facts.

So shall the majority of us endeavor to attend college to benefit ourselves and future generations in the ceaseless search for facts by formulating basic theories in high school.

 In a senior's heart
 As he lags along the way
 For now "good bye" is all he can say.

180 HOURS

Seniors, did you know that we have wasted 180 hours of our precious time by changing classes during our four years of high school?

Each day we spent 15 minutes, every week 75 minutes or 1 hour and 15 minutes 300 minutes or 5 hours each month. During the whole year we spent approximately 2700 minutes or 45 hours making 10800 minutes or 180 hours in four years used in walking from one class to another.

We have sat in our classes 61,200 minutes a year or 244,800 minutes or 4,080 hours for four years.

Student Voice

WHAT IS YOUR ADVICE TO UNDERCLASSMEN?

Irene Young—Always get the full benefit from your school activities and subjects as they will be of great use to you in the future.

Marie Sweet—Do as you are instructed to do; not what you want to do.

HOW DO YOU FEEL ABOUT LEAVING SCHOOL?

Una Jean Haxton—I regret leaving school because these four years have been happy and my carefree days will probably be over.

Dorothy Anderson—I have always looked forward to graduation, but now that it is here, I am sorry. It means leaving my many friends and happy hours.

WHAT HAS PROVED MOST BENEFICIAL TO YOU IN YOUR HIGH SCHOOL COURSE?

Jacqueline Gilger—All my subjects have proved beneficial because in looking for a position they all become necessary.

Elizabeth Bright—Shorthand and typing have proved to be most beneficial to me in my high school course because I'm interested in this field of work; and it has helped to move my way into the future.

HAVE YOU EVER HAD THE DESIRE TO QUIT SCHOOL?

Doris Young—Yes, I have had the desire to quit school and the only factor that kept me from doing so was my age. I am now thankful that I was only fifteen and not sixteen when I had that silly desire.

Francis Redar—No, I have not had a desire to quit school because school has been the happiest days of my life and I shall never forget them.

DO YOU THINK YOU HAVE ACCOMPLISHED ANYTHING IN YOUR FOUR YEARS OF HIGH SCHOOL?

Florence Heire—I believe I have accomplished much in my four years of high school by learning to study at the proper time instead of "cramming" at the last minute when it is too late.

Stephen Davis—Yes, I have accomplished much in the four years of high school by studying just the things I shall need in the business world.

LONG, LONG, AGO

Now that I am old and gray,
I should like to wander back some-
day

When I was a boy in school,
I should like to return to Hobart
High

Where I passed notes on the sly,
I used to ride the bus each day
From September until May
When I was a boy in school.
I studied history and math
Just for two credits and a laugh.
Like a flea, I was a pest;
I talked more than all the rest
When I was a boy in school.

TO THE SPONSORS

Hobart High School has eighteen major organizations. Each one of these clubs has a faculty advisor or sponsor. To these sponsors we owe our success and livelihood of our activities.

Try to imagine how a club could function without a trustful helpful person to back it up and to guide it.

A team could not get along without a coach; a band could not play well without a director; or a high school paper could not be published without the aid and patience of an older and wiser person. This same situation exists in a club. Without a sponsor we would have no clubs.

Many believe that it is the members who make a successful club, but remember, it is the sponsor who makes the member.

The seniors of '38 will always remember and appreciate the work of the various sponsors. To you sponsors, we say, Thanks!

The class sponsors are as follows: Mr. Williams, senior class; Miss Horne, junior class; Miss Martindale, sophomore class; Miss Lynch, ninth grade; Miss Anderson, eighth grade; Mr. Vandercolk, seventh grade.

The club sponsors are as follows: Miss McCanna, Girls' Club, Latin Club and Student Council; Mr. Francis, band; Miss Dorsey, Glee Club; Miss Weaver, Dramatics Club and Senior High Librarians; Miss D. Friedrich, Boosters' Club and girls' athletic; Miss E. Friedrich, Junior High Librarians; Mr. Yunker, Hi-Y; Miss Carnefix, Ho-Hi Life; Miss Holmar, Senior Play with Miss Lynch and Miss Weaver as assistants; Mr. Elpers, Traffic Squad; Mr. Belshaw and Mr. Todd, boys' athletics.

THE THREE-QUARTERED WAY

When the laurds of graduating are placed upon the seniors it means that he has completed the average amount of education required by the laws of the state concerning the education of a boy and girl. The three-quartered way is an expression that means that the senior has attended and graduated from primary, junior high, and high school. There is yet to go the other quarter for a more complete education. Education is never complete and never will be because there is always more to learn. Our grandfathers were fortunate to be able to attend school over a period of five or six years while the student of today should go to school at least twelve to sixteen years.

The in-comin' freshman hears a senior wishing that he could start his high school life over, but the freshman thinks that the senior is a little "touched in the head" as the slang expression goes. Until it is proven that freshmen should listen to upper classmen it will always be such.

So when the graduation day rolls around your way, make a hard attempt to go on and to have a well-cultured mind. When this happens I believe that the crime and political difficulties can be solved to a much greater extent.

THREE SENIOR GIRLS IN B-B FOUR YEARS

Mona Moll, Marcella Bruebach, and Ruth MacPherson, have participated in girls' basketball all four years of their high school life. As letters were not awarded until 1936, these girls have received only three letters.

Miss Ova Frantz directed the girls during their first three years of high school and Miss Dorothea Friedrich has been in charge this year.

Basketball was the only sport that the girls participated in. Play started in the last week of November and continued until the last of February. The girls practiced two nights a week. During the last week in February a tournament was conducted to which the public was admitted for admission. The money taken in at this tourney was used for a swimming party at Lew Wallace school in Gary.

New rules were introduced by Miss Dorothea Friedrich this year. Under these rules there are three guards and three forwards. The floor is divided into three parts, thus eliminating the jump at center. These rules make the game much faster and more exciting.

Other senior girls participating in this sport are: Lois Baker, Doris Young, Jackie Gilger, Celia Purdy, three years; Margaret Adams, Marie Sonntag, Mary Jane Wininger, Dorothy Stratton, Marie Sweet, two years; Phoebe Schroeder, Betty Johnson, Dorothy Correll, Dolores Sniall, one year.

THE TWELVE RUNGS

Now that we have reached the top rung of our ladder, let's turn around and look down at the very bottom rung. This is where we all started, in 1925, to climb the ladder which seemed such a long, hard climb.

Looking back now, it seems as if it were only yesterday that we were prodding our way to the Roosevelt gym to recite our lessons to Miss Ethel Rose or Miss Esther Beaver (Mrs. Ashley).

The second rung was with Misses Mildred Tabbert and Alice Payne, who trained us sufficiently for the third rung with Miss Mildred Schultz and Mrs. Martha Small.

Miss Mildred Sigler and Miss Opal Harrington guided our way successfully over the fourth rung to the fifth, where, in the middle of this rung we were divided. Part of Miss E. Jane Strom's group was sent to the new Mundell building under the leadership of Miss Esther Bloom.

We approached the sixth with confidence under Miss Lois Wilkinson and Wilma Cullman, and a few joined the junior high group. Half of our ladder was climbed.

Our confidence soon faded as we entered upon the seventh rung, called junior high. At this point the Mundell group was transferred to the main building, and we had to accustom ourselves to strange surroundings and rules.

On the eighth rung we began to prepare ourselves for high school. Here and there was a girl bold enough to wear make-up. Boys became "cocky" and bolder. In the spring we were allowed to elect class officers under Mr. Glenn E. Meiss. Philip Roper became president; Robert Wells, secretary; and Margaret Adams treasurer.

It was very hard to secure a footing on the ninth rung. We were in high school! Things were so strange. No one paid any attention to us and we were referred to as "dumb freshmen." That hurt our dignity, but under the guidance of Miss Elizabeth Daggy, we overcame many of our difficulties and elected Richard Worthington as president; Flor-

ence Rossow as vice-president; Virginia Frye as secretary; and Una Jean Haxton as treasurer. The big event this year was our freshman party at Mundell school with Bob Thiede's Orchestra. Here, many girls put on a little more make-up, dressed in their best clothes, and high heels. The boys had enough courage to ask a girl for a date and timidly asked a few to dance.

On the tenth rung our footing was more secure. With Miss Daggy as our sponsor again, we elected Jerry Killigrew as president; Dick Anderson as vice-president; Margaret Adams as secretary; and Bette Johnson as treasurer. Our sophomore party was a great success with Frank Kcever's Orchestra.

Upper classmen! That's what we were called now that we had reached the eleventh rung. With Miss Daggy as our sponsor, we planned our prom under the following leaders: Lucila Sonntag, president; Eugene Beckner, vice-president; Bill Shyroek, second-vice; Elma Allen, secretary; and Evelyn Lowitt, treasurer. We still have many memories of our prom with Mickey Iseley's Orchestra at the Gary Hotel. This might have been called our "coming out" party, we were now grown up or at least we thought so.

Our twelfth and last rung! How fast the time flew! First it was years, then months, weeks, and now days until our long climb will be over. When Miss Daggy left, we were fortunate to get Mr. Williams for a sponsor. Eugene Beckner was chosen to lead our group over the "top" with Anthony Kupkee as vice-president; Marie Sonntag, secretary; and Carl Westerholm, treasurer. This year we were guests of the juniors at their prom. Memories of this year's activities makes our last rung live with us forever. Commencement closed our years of climbing the school ladder, but we are just beginning to climb a new and longer one—the one called LIFE.

OUR EX-TEACHERS

Since nineteen thirty-four, when the graduating class of this year were freshmen, many teachers have left Hobart High. Do you remember Mr. Fonzo Lawler teaching E. E. History and Miss Elizabeth Daggy distinguishing a noun from a verb? The rules of sportsmanship were taught to the girls by Miss Ova Frantz. Mr. Raymond Junkel showed the boys the art of the woodshop and the technique of printing. The chorus classes were conducted by Miss Adelaide Ewing and Coach Merner Cull sent the team to victory. The band won national honors year after year under the direction of Mr. William Revelli. Mr. Guy Dickey was the Superintendent of H. H. S. until 1935. Last semester Miss Emma Clapp-English and journalism teacher, left Hobart High for a journalistic position in Louisville.

All these teachers have gone and others have taken their places, but don't forget that those teachers who have gone also played a part in the climb to the top of the ladder.

TROUBLE IN THE OFFICE

The pencil has made a number of pointed remarks about the sponge being soaked all day and the waste basket being full. The scissors are cutting up, and the mucilage is sticking around to see that the stamps get a good licking. The ink's well, but appears to be blue, while BW is stuck in the file and the calendar expects to get a month off. The blotter has been taking this

AMONG MY SOUVENIRS

In my souvenir box I find many things that bring back delightful memories of my high school career.

Here's a broken red paper heart. Why, that was from our freshman Valentine party on February 15, 1935, at Mundell School. These hearts were used to find partners for the game of "Cootie."

A black crepe paper band—gosh, let me think. Oh, yes, the Latin classes of '35 had to wear these on March 15 and say to any curiosity seeker, "The Ides of March Have Come." We certainly had everyone fooled.

A program from the Junior Carnival of October 31, 1935—gosh, who could forget Jerry Killgrew and Fullerton Boyd, Wayne Grabill and Eugene Beckner with their educated horse.

Digging down into the bottom of the box I find a colonial dance program from our sophomore colonial party at Mundell School on February 29, 1936. Remember the amateur we had at that party and how Dorothy Stratton, even though she got the gong, captured the first prize?

That was the night when the cleanliness committee was washing dishes and Jerry Killgrew unceremoniously spilled the punch upon Margaret Adams' new dress.

Um, a Globe Theater Program—oh, the Literature class went to see the Globe Theater players in the delightful comedy, "A Mid-Summer Night's Dream."

A picture in a frame of Hobart High School—who can forget the Junior-Senior prom at the Hotel Gary on May 7, 1937?

A few more souvenirs of this year's prom, Senior Week, baccalaureate, and commencement will be added to my souvenirs, and then my high school career will be closed.

Question: Can you differentiate between the twins?
Reply: Why try on, they've only been here twelve years.

It's the man who stavs on the level who never has to worry about making the grade.

OUTSTANDING MEMBERS

RECEIVE EMBLEMS

This year for the first time the band has given to its outstanding members an award which they can be proud of, and which at the same time helps to compensate for the hours they have spent in practicing.

This award, a beautifully shaped golden, musical lyre on a royal purple background with the word HOBART written diagonally across the center, was given to the band sponsor, band manager, drum major, and all those persons in the band who could fulfill the strict requirements. In order to do this one has to be a member of the band for two years, to go to the National Contest with a solo or ensemble, to be in the upper half of his section, to be recommended by the band officers and to be passed on by Mr. Francis. This limits the awards to only the best musicians in the band, and at the same time it gives the other members in the band something to look forward to and to work for.

This practice will continue each year and all alumni of the band who can fulfill all the requirements are privileged to buy and to wear their own emblems.

It was thought for a while that stripes were going to be awarded too, but the idea was dropped; however, anyone who receives an emblem is free to buy his own stripes according to this scale. One purple stripe for every two years in the band and one white stripe if you have held the first chair in your section for a year.

If some of the members wore a stripe for every year they have been in the band they would look like convicts.

M. B. S. is her best friend, she graduated at the half-year, and she is blond. Her last name is the same as the first name of a boy who recently left school.

COLORS AND MOTTO

Four years ago a group of eager freshmen met to select a motto, colors, and a flower for the class of 1938 to vote upon.

This committee aided by the sponsor, Miss Elizabeth Daggy, presented to the class several selections and the class unanimously chose for their motto—LABOR CONQUERS ALL. The tea rose was selected as their flower, and blue and silver as their colors; however, the colors were changed this year to red and white because of the new method of determining class colors which the Student Council introduced. Red and white, the colors of the Class of '38, will be handed down to the incoming seventh grade who in turn will pass them on when they become graduating seniors.

CLASS ROOM HAPPENINGS

The other day the Public Speaking class was telling jokes in class. As it came time for Jerry Killigrew to tell his little joke, it happened to be about Miss Weaver, his Public Speaking teacher. This is the way he told it.

One evening after school Miss Weaver noticed a group of boys in front of the building who seemed to have some disagreement. She walked over to the group and saw one of the boys holding a little dog.

She said, "Are you boys fighting?" Jerry replied, "No, we're trying to see who can tell the biggest lie and receive the dog."

Miss Weaver, "Didn't any of you boys ever tell a lie?"

Jerry said, "Yes, but we can't figure out who's was the biggest." Finally Jerry said again to Miss Weaver, "Did you ever tell a lie?"

Miss Weaver, after thinking a moment, replied, "No, I never did."

Jerry then said, "Well, boys it looks like Miss Weaver gets the dog with no trouble at all."

LETTER IN SONGS

TO MY ONE ROSE:
 DARLING, when I was with you last night, I really got THAT OLD FEELING, and I am all over my SWEET HEARTACHES now. Oh, ROSALIE, my darling, CAN'T YOU SEE what love and romance are doing to me? Yes, THIS IS MY LAST AFFAIR, but unless you will PROMISE ME to share MY CABIN OF DREAMS I will re- FROST ON THE MOON. At least tell me that you will think of me ONCE IN AWHILE! YOU'RE A SWEET-HEART if there ever was one and I no longer care for JOSEPHINE, so please don't be JEALOUS and keep me guessing. STARDUST is falling along the sea and I can picture just you and me watching the MOON OVER SHANGHAI. AH, SWEET MYSTERY OF LIFE, the BLUE MOON is fading and once again I am IN MY SOLITUDE, but THE NIGHT IS YOUNG and you're so beautiful that I can't get to sleep for THINKING OF YOU. TEMPTATION haunts me and I SEE YOUR FACE BEFORE ME, so I am going to WISH ON THE MOON that when I look at the clouds I may see THE IMAGE OF YOU and picture you and me sitting side by side at the WEDDING OF MR. AND MRS. SWING. WHEN THAT MOON COMES OVER THE MOUNTAINS, it brings back MEMORIES of you and me together in the ISLE OF GOLDEN DREAMS. LOVE MARCHES ON, SWEET LELANI, so I shall close with love to you my MELANCHOLY BABY.
 OLD MAN MOSE

NEVER AGAIN

Never again shall we feel the sensation
 The sensation of the joy of graduation
 To forget all the joys, and sorrows, and frowns
 And put on again the graduation gowns.
 Some of us will go on and determine to continue
 The studies we followed in Hobart High School
 To enter the various greater Halls of Learning
 Where the lamp of success is always burning.
 Some will join the professional ranks of business
 And become men of ambition and women of greatness.
 Others we shall see in the musical field,
 And some will aid wounds and sick bodies to heal.
 But never again shall we sit in the assembly seats
 Where across the aisle groups of friends we would meet
 To talk of a dance, to talk of a game
 Or just sit contentedly and watch the rain.
 Or to look up in space and count the squares
 That constitute the roof of the assembly up there
 Or to watch the teacher as down the aisles he passes
 Or to hear the joyous singing of the chorus classes.
 The faith which is marked in the teacher's class book
 Which is penciled with colors of a depressing look
 And we find that report cards do harmonize
 With the teacher's class book or else otherwise.
 Black is for A, usually blue for B
 Green may be used to mark up a C
 And disturbing colors pass for a D
 But you will always find red for an E.
 Never again shall we have all the teachers
 To advise us of the dangers of our life's future;
 Never again will our lives be the same
 As it was during the time of our high school reign.
 There were bells: there were books, there were classmates and friends.
 But we shall never see them all together again,
 So let us be happy and appreciate the things
 That the joyous school days of our high school bring.
 When you are graduated, and then after a while
 You look back to the years of your school days and smile
 Will you ever experience the joys of these things again?
 Never, no never again.

POET'S CORNER

FAREWELL

We know you hate to see us go;
For though we've caused you lots
of woe
We didn't mean the things we said,
The life we lead, and the sorrow we
spread.
Though we are few, I'll place my
guess
You'll hate to see us leave H. H. S.
We've been the backbone of the
school,
And though perhaps we might have
been cruel
We've certainly tried to do our best
And not to sleep through all our
tests.
You'll miss us a lot in '38 and '39,
For of course you know we've really
been fine.

MEMORIES

Do you all remember when—
Marie Sonntag would play hookey
By fainting in school and then
Go home and eat a cookie?
When Mr. Williams could hardly
hobble
After chasing up the chapel steps
For a certain Edward Fowle
Who was so determined to be left?
When Celia Purdy stuck her finger
In Chuck Denny's eye
His mother inquired if it still lin-
gered
And, of course, he told her no lie?
When Margaret Adams and Mona
Moll
Could hit Bob Bonner and Phil
Roper
With anything from hand to pole
With the teacher's permission—could
they choke her?
Is Lucella Sonntag still taking pills
As she did in first grade?
And didn't we all feel ill
When before Mr. Moss the petition
was laid?

WHEN SHALL WE MEET AGAIN?

We have come to the crossroads
In life's funny map.
Many of the friends we now know
Will only form a gap
In the memory of our high school
days
Where here long ago we learned
That only effort pays.
To whom now shall we turn
For friendly advice and sugges-
tions?
Because the teachers can no longer
Offer the usual daily corrections.
Some of us will grow stronger
And win world wide fame.
And we that can't be Rockefeller's
Shall be happy just the same.
We shall remember Superintendent
Sellers,
And Principal Nuzum will remain
In our memory with other faculty
members.
Will someone please the answer ob-
tain
To the question we all remember
When shall our seniors meet again?

REMINISCENCE

Away back there, twelve years ago,
When you were quite small
Did all your grown up family look
To you so very tall?
And did you have a pantry shelf
With popcorn balls stacked high
Which teased you up there out of
reach,
And made you wish to fly
Or did your sister have tall friends
Who dropped around at night
And ate up all these lovely balls
Which you should have had by
right?
I wonder if your mother went
Away perhaps to call
And left you with a dry old girl
You didn't like at all?
And do you now at seventeen.
Feel not one minute older
Than when you used to ride about
Upon your father's shoulder?

"THE SHIP OF '38"

Freshies, Sophs, and Juniors,
The ship of '38 has ended its sailing
The captains were our sponsors
Who guided our course unfailing.

We've sailed twelve long years,
Often the rough waves grew high
Some fell from the course we steered
And for the rest the end is nigh.

Sail on Freshies, Sophs, and Juniors,
The waters aren't so rough;
Sail farther, farther yet, why shucks,
That oughtn't be so tough.

Freshies, Sophs, and Juniors,
Pull together on these trips
Reach your harbor as bold seniors
And don't give up your ship.

THE REVIEW

We were awkward boys and girls
Bashful and shy, but quite alive
No hair on our chins and yellow
curls
The freshman class of "thirty-
five."

Not so shy—a little bolder
But still small town Hicks;
A little wiser; one year older,
The sophomore class of "thirty-
six."

Maybe we yet are dumb, we think
we're wise—
We're in our second heaven
We've learned to shave and trim
our eyes
The junior class of "thirty-seven."

Classmates, open up your heavy
eyes,
Wake up, before it is too late;
From now on, cross your t's and dot
your i's,
We're out of school in "thirty-
eight."

Specialization is that latest, and
probably the last word in education.

SPORTS SUFFER LOSS
THROUGH GRADUATION

Hobart High School will graduate several star athletes this spring which will weaken their teams somewhat, but they expect and hope that next year's teams will make some more great achievements.

The football team will be weakened heavily in the line with the loss of Captain Robert Wells at center. In his two years on the first eleven he played sixty minute ball in all but one game. That gives you a good idea of his value to the team as a whole. He was also a member of the wrestling team and a middle-distance man in track for two seasons.

Another stalwart defense man in football and wrestling is Carl West-erholm who took until his senior year to develop into a star.

Russel Sonntag, another lineman, will be lost to the football team.

Philip Roper has played right end on the first eleven in football and on the first five in basketball for the last two years. He also won two letters in track in hurdles and the quarter-mile runs.

Neal Smith, who led the basket-
ball team in achieving their great
record as captain, will also be missed
greatly. He played some good foot-
ball in his senior year and won let-
ters in track in his junior and senior
years.

Lloyd Schroeder has for the last
two years been a star half-miler on
the track team.

Robert Fowler put in four years
as one of the main reserves on the
football and basketball teams.

The ones who achieved the most
among these were Wells, who made
the all-conference football team;
Smith, the all-conference basketball
team; and Roper who made both of
the all-conference teams.

WHAT YOU SHOULD EXPECT FROM YOUR SCHOOL

(Supt. J. M. Sellers)

The community has a right to expect from any well organized school system, real opportunities for individual and social development. The school plant should be sufficiently diversified in character to conform to these demands of the average American community.

The school should offer a well planned program of general education for all children and youth. There should, in addition, be opportunity offered for vocational training. This training should be organized and presented on the basis of the vocational needs of the community in which the school is located.

The teachers of a community should be competent, carefully selected and well prepared. The teaching force should be interested in civic as well as school responsibilities. The community undoubtedly has every right to expect the teacher to participate in those civic affairs that further the group interests of a well organized and well integrated community life.

The average American community has every right to expect sufficient equipment and supplies for the children and youth attending the public schools. It is utterly absurd to provide the children and youth with a fine school building and perfect seating equipment but make no provision for books. Where children are asked to furnish their own books it is no uncommon occurrence for a child to attend school one-half year without having textbooks.

The schools of the future will provide student loans and outright grants in aid for those children who find it financially impossible to attend the public schools. Numerous children are forced, because of financial difficulties, to withdraw from the school at an early age. These students, where it is definitely demonstrable that a continued school life would benefit them, should either through direct grants or through student loans, be kept in school until they have completed the program of the modern secondary school.

The modern secondary school should offer two years of general education in addition to the present academic offering. Those students intending to qualify for the professions should pursue this academic course while attending the secondary school; however, the great majority of secondary students do not enter the professions. These students should be provided with opportunities for co-operative, part-time and full-time vocational education.

It is also hoped, within the near future, that the Hobart City Schools will be able to work out a co-operative, or part-time, vocational education program in conjunction with the major industries of the Calumet area.

AMERICAN EDUCATION WEEK NOVEMBER 7-13

**HOBART HIGH TO OBSERVE EACH
DAY, CLOSING WITH OPEN HOUSE**

The week of Sunday, November 7, to Saturday, November 13, has been set aside as the American Education Week for the year of 1937. This is an annual event arranged so that Armistice Day, November 11, comes within the week. The entire Hobart school system will observe this week, and a special invitation is issued to parents to visit schools.

The general theme for the observance this year is "Education and Our National Life." Each day of American Education Week is devoted to a different phase of education, as follows:

Sunday, November 7—"Can We Educate for Peace?"
Monday, November 8—"Buying Educational Service."
Tuesday, November 9—"The Horace Mann Centennial."
Wednesday, November 10—"Our American Youth Problem."
Thursday, November 11—"Schools and the Constitution."
Friday, November 12—"School Open House Day."
Saturday, November 13—"Life-long Learning."

As this is the centennial year of Horace Mann's birth, he has been honored by the observance of Tuesday as Horace Mann Centennial Day.

The culmination of the week in the high school is to be held on Friday night with open house, at which time the parents of the students may meet as guests of the faculty. Refreshments are to be served and a program will be presented under the directorship of Miss Holman, assisted by Misses Weaver and Lynch.

STORK FEATHERS

Mr. Bertram Francis, the bandmaster of Hobart High School, was presented with twin girls early Sunday morning, October 17, at the Methodist hospital.

JUNIOR CLASS GIVES FIRST BENEFIT SHOW

The dates of November 3 and 4 have been claimed for their benefit picture, "Girl Loves Boy", by the Junior Class. The annual junior benefit usually comes in the fall, but this year it is the first benefit for the school.

Cecilia Parker and Eric Lynden play the leads in this entertaining picture as characters somewhat like those they played in "The Family Affair" and "The Good Old Soak."

Tickets will be sold by members of the junior class for twenty cents apiece. These will be good for the second show on Wednesday, November 3, and both shows on Thursday.

KILLIGREW HEADS STUDENT COUNCIL

With the passing of the Student Council gavel from the hands of Florence Rossow to the new president, Jerry Killigrew, the 1937-38 officers began their terms.

After the roll call and minutes of the last meeting were read by the retiring secretary, Marian Zander, Miss Rossow gave her farewell address. The installation of the new officers was conducted by the judge, Charles Donnelly.

The business meeting was conducted by the new president. The club decided to continue the practice of having minute men, and a committee was appointed to choose a student committee whose job it would be to select the colors and mottoes for the various classes.

A very attractive lunch of fruit salad, crackers, and cocoa was served by the refreshment committee: Betsy Ripley, Irene Call and Georges Smith.

Jean Tompison, Albert Bauer, Ruth MacPherson, Jeanne and Caroline Grinn, Richard Worthington, Marian Zander, and Florence Rossow, guests of the evening, enjoyed a chat about old times with the current members before taking their departure.

BAND PRESENTS FALL CONCERT HERE. NOV. 2

**VARIED PROGRAM TO OFFER CON-
TEST NUMBERS "BUD"
PACKHAM, GUEST**

The national champs, Hobart High School Concert Band, will once again give the public an opportunity to attend the annual fall performance, Tuesday, November 2, in the Roosevelt auditorium.

The talented young musicians under the brilliant direction of Mr. Bertram Francis, are working strenuously to make their concert the finished product in symphonic band music.

The program is exceedingly heavy and will include required concert music. The main number and big hope of the band in making the concert a success is the difficult "Prince Igor" overture by A. Borodine. The overture, if studied carefully, will give the listener a clear conception of the type of music played in modern day compositions. This is the required class A number for bands in this year's National Band Contest.

Also included in the program as guest speaker will be the local "Hoosier Poet," John "Bud" Packham. Mr. Packham will give a presentation on the subject, "The Hoosier Side of Life."

SENIOR PLAN TO BIND HO-HI LIFE

"Save all your copies of Ho-Hi Life. Don't mar them in any way."

These were the words spoken by Mr. E. P. Williams in the assembly when he explained the seniors will again arrange for the binding of the issues of Ho-Hi Life at the close of the second semester.

The cost for having the copies bound will be seventy-five cents. This may be paid in a lump sum or in twenty-five cent installments.

This project will also be started; if any student is planning to leave his copy bound, remember the above warning.

HO-HI LIFE

Edited by the journalism students and printed on the home newspaper Hobart High School. Local subscriptions fifty cents and mailed subscriptions eighty cents a year. All advertising approved by the Merchants' Association of Hobart.

OUR PATROL BOYS

Do you appreciate the Traffic Squad?

Often we fail to consider the value of this organization to our school.

These patrol boys go on duty regardless of weather conditions to direct traffic and to assist the younger children cross the streets. These patrol boys help to prevent accidents and are recognized by the local police for their worthy work.

When a boy on duty asks you to stop, don't give him a smart word because the only reason he is there is to help you.

Leading schools throughout our country have patrol boys. Surely we should be proud of our boys who serve our school so faithfully.

CLASS COLORS

What are the colors of the classes in Hobart High School? Can you name them? Think how handy it would be if you always knew what the class colors were.

For instance: Why not have a set of six colors which would be the regular class colors for Hobart? The incoming seventh grade would carry through their six years of school the colors and banners of the previous graduating class; and at last, as seniors, pass them to the incoming seventh grade. In this manner there would be no question about the colors.

All in favor of this suggestion say "Aye." It would be convenient because there could be no duplications of class colors. Many schools follow this plan effectively.

COURTESY FIRST

Two girls laughingly walked into the high school building, swinging shut the heavy front door which just barely missed slamming on the fingers of a girl who followed close behind. She had an umbrella in one hand and an armful of books in the other. After much shifting, and twisting, she finally succeeded in getting the door open and entering the building.

Have you witnessed similar occurrences? Have you, perhaps, been guilty of such discourtesies yourself? In a high school there are many opportunities for courteous acts as well as those which are discourteous. A few of the students take advantage of these opportunities as is seen by the Student Council awards. However, these students are in the minority. The majority of students go through their four years of high school with never a thought, either of being courteous or otherwise. Most acts of rudeness are caused through sheer thoughtlessness rather than an actual desire to be impolite. Very few students go out of their way to be polite and kind, yet every student admires the one who does so. Courtesy and tact are not inborn qualities but acquired ones. Thoughtlessness is a bad habit at any time and should be overcome. If this is accomplished, it will eliminate the danger of one's being unknowingly impolite, and allow one to keep his thoughts on the more deliberate acts of courtesy.

The Courtesy Award, given along with other Student Council awards, equally desirable, is one to be striven for. For, courtesy developed in high school is natural courtesy in later life. And natural courtesy and thoughtfulness are two of the primary "musts" in friend-making.

WHAT TO DO

A man should stand at once if anyone comes to his table in a public restaurant, and he should remain standing until the person is seated or has made his departure.

SNOOPIN' AROUND

Well, folks, here's the Snooper to greet you once more with his news, new cases, gossip, and theme songs.

Say, speaking of theme songs, here's one that Wayne Grabill should adopt.

"Oily to bed

Oily to rise

Such is the life

Of filling station guys."

Leave it to Rosalind Stratton to start a new fad. It's suspensers this time, and they're so loud that no one can hear himself think in the assembly.

Those traffic squad boys are really doing their duty these days. There's no parking in front of the school now. Rainy weather isn't even a good alibi.

We finally found out why Dorothy Correll doesn't look at any boys—their's Franklin Rhoades.

Lorenz Kinney seems to like Camp 133 lately. We wonder why.

I saw Ruth Kelberg get into a green Chevrolet the other day after school. Come on, Ruth, give us the low down. Who is he?

Le Roy Brown seems to be liked by quite a few girls. I've heard several girls say, "Oh! I wish he were older; I'd set my cap for him!" Watch out, Le Roy. I smell trouble.

I heard that Vernon Schmelter is a girl hater. I wonder. Come on, girls, do your stuff!

Victor Brotko goes for Bertie Rhoades in a big way. Am I right, Brotko?

Betty Robinson seems to have an interest in cars as well as motorcycles. It's a '35 Chevie now.

Maxine McKee has missed very few of the football games this season. Wonder what the attraction is?

Bill Shroyck has sung "The Miller's Daughter Marianne" so much lately that Ethel Libbie wanted to know if he were engaged to her.

To all and sundry: It is Isabelle, not Isabelle, Dumbosky.

Who kept Norma Alexander waiting in the assembly one noon hour?

Helen Gosnell is evidently quite popular with the owner of a bright green coupe.

Did you notice those signs on the blackboard during the week of October 11-15? Well, they had the desired effect. There was certainly a record crowd at the Crown Point game.

Who was the girl who flirted so outrageously with 2-10 Daniel at the convocation?

HO-HI SONG

And when old Hobart High School falls in line,
We're going to win that game another time,
And for that dear old school we love so well
And for that old ball team we'll yell and yell and yell!
We're gonna Fight! Fight! Fight! for every score!
We're gonna roll old on the side.
Roll! Roll! Roll!!!

SPOOKS TALK

SATISFY YOUR CURIOSITY

We all know that Hallowe'en is the day of pranks and gayety, but have you not sometime wondered where it originated? I, too, was curious and with the aid of an encyclopedia satisfied my curiosity.

Hallowe'en is so called because it is the eve of the Christian festival of "All Saints" which is on November 1. The name of Hallowe'en means "Holy Eve".

About thirteen centuries ago, "All Saints' Day" was celebrated by the pagans as the day when all spirits, good and evil, were believed to roam this earth. Our customs of bobbing for apples, telling ghost stories and fortunes, and building bonfires are relics of pagan days.

The Druids also celebrated their harvest festival near this time and many strange ceremonies were performed.

When the pagans adopted Christianity, they kept many of these strange customs. Some of these survived as Hallowe'en customs of today.

HALLOWE'EN RULES

Beware! The goblins will get you if you do any of these things on that eve when the goblin walks.

Soap all the windows you can find. If you think soap will wash off too easily, try a little wax.

Destroy all the property you can. Hobart people are prosperous enough to replace all things you destroy.

The alley isn't the place for rubbish; therefore, put it on the front porch of someone's home.

Scare all the small children you see.

"Crash" all the Hallowe'en parties to which you were supposed to be invited but were accidentally forgotten when invitations were sent out.

THEME SONGS

"All I Wanta Do Is Dance" — Francis Greener.

"Me, Myself, and I" — Charles Greenspan.

"I'm in Love Again" — Virginia Frye.

"Mickey Mouse's Birthday Party" — Chuckie Walters.

"Josephine" — Dorothy Strattan.

"You Gotta Be a Football Hero" — Philip Roper.

"You Can't Stop Me From Dreaming" — Una Jean Haxton.

"Singing the Blues" — Frances Reeves.

"Posin'" — June Wilcox.

"The Miller's Daughter Mary Ann" — William Shyrook.

"Yours and Mine" — School Books.

"The You and Me That Used to Be" — Shirley Roper and Byron Findling.

THE MONKEY GOD

NOT more than a year ago I met, at a convention in Chicago, an old friend of mine. I had not seen him for a long time, but even so I noticed a great change in him. He had the look of a man who is constantly haunted by fear. Being an archaeologist particularly interested in South America, I supposed his ill looks to be the result of a fever.

The second time I saw him, we were at a banquet; and afterwards, for the sake of old times, I invited him in for a chat. This seemed to have been exactly what he was waiting for, because we had no sooner gotten inside than he slumped into a chair and announced that he had something important to tell me. He did not ask me to believe it, only to listen.

He was interested in the South American Indians and heard from a reliable source that in a certain region along the Amazon river there was an old shrine and in it a statue the worth of which could not be estimated, for it was made of pure gold. Inside this temple there was all the wealth of a nation long since vanished, and he was determined to find it, not only to find the riches, but also to discover hitherto unknown clues about this people.

He got together an expedition of native blacks and a white guide which he picked up at Manaus, another white man who was his friend, and himself. To be sure the chances of finding the place with only a superstitious half-native guide to lead them were rather slim, but one has to take chances in any profession. Striking south west from Manaus, in about a week they arrive in the desired region as nearly as they could ascertain from their maps.

THE second day in this region the blacks seemed restless, but in the evening fear took hold of them, and with reason, too. Twilight comes early in the jungle because of the heavy undergrowth, and as the light grew dimmer and the party stopped to make camp, a dull greenish haze filled the air so thickly that one could not see his hand in front of his face. The natives huddled together, seeking comfort in the proximity of one another, and my friend himself was amazed. Suddenly there came out of the haze a deep booming voice. "I am the Monkey God. Venture not to my tomb. Death will be your reward." Frightened nearly to the point of death the blacks were ready to leave then and there, but persuasion and the promise of higher pay overran their superstitious fear.

The expedition made rather slow

progress the next day as no one was in a hurry to find if the voice was in the habit of speaking the truth. Nevertheless, that evening the Monkey God spoke again in the same manner as before. Again the archaeologists bribed the natives and all went well, until morning. When the pair awoke they were alone with the remains of their food and ammunitions.

Undaunted by these conditions the two pressed on the remaining few miles, and on the evening of the third day actually reached the mysterious temple. The first thing in the morning they explored the temple, each going his own way; so my friend came upon the statue of the Monkey God, alone. As he stood looking at it, the greenish haze enveloped him and the Monkey God spoke, "You have been warned, and you will be punished. Three times must you die, the first by rope, the second by fire, the third by water. And none of these three shall be final."

My friend hastened from the temple at these words, for the first time really frightened. Immediately he and his comrade left the place and started back upon the trail they had marked. A few days later as they were going through the underbrush my friend got a little behind and was suddenly snatched off his feet and left swinging in space. Surprised and frightened he tried to call out to his friend but found himself unable to speak. Just before he lost consciousness, he heard the voice of the ancient god again. "You shall die three deaths. The first of these by the rope, the second—". He came to to find his friend watching him anxiously.

FORTUNE TELLER GIVES INTERESTING SIDELIGHTS

Since we all like to have our fortunes told and Hallowe'en is near, I took the liberty of interviewing Madam Gynsy Tinka. She told me some fascinating things that will happen to Ho-Hi students in the near future. Here are a few of her prophecies:

Mark Scharchbach in 1950 will be the business English teacher of Ho-Hi.

Oliver Rees will tour Europe in 1942 as Yo-Yo champion.

Richard Worthington will be president of a large business concern in New York sometime in the near future. Madam Tinka was not positive of the date.

In 1941, Iris Zelenka will be a regular member of the W. L. S. Barn Dance Troupe.

Bradford Colburn of the Latin class of 1937 will portray Julius Caesar in the old Globe theater production in 1946.

VERA HARTNUP HEADS SR. HIGH LIBRARIANS

Vera Hartnup, a senior, was elected head librarian of the Senior High Librarians' Club, Thursday, October 7. Lois Baker and Dorothy Cornell, other candidates, offered close competition.

Lois Baker, retiring head, gave a short speech thanking the girls for their co-operation of last year. She said that she had enjoyed working for and with the club and wishes the new head, Vera Hartnup success.

Other successful candidates were: assistant head, Elaine Ludvigson; secretary-treasurer, Margaret Adams; keeper of the black and white, Marie Sonntag; and Mildred Hentschel, Student Council representative.

Two new members were also elected into the club to fill vacancies. They are Ethel Johnson and Helen Krancac.

Miss Leta Weaver and Miss Emma Friedrich, co-sponsors of the club, welcomed new members and expressed the hope that this year would be successful.

GIRLS' CLUB RALLY AROUSES INTEREST

Campaign speeches were given Monday, October 18, at four o'clock in the high school assembly by the candidates for offices in the Girls' Club.

The rally takes place every year about a week before election of officers to acquaint members with the girls who are running for some office in the Girls' Club.

A favor march was the means by which the favors, small wooden gavels, were distributed among the members. During the favor march all candidates for office had to carry a poster telling what office she was running for.

Refreshments of orange pop, apples, and doughnuts were served.

BOOSTERS ELECT NEW MEMBERS

New members of the Boosters' Club were voted in Wednesday, October 13, in room 319 at four o'clock. The membership of this organization has now reached the desired goal of forty members.

At this meeting the new constitution of the club was read, criticized, and turned over to the constitution committee to make necessary revisions.

The meeting was adjourned after the two yell leaders led the group in some peppy yells.

It seems that some of our students are becoming absent-minded all of a sudden. Surely they aren't suffering from spring fever this time of year?

NEW CLUB PROGRESSES

The Dramatic Club, under the sponsorship of Miss Leta Weaver, was organized in the assembly on Wednesday, October 13.

The following committees were elected: Constitution—Doris Young, Wayne Morgan, Lois Baker. Name committee—Mildred Morgan, Wilma Morgan, Betty Passow. Committee to nominate Student Council member—Ethel Johnson, Edith Wilson, Marian Pritchard; and nominating committee—Virgil Cornett, Fuller-ton Boyd, Martha O'Brien.

At the next meeting these committees will report and the various issues will be voted upon.

Also a drive was planned to secure more new members who like to act or are interested in any form of dramatics. If you are interested in joining please attend the next meeting.

HOBERT STUDENTS HEAR B. A. DANIELS

2-10 Daniels, the talking doll owned by Mr. B. A. Daniels, entertained the students of Hobart High School at a convocation in the gym, Wednesday, October 13.

Mr. Daniels opened his program with a series of shadowgraphs, that is, shadows forming pictures when thrown on a lighted screen. One of the most interesting of these showed the effects of the first cigarette.

With the assistance of two junior high boys, Mr. Daniels next performed a rope trick. Immediately preceding the main act of his show he introduced to the students his pet monkey, Bobo, a puppet, who seemed to understand his questions and answered them with gestures.

After 2-10 Daniels had been brought on the stage, Mr. Daniels quizzed him on various subjects and was disappointed to find that he did not answer correctly. The distraction proved to be a little girl in the front row. Mr. Daniels was not able to hold 2-10's attention completely for he made several remarks about the audience. The crowning event of the show was the song, "The Old Spinning Wheel," sung by 2-10 Daniel as he exited from the stage.

The next of the series of paid convos will be November 23, when Mr. Phillips Foxwell, the magician, will demonstrate to the students that the hand is quicker than the eye.

Guess Thelma Calvert has a touch of spring fever, too. We're wondering where her mind was when she fell off her chair in bookkeeping class.

In economics class, Mr. Sellers asked:

"Mr. Schmelter, where do you suppose the man lives who furnished the bananas for your breakfast?"

"Oh," replied Vernon, "somewhere near a banana tree."

"PIGSKIN PARADE" CLUB BENEFIT

The Senior High Librarians' Club will sponsor "Pigskin Parade" as their benefit show, November 10 and 11, at the Strand theater. They will sell tickets for the last show on November 10 and both shows on November 11.

The story concerns a small town farmer boy, played by Stuart Erwin, who plays football in a small college in Texas. Erwin can play a winning game only under certain circumstances, which the picture will reveal. Complications arise when an invitation to play was sent by mistake from a large eastern college to this small town college.

Some of the all-star cast who add comedy and romance to the picture are Patsy Kelly, Jack Haley, Tony Martin and Arlene Judge.

Tickets at twenty cents may be purchased from any member of the Librarians' Club.

CAESAR'S ARMY MARCHES

"Caesar's army marches at four-fifteen."

The army did march forth from its temporary headquarters, Hobart High School, October 11, at the appointed hour. The soldiers were dressed in the official attire, togas. Ahead marched the most superior officer, General Mildred M. McKenna.

After arriving at the scene of action, Krancac's woods, the company halted to prepare the supper of raw meat and unbaked dough. Because some of the soldiers were not experienced cooks, they carried cold lunches. As a rare treat the Romans were served frosties.

At the appointed hour of seven-thirty bearing flaming torches of burning candles, the army returned to its permanent camp, Hobart, Indiana.

FANCY THAT!

Our most used expression, "Not much chance for wear," was written by Homer in the 18th century.

"Knock! Knock! Who's There?" Believe it or not, Shakespeare started that! For further details read "Macbeth."

Goldsmid reached "the pink of perfection" one hundred years ago.

Boys, "once gives consent" is a good rule to keep in mind, even if it is 200 years old!

If you are "sick as a horse," you aren't being original. Laurence Sterne felt the same way two centuries ago!

"Cleanliness is next to godliness" is a modern entreaty used by cruel mothers to make their long-suffering boys wash behind the ears! Francis Bacon said that four hundred years ago!

"Every dog has his day." Even in 1600 A.D.

GLEE CLUB PLANS SOCIAL CALENDAR

At the third meeting of the Glee Club, Monday, October 12, plans for the social year were discussed, and a committee was selected to make up the social calendar.

On this committee are Iris Zeilenka, chairman, Florence Cook, Florence Heine, Donald Denman, and Esther Strakis. This committee will give the final plans at the next meeting.

Also at this meeting voices were tested, and proper breathing exercises were stressed.

The club, under the direction of Miss Edith Dorsey, is now working on several songs, two of which are "The Cradle Song," by Brahms, and "Barcarole," by Cherrymann and Offenbach.

Found: That "Galloping Ghost", "Tiny" Fred, and Carl like cider. Tell us where you get it.

Found: That one of last year's grads is writing to "Izzy."

Lost: The ability to curl hair. If found, tell Mary Margaret Raye.

SHADOW MAGIC

"Me and My Shadow" might have been Mr. Daniels's theme song, but instead of strolling on the avenue, it was toward the gym for convocation, Wednesday, October 13.

The entertainment was truly interesting, and it provoked many laughs.

The young lady combing her hair evidently did not intend to wait for some grouchy husband to "snatch her bald-headed."

The future Isaac Waltons surely will fish from a safer boat and on a calmer lake than our fisherman friend did.

Perhaps the first fish that Bo-Bo described got away. He should be made to realize that a true sportsman doesn't keep an undersized fish such as he later admitted keeping.

How those romantic seniors of both sexes sighed at the love scene on the balcony. Just like Romeo and Juliet!

The young man that answered questions was extremely intelligent, even being able to count. But really, it appeared his education in arithmetic was garnered at the bridge table.

OCTOBER BIRTHDAYS

Here I am again, folks! Your birthday reporter to let you in on some more birthday discoveries for the month of October. October is a beautiful month, for leaves are turning; and the thoughts of snow and cold weather setting in. Bur-ur! I can feel the real cold weather already. October also brings with it that happy and joyous Hallowe'en, which I am quite sure everybody enjoys.

My goodness! here I am chattering away, and am not letting you know what you are waiting to hear. Well, here they are.

In the senior high the October birthdays are William Ahlgren, Marilyn Baumer, Delos Brooks, Leroy Brown, Phyllis Drennan, Allen Fleck, Edward Fowble, Carol Haddock, Martin Harner, Luther Howell, Joyce Irick, Henry Kasper, Micheline Krusza, Marjorie Louks, Harriett Stapiniski, William Salter, Betty Jane Shafer, Mildred Shiyan, Robert Sohn, Russell Sonntag, Marie Sweet, Francis Tromble, Clarence Winingner, Frank Wonsiurz, and Eunice Young.

Those in the junior high are Charles Bannister, Robert Balitz, Thelma Dekema, Herbert Fasel, Mary Johnson, Mary Pellegrini, Paul Sigler, Betty June Springman, and Edna June Stevens.

Again I say, that's all for this time, but I'll be seeing you. "Happy birthday" to you, October folks.

MENTAL WANDERINGS

Today, as I sat waiting for the bell to end the fourth hour assembly, my thoughts wandered far from school and the students around me faded from view.

I heard the drone of many muffled airplane motors above. One of the fairy like squadron swooped down upon me with the speed and ferocity of a demon. I lunged to one side; swung at the object soaring at me; my aim was true; the plane and its pilot crashed to the ground.

The spell was broken by the bell rang and I found myself in the assembly again. There on the desk in front of me, was the demon; just another fly.

THERE'LL COME A DAY--

When Russ Sonntag will weigh a mere 150 pounds.

When Frances Rhoades will be a bloof.

When Leroy Brown will be 6 ft. 2 in. in his stocking feet.

When all students will study diligently.

When one can hear a heart beat in the assembly.

When Warren White will drive a Packard instead of the 'ole Lizzy.

When silence will reign in the portable.

When Betty Ittel will be the mainstay on Ho-Hi's football team.

JUNIOR HIGH LIFE

A recent survey showed that a number of students were interested in dramatics; consequently a Junior High Dramatic Club was organized. Freda Libke has been elected president, Shirley Lankford, vice-president, and Olga Kleick, secretary-treasurer. It was decided that this organization be non-social, operating merely to afford students an opportunity to gain dramatic experience.

JUST A JOKE

Jean: "That is Anna's cup you are drinking from."

Guest Margaret: "Oh, I am honored. Is Anna your little sister?"

Jean: "No, Anna is our fox terrier."

These junior high students are taking their studies very seriously. Just ask Edward Erwin about his favorite character in history, and he will go to great lengths about Champlain.

This would be a strange place, indeed, if:

The check room people really were quiet.

Mr. Bagshaw weren't pleasant.

The students didn't stamp up the stairs.

Paul Fleming arrived in class on time from band practice.

Evidently financial troubles have invaded the junior high. It is said that Jean H. and Edna June S. are worried about some "Jack."

Room 319 has been drawing a number of visitors who are eager to see the project worked out by Miss Weaver's 7A Literature group.

After reading the selection, "My Life in the Wilderness," by Anna Howard Shaw, different members of the eight hour group constructed a miniature setting described in the reading. Work was delayed on the project during the rainy season, because dry sand was such a scarcity.

EXCHANGES

A student of the school of dramatics has vowed never again to play the mummy. He had to stand still for three hours while make-up men pasted strips of gummed paper around his body. The Stiletto, Kinkadee, Missouri.

North Platte High School has recently formed a Student Patrol for the purpose of safeguarding the students against accidents. The Round-Up, North Platte, Nebraska.

The Ruth Hunt Chapter of the Children of the American Revolution has given a Constitution Shrine to the North Side. The Northerner, Fort Wayne, Indiana.

Thirty new books have been added to the library in the Crown Point High School. Inkings, Crown Point, Indiana.

49 Honor Roll Students Listed

Forty-nine students received their reward for six weeks studying by being placed on the honor roll. Diligent work is required to obtain this position, because a pupil carrying four solids must have at least one A and all three B's; those carrying three solids must have three A's and five solids, five B's.

The Freshmen class heads the honor roll with nineteen students:

PEP SESSION HELD BEFORE HOME GAME

Jacqueline Gilger, as president of the Boosters' Club, presided at the pep session held in the gym on Tuesday, October 19. Because until Wednesday, October 20, there had been no home football games, this was the first pep session of the year.

The theme of this session was loyalty, and that was the subject of three of the four talks given. Coach Todd spoke on the loyalty of the school to the team, Bob Wells, captain of the team, on the loyalty of the team to itself, and Isadore Greenspan on the team's loyalty to the school. Coach Belshaw talked on the plays and possible outcome of the game.

After the speeches the new yell leaders, Betty Passow and Celia Purdy, led the students in some new yells. At the beginning of the session the band played several numbers, and at the end it accompanied the students in the school song.

Members of the Boosters' Club passed out mimeographed copies of the yells at the doors, and the yell leaders asked that they be learned for the games.

CLASSROOM DETECTIVE

It seems that nothing can faze the modern student. With six weeks' exams just out of the way and Halloween just around the corner, I thought I would have to do some fancy snoopin' this time to even get one clue, but look what I got—and without my disguise, too!

Everyone is wondering if shorthand students will ever be able to write either all shorthand or all longhand. These mixed messages are very confusing, I hear.

Attention, boys! Miss Edna Friedrich's food class is now baking. One of those girls would make a fine wife for a boy who likes home cooking.

Watson is still trying to solve the mystery of the reincarnation of Caesar by Miss Mildred McKenna's Latin classes.

Watson also reports that he thinks they're going to do away with the principal's office now that Miss Juanita Horne's bookkeeping classes have a complete office force.

Adios! See you in the next issue.

HO-HI BRICKIES ROUT CROWN POINT, 27-0

After losing a tough battle to Benton Harbor, October 8, by a score of 7-0, the Hobart Brickies went ahead to take a win from the Bulldogs at Crown Point, October 15, 1937.

The Brickies played outstanding football in both games, showing that they do have competitive spirit, but Benton Harbor proved to be the tougher of the two teams. The Brickies were knocking at Benton Harbor's goal consistently, but failed to put the ball over. When the gun went off in the final period, Hobart held possession of the ball in Benton Harbor's one-yard line, but still that extra punch was lacking.

Izzy Greenspan appeared to be back in his old form, after his knee injury, when he scored the first touchdown against the Bulldogs. The other touchdowns in the Crown Point game were made by George Murray, Ed Reuter, and Phil Roper. The three points after touchdowns were added by placement kicks in which the ball sailed straight through the uprights.

The Brickies seem to be in stride now, and Bud Tromble is doing a swell job of bucking the line.

Attend the games and boost the Brickies.

SPORTS GOSSIP

Izzy Greenspan and George Murray were surely mad when they found that their good shoes had done the disappearing act while they played in the Benton Harbor game. After the game instead of being able to put on their dress shoes, they had to wear their grid shoes home.

Bud Tromble and Neal Smith each made a touchdown in the Benton Harbor game, but the team was off side and the score did not count. At the end of the game the score was 7-0 in favor of Benton Harbor.

What was the big attraction at the Benton Harbor game? The football boys say it was the ALL GIRLS BAND!

Coach Todd led the boys on the bench in yells at Benton Harbor.

George Murray and Edward Reuter provided songs for the team on the trip home. They call themselves the "Serenaders."

Victor Brotko gave three cheers for every player. Victor is one of the most popular boys with the team.

What is keeping Vernon Schmelter out of the line-up?

H.H.S. VS. TOLLESTON IN LAST GRID GAME

The Brickies will close their 1937 grid season with Tolleston, November 6. Although Tolleston held a strong Valpo team to a scoreless tie, the west Gary eleven is at the bottom of the county standings.

With any luck at all, the Brickies will carry off Tolleston's scalp and add it to their string of victories, which is none too long. The Brickies lost 2 while winning 5. The two wins came from the Griffith Panthers and Crown Point's Bulldogs. The defeats were suffered at the hands of Horace Mann, Lew Wallace, G. R. Clarke, Benton Harbor, and Valparaiso.

So boost your team rain or shine. Hobart can win any old time if we have student support.

BRICKIES DOWNED BY VALPARAISO VIKINGS

Playing a losing game at Mundell field, Wednesday afternoon, October 20, Hobart was defeated by Valparaiso Vikings 13 to 6.

Valparaiso started the scoring in the second quarter when they took possession of the ball on Hobart's 40, when Roper got off a poor kick. With a series of end runs and line plunges they went over, the kick was good.

Valparaiso kicked off to Hobart who took the ball to Hobart's 30. Tromble threw a pass, which was intercepted, and Valparaiso carried the ball to Hobart's twenty-five. On the first play the Vikings threw a long pass, which was good and rang up Valpo's second score. The kick was no good.

Hobart came back in the third quarter and scored their lone touchdown. On a pass from Tromble to Roper followed by a series of line plunges, Tromble went over from three yards out. The kick failed.

This ended the scoring for both teams.

CONSTITUTION TREE TO BE PLANTED NOV. 11

A Constitution tree will be planted by the Government class, studying under Mr. E. P. Williams, Thursday, November 11, in honor of the signers of the Constitution. Thursday has been designated as the "Constitution and School Day" of National Education Week.

The tree will be planted on the west side of the building. Plans are being made to collect pennies from the students to pay for the tree.

At the ceremony Betty Passow, representing the government class, will give a short talk dedicating the tree.

Special arrangements are in charge of the following committee: Byron Findling, chairman, Hugh McCathern, Marie Sweet, Thelma Calvert, and Emma Valette.

BAND MOTHERS MASQUERADE DANCE BIG SUCCESS

With gayly decorated Halloween designs serving as scenery—the smooth, melodic swing of Frank Keever and his "Swing Nine"—the pumpkins, witches, goblins, masks, noisemakers, and a gay throng—the Band Mothers celebrated their Halloween masquerade, October 27.

The Band Mothers' Club are working hard to build up funds enough to send the band to the National Contest this year.

Next Monday, November 1, there will be a raffle on a beautiful quilt to be given free to some lucky winner. Quilt tickets can be had from any band member or mother.

THE MONKEY GOD

(Continued from page three)

and learned that he had been caught around the neck by a trailing vine.

THE next evening they made a fire for the first time, and the recently hanged man fell asleep beside it. Suddenly he heard the monotonous voice of the god and found himself in flames. When the fire was out he found himself miraculously unhurt and unscathed.

In order to reach Manaos they had to cross a river and at the ford one of the men slipped. You know, of course, which one it was. When he regained consciousness he found himself caught on a snag in the river and managed to get to shore. Then he heard the last phrase of the god's speech, "None shall be final."

Ranged and frightened the pair at last reached civilization and later still the United States. This is a fantastic story and I do not ask you to believe it. But true or untrue there remains this fact: Not more than a month after he told me this story my friend died and the doctors have not yet found a cause for his death.

HORACE MANN

FOR YOUNG PEOPLE

YOUTH EDUCATION

There are twenty million one hundred thousand people in the United States between the ages of sixteen and twenty-four, inclusive. Approximately one-fifth of this number is in school; others are out of school and working, or seeking work, or are married.

The number of young people looking for jobs is second only to the number working, and it is close second. There are hundreds of thousands of the most able persons in the country merely waiting their opportunity to step into the light.

Why can they not see their opportunity? They are there. The changing of the world to conditions in which Daniel Boones are no longer required does not mean that there are no more fields to any one interested in them. The task of modern education is to teach the youth of America to know what to do, to prepare the young people to enter a certain field, and to make a success of their chosen occupation in life.

The greatest service we can perform for others is to help them to help themselves.—Horace Mann.

HORACE MANN PLAY PRESENTED AT CONVO

DRAMATIC CLUB, MUSIC DEPT.
COMBINE PROGRAM TO HONOR
NOTED EDUCATOR

Wayne Morgan will play the leading role of Horace Mann. The supporting cast consists of Neal Smith, Virgil Cornett, Fullerton Boyd, Betty Jane Schaffer, Betty Howorth, Howard Parker, Robert Worthington, Lois Baker, Billy Quinn, and Wilma Morgan.

The musical department under the supervision of Miss Edith Dorsey and Mr. Bertram Francis will contribute several instrumental and vocal numbers. A minute man will speak on the life of Horace Mann.

The same program will be given Friday evening at the Open House for the parents of junior-senior high school.

The play is directed by Dramatic Club sponsors, Misses Holman, Lynch, and Weaver. Miss Holman is chairman of the program.

PREPARING YOUTH

A large part of the task of preparing the American youth of today for later life falls upon the public school teacher.

Our teachers, before they come here, spent time, money, and effort so they might be prepared to teach the youth. Now they spend five days every week in four different buildings instructing and guiding students — some of whom are decidedly lackadaisical about learning — and sponsoring clubs and class groups. For more time than that is spent in preparing lessons and grading papers. Even in summer, schedules must be made out and programs arranged. Some regularly spend their vacation in further study and preparation.

The janitors spend hours cleaning and dusting the rooms, repairing equipment, firing the furnace, and in general keeping the building comfortable. The office girls type all manner of things for the clubs and classes aside from the general routine of office duties.

These diligent groups working together make it possible for the Hobart youth to have the advantages of modern education.

A patriot is known by the interest he takes in the education of the youth. — Horace Mann.

Without popular education no government which rests on popular action can long endure. — Wilson.

On the diffusion of education among the people rests the preservation of our free institutions. — Webster.

A LETTER TO YOU
FROM HORACE MANN

One of the most beautiful letters written to children was one sent by Horace Mann to the school children of Chautauquae County, New York.

Horace Mann had been asked to talk to 20,000 children, but being unable to attend, he wrote a letter which is called A Letter to School Children.

In the first part of the letter, Mann points out those things which boys and girls should avoid — lying, stealing, using profane language, intemperance, quarreling, disobeying parents. Next he tells them the things they should do:

"You were made to be industrious. You should work. All your bones and muscles were made for work, just as much as the wheels of a clock were made to go round; and if you do not work in some way, you are as worthless as a clock made not to go.

"You were made to be temperate. . . . Learn the meaning of that important word, enough.

"You were made to be clean and neat in your person and in your dress, and gentlemanly and ladylike in your manners.

"You were made to be kind and generous and magnanimous. If there is a boy in the school who has a club foot, don't let him know that you ever saw it. . . . If there is a dull one, help him to get his lessons. If there is a bright one, be not envious of him; for if one boy is proud of his talents, and another envious of them, there are two great wrongs and no more talents than before.

"You were made to learn. Be sure you learn something everyday. If you were to stop eating, would not your bodies pine and famish? If you stop learning, your minds will pine and famish, too. . . .

"Finally, you were made to be moral and religious. If all men were honest, we should need no jails or prisons, no bolts or locks; no criminal laws or courts. I want all of you to feel that such things were not made for you. When you go by a high fence to keep out robbers say to yourselves: 'That fence was never made for me. I could climb the man's fence easily enough; but, thank God, I have a conscience which I have never yet climbed over, and never will.'"

Gone Are the Days When—

There were one-room schools.
There were slates to write a lesson upon.

One had to trudge three miles to school.

Girls' pigtails were dipped in the ink wells.

One was apt to freeze or roast alternately at school.

There were no outside activities.
There were no convos.

Only the three "R's" were taught.
There were no water fountains.

ARMISTICE DAY

On November 11, 1918, the Armistice was signed. This event meant the World War was over.

We are still living in the shadow of this war. Before the shadows entirely pass away new war clouds approach threateningly. The storm of war has already gripped the Far East. The soul of man cries for peace—but there is no peace.

The ravages of war to a soul are starkly given in this poem.

FACE TO FACE WITH REALITY

'What did you see out there, my lad,
That has set that look in your eyes?
You went out a boy and came back
a man,
With strange depths beneath your
tan.
What was it you saw out there, my
lad,
That set such deeps in your eyes?

"I have seen Christ doing Christly
deeds;
I have seen the devil at play
I have gripped the sod in the hand
of God;
I have seen the Godless pray."

"I have sped through hells of fiery
hall,
With fell red-fury shod;
I have heard the whispers of a
voice,
I have looked in the face of God."

'You're a right to your deep, high
look, my lad.
You have met God in the ways,
And no man looks into His face
And he feels it all his days.
You've a right to your deep, high
look, my lad,
And we thank Him for His Grace.'
—By John Oxenham.

CENTENNIAL

DIARY OF A SCHOOL STUDENT IN 1937

(An extract from a student diary of 1837).

Friday, December—, 1837.

I overslept and didn't arise till 6 o'clock. Had to do my chores in a rush.

Arrived at school just as the schoolmaster was ringing the bell. I put my dinner and wraps in the cloak room and filed in with the rest.

Not having anything to do after I worked my rithmetic, I drew a picture of the teacher on my slate.

As everything bad had come my way, the teacher would catch me. I took my flogging very bravely, and I had to sit in the corner on the dunce's stool till recess.

I was sure glad when recess came for I was beginning to get cold as I was quite a ways from the fireplace.

The rest of the morning passed without anything happening, except the monotonous recitation of the classes.

Bad luck again when at noon I found my dinner half-frozen.

As the afternoon was progressing smoothly, Tommy, my seat mate, pulled the pigtails of Sallie, who sat in front of me. The teacher blamed me and forbade me to be in the spelling match.

This was a blow for I had been looking forward to it with much pleasure.

Believe me, I went home pretty down-hearted at my bad fate during the day, and I resolved to be better from then on.

So, considering all, I believe I must have got up out of the wrong side of the bed.

INTERESTING FACTS ABOUT THE GRADS

Did you know that Hobart High School has graduated 598 students in the past ten years? Recently a survey was made to obtain facts about these graduates in so far as it was possible to contact them. Here are a few of the facts that were uncovered and should be interesting to you.

The total number to be graduated from 1927-1937 is 598; 116 students or 19% have attended or are attending college; however, only 15 were graduated; 61 of the 19% of grads have been from the last four graduating classes.

Nineteen have already entered professions, and 9 are at present preparing themselves for the professional field.

Out of the 212 men in the business world, 81 are employed by the steel mills.

One hundred and twenty-eight of Ho-Hi's women graduates are married and 73 are employed in various enterprises.

No specific information was obtained concerning the remaining 247 grads.

HORACE MANN HONORED BY HO-HI STUDENTS

In celebration of Horace Mann day of National Education Week, several students spoke to Ho-Hi students Tuesday, November 9. Briefly they reviewed the high points of the great educator's career.

Some of the more important points of their talks are here quoted. "Horace Mann was born May 4, 1796, in Franklin, Massachusetts. In 1827 he was elected to the Massachusetts House of Representatives. Through his influence a Board of Education was instituted. He remained secretary of the board until 1848. At Lexington, Massachusetts, Mann founded the first public normal school in 1839.

"Mann was elected to the national Congress in 1849 and was strongly opposed to slavery. When asked what he thought of equal rights for the negro, Mann replied, 'I would give to every human being the best opportunities I could develop and cultivate the faculties which God has bestowed upon him and which, therefore, he holds under a divine character. Having done this, I would leave him to find his level to occupy the position to which he should be entitled, by his intelligence and virtues.'

"Mann's wisdom is shown by his advice to boys: 'Do not trouble the birds. Do not kill them, do not catch and imprison them. If you wish for something to do on spring days, dig a hole in some suitable place, three or four feet deep; then go into the fields or woods and catch a wild tree and fasten its roots carefully in the cage you have made for them, and someone a century hence may thank you for the shade you provided. Is that not better than catching birds?'"

Shirley Hoos, Charles Miller, Ralph Worthington, Dolores Sable, Eugene Beckner, Robert Parker, Rae Mitchell, Bertha Calvert, and Bonita Leininger presented this speech to the students. It was prepared by Shirley Hoos and Charles Miller.

HO-HI LIFE BOOSTS AMERICAN ED. WEEK

This special edition of Ho-Hi Life is to acquaint our readers with the aims and purposes of American Education Week.

Although it consists of only four pages, this issue is free from advertising and is delivered to every student in junior-senior high school.

The art designs were cut by Marian Pritchard from linoleum.

We trust you may enjoy this issue and read it from cover to cover.

A popular government without popular information . . . is but the prologue to a farce or tragedy, or perhaps both.—Madison.

OPEN HOUSE

The junior-senior high faculty extends a cordial invitation to the parents who have children in junior-senior high school to attend an informal reception and entertainment, Friday evening, November 12, 1937.

A program has been planned and simple refreshments will be served.

STUDENT GROUPS AID A. E. W. PLANS

Several organizations in Hobart High School have helped to sponsor American Education Week. They have given or will give their assistance in making posters and in presenting School Open House.

As members of the Girls' Club, Abra Gernsey and Marjorie Fleming mounted several posters, members of the same group spoke in the various churches last Sunday. The social science classes of Mr. Bagshaw and Mr. Yunker have made posters for American Education Week.

Boys of the Hi-Y Club will usher at Open House on Friday night, November 12. The Traffic Squad will perform its usual duties at this same program.

The economic class, under Mr. Sellers, made researches on the cost of education in the public schools. Mr. Williams' government class is sponsoring the planting of an elm tree on Thursday, November 11, in commemoration of the one hundred and fiftieth anniversary of the constitution.

A number of students who have lived in Hobart for a long time have assisted Mr. Yunker in his researches on the whereabouts and employment of the graduates from 1927-1937.

H. H. S. CLUB ATTENDS UNITARIAN CHURCH

Since it is the usual custom of the Girls' Club to attend church during American Education Week, they will attend the Unitarian Church, Sunday, November 14, 1937, at the 11 o'clock service.

Approximately seventy-five members will attend. Each of these girls will be awarded by being a guest of the club at a theater party to be given in the near future.

SCHOOL COSTS

Taxes! Taxes! Taxes! It seems that this has always been an important and ever rising question.

Maintenance	-----	4.47
Fixed charges	-----	5.04

Capital outlay	-----	.77

Total per student ----- \$78.48

The expenditures per student of other schools of the Calumet District are:

Valparaiso	-----	\$ 88.89
Crown Point	-----	83.80

The Student Council is now planning for Hobart High School to become a member of the Hoosier Art Salon.

The cost of membership is \$10 per year. In order to secure this sum, each organization is asked to contribute 50c or more.

Up to the present time six organizations have contributed. In a later issue, all those clubs which give financial aid to this project will be published.

Each month the school will receive a painting by an Indiana artist. The picture will be on display for the enjoyment of the students.

From the student body, a representative will be selected who will go to the Art Institute in Chicago every month and will report to the school the news about different pictures studied by these representatives.

SENIOR CLASS PLANS SENIOR PUBLICATION

With the profits obtained from Ho-Hi Life binding project, the Senior class intends to issue an unusual Senior edition in May. In this edition they hope to include individual lithograph pictures of all the Seniors, the faculty, and various organizations.

Again this year Senior Week will be the big event in the senior's high school career. Plans are already under way for the fitting climax of for the year's work.

Baccalaureate will begin this farewell week. Some highlights of the week will be "Kid Day", color day, Senior breakfast, and various other events. Senior Week will close with commencement which will end the senior's high school career.

A kindly old German once said on the subject of charity: "I likes to gif, Veneffer I gif, it enchoys me so much dot I gifs some more!"

GIRLS' CLUB HOLDS FORMAL MEETING

The initiation of new members and the installation of officers of the Girls' Club will be formally conducted, Monday night, November 22, in the Roosevelt Gym.

The regular initiation service will be used for the new members with the three speeches given by Shirley Roper, Dorothy Anderson, and Ruth MacPherson. The service will close with the repetition of the creed.

The old officers will turn their positions over to the new ones with appropriate speeches. Each new officer will give an acceptance.

A program, following the above services, will include a solo by Jacqueline Quinn; a duet by Sabra Gernsey and Irene Goveit; piano solo by Elizabeth Bright; guitar solo by Hazel Perry; Tap dance by Eleanor Joliff and Doris Pope; and a reading by Esther Ramsay. Nina Griffiths will present the award to the three girls with the highest merits.

Refreshments of ice cream cones and cup cakes will be served.

Hi - Y Club Plans Major Projects

The Hobart Hi-Y Club looks as if it is going to have a progressive year. Several enthusiastic members have shown their interest in the club by their desire to "get going."

In a special meeting October 26, 1937, four important committees were chosen to help improve the club. Morton Clark was chosen chairman of the Service Committee; Isadore Greenspan, chairman of the Program Committee; Edward Reuter, chairman of the Membership Committee; and Nolan Rhoades, chairman of the Social Committee.

As the first project of the year, Hi-Y members took over the running of the motion picture machine. So far this project has not been very successful, because of the mix-up in schedules; but the club will gradually overcome this.

The Hi-Y has planned two new projects. One to have the 1937-38 basketball schedule printed and passed out at the first game. The other is a check room system at the basketball games.

HO-HI BRICKIES WIN LITTLE FOUR TITLE

CLOSES SEASON WITH NO LOSSES IN CONFERENCE - TOLLESTON LAST VICTIM

Hobart Brickies took the Little Four Conference title right out of the mouths of Tolleston's Blue Raiders, Saturday night, at Gleason Field, November 6, by the smashing score of 25 to 6.

The game began with Tolleston receiving the breaks when a hard kicked ball bounded from Hobart's forward wall, was recovered by a Tolleston player, and on the third down was made into a touchdown by a brilliant run by Wasil. Tolleston's fleetly half-back. The try for the extra point went wide.

From this time on the show was all Hobart. The long distance kicking of Pio and the hard charging Brickies kept the Raiders deep in their own territory.

Tromble, Greenspan, and Smith were the main cogs in the Brickie triumph, with Tromble scoring twice and making the extra point on a plunge through center. Smith and Greenspan each chalked up one score for Hobart.

The climax of the game came when Greenspan intercepted a Raider pass and sprinted 55 yards to score.

This victory gave the Brickies the Little Four Conference by garnering three wins and no losses in the Conference. They lost five out of eight games played during the season; the losses were to Horace Mann, Lew Wallace, Hammond Clark, Benton Harbor and Valparaiso; the wins were over Griffith, Crown Point, and Tolleston.

Although the boys lost most of their games, they came through and took the Little Four Conference, which was their goal at the beginning of the season.

STORK FEATHERS

A son was born to Mr. and Mrs. Clarence VanderKolk on Friday, Oct. 29, 1937, in the Methodist Hospital. Mr. VanderKolk is a mathematics teacher in junior high school.

GREATER YET

"There is nothing as great as the arrival of the strawberry jigger." These are the words of Owen Johnson, but the students of Hobart High School beg to disagree with him. To us the arrival of the basketball season is greater yet.

During the past football season not many students attended the games because practically all of them were played away from home. In the next two or three months there will be a home basketball game almost every Friday night. Every student who is able should attend these games; not only to support the team but to make a good showing before the opposing team.

Unless the students appear at these games the team will feel that it does not have the support of the school and will not, in reality, have the material support that it needs to buy equipment.

LAST GAME BEST

Most football teams, during a particular time in the season play one game of football that stands out as their best game played. The Brickies always seem to play their best game in their final appearance. For the past several years this tradition or what ever you may call it seemed to hold true; and the Brickie, as it played a great last game against Tolleston to support the so-called tradition.

Ten seniors and two juniors have only memories of their days on the Hobart football team, with which they shared both win and defeat. We salute these twelve boys who have played their best for you, the team, and the love of the game. These boys will be playing that last game over and over again—but it's only a memory.

JOIN THE SQUAD

The call for new members for Traffic Squad was heard by only one boy. There are twenty-five Traffic Squad boys at the present. A call is made for twenty more members.

Any boy who wishes to earn two extra-curricular points a semester, who is passing in three subjects, and who is interested in a boy's organization should hand his name to any of the following officers: Mr. Wendell Elpers, sponsor; Anton G. Rich, Captain; John Judge or Roland Ruppe, Lieutenants; Harold Stevens, Treasurer or Anthony Kiokee, Student Council Representative.

STUDENT LOYALTY

In a few weeks Hobart High opens another basketball season. The Victory Ball, which has been in our possession for the past two years, is still here. Our fondest hope is that it stays here.

There are four lettermen left from last year's quint. These boys will prove a great asset to the molding of a new cage team. The Brickies have been a top-notch team in the county for the past two or three years and should prove it this season.

No matter how strong a basketball team coaches Belshaw and Todd turn out, the Brickies will not win without your support. Don't be a slacker. Attend every basketball game at home and away. With your support Hobart High will come out on top, holding the Victory Ball.

THE FIRST THANKSGIVING

Plymouth Colony's first dreadful winter, during which almost half of the Pilgrim's company had died, had passed and renewed hope had grown that summer. When the corn crop was gathered in the fall of 1621, Governor Bradford decreed a day of thanksgiving.

Great were the preparations—the few women in the colony spent days roasting, boiling and baking, and even the children were busy turning the roast on the spit before the open fires.

As guests, there were more than four score friendly Indians who brought, as their share of the feast, wild turkeys and venison from the woods.

The tables were set out of doors, and the company sat around them, as one big family.

This first Thanksgiving, however was not merely a feast—there were prayers and sermons and songs of praise and three days had gone by before the Indians returned to their forest and the colonists to their tasks.

THE STUDENT VOICE

As the athletic season has progressed, it has become increasingly hard for the yell leaders to get a response from the students. Instead of having improved with practice they seem to have acquired the idea that it is smart to bother the yell leaders.

The students have shown in every possible way contempt for cheering and seem to think that to do such a thing would not be fitting for so dignified and sophisticated a person as a high school student. Before this ruins the cheering in the basketball season, consider this: these leaders were elected to support the team, but without the full assistance of every one of us, they can do nothing.

HAPPY THANKSGIVING

THANKSGIVING

For all that God in mercy sends;
For health and strength, for home
and friends,
For comforts in the time of need,
For every kindly word and deed,
For happy thoughts and pleasant
talk,

For guidance in our daily work,
For all these things give thanks.
For beauty in this world of ours,
For verdant grass and lovely
flowers,

For songs of birds, for hum of bees,
For the refreshing summer breeze,
For hill and plain, for streams and
wood,

For the great ocean's mighty flood,
For all these things give thanks.
For the sweet sleep that comes with
night,

For the returning morning's light,

IN REMEMBRANCE

With Thanksgiving drawing near,
Turkey Tom woefully surveyed his
prospects of the long, happy life
which is the all-consuming desire
of every turkey.

Alas, for him, he had overheard
Mr. E. Tum beastfully point him
out as the prize turkey of the farm
yard! Poor Tom! He knew his goose
(or turkey) was cooked.

Now, instead of the long life for
which he had hoped, he began to
try to contrive a way that would
secure him of being remembered.

He remembered having heard
from his friend the house-cat, Men
by name, that people who were
famous had their pictures in the
newspaper.

Mattering ways and means to
himself, he attracted the amused
attention of our artist, Marion Prit-
chard.

He dolefully explained his plight,
and Marion, having a soft heart
promised that his likeness would be
reproduced in Ho-Hi Life the very
next issue. This comforted him
very much and he worried no more
about his sacrificial demise, but de-
voted himself to enjoying his last
days.

So, dear readers: it is with his
explanation that we present the
likeness of our tasty friend, Turkey
Tom.

TURN BACK THE CLOCK

In 1922 we may have seen:
Bud Campbell shotgun in hand,
hiking to find the woods to hunt
for his Thanksgiving turkey.

Virgil Cornett waiting patiently
for some kind person to invite him
to Thanksgiving dinner, because he
has not been able to shoot a turkey.

TRIED FOR MURDER

In a special session of the court
at Crown Point, Indiana, November
10, 1937, John Alden's ghost, plead-
ing guilty to the charge of first
degree murder, was brought before
the jury.

It seems that in 1620, John Alden
shot Pilgrim Turkey in the head
and afterwards ate him. Because
the Pilgrims as yet had no definite
system of government, the case was
laid aside and finally forgotten en-
tirely.

But this cruel deed was never
for given by the ancestors of Pil-
grim Turkey. They told the story
of his cruel murder to generation
after generation until finally one
educated turkey, Prof. Swing Tur-
key by name, thinking the thing
had gone far enough, told Judge
William Murray of Crown Point.

The judge immediately sent radio
messages to all states in the union
to be on the lookout for the ghost
of criminal John Alden.

When the ghost of Miles Stan-
dish reported ghost John Alden's
hiding place to the New Jersey
State Police, he was found and
placed under arrest only to be
brought to Crown Point on the
Spirits and Co. Airliner for trial.

* Here in a heated session of court,
due to the long standing of the case,
John Alden's ghost was acquitted by
the jury after a turkey dinner had
been given them by the defendant's
attorney. The ghost was allowed to
return to his original resting place
in Everdead Cemetery, Plymouth,
Massachusetts.

MAGICIAN PRESENTS SECOND PAID CONVO

Mr. Philip Foxwell, who visited Hobart High School a few years ago, will entertain the students at the second of a series of paid convocations, Monday, November 29, in the high school assembly.

Mr. Foxwell is a magician adept in the sleight-of-hand tricks and as an illusionist. Before he was twenty, he had been awarded twelve first prizes by the International Magicians' Convention, and he is now considered one of the nation's foremost magicians.

When the students enter the assembly Monday, they had best prepare for all sorts of tricks, even to rabbits out of hats and dollars out of their own ears. This convocation will be held in the assembly at 8:45 in the morning.

Four other paid convocations have been scheduled as follows: Elias Tamburizza Serenade with four Jugo-Slavians, in December; Lincoln Program, February 14; European Youth Today, by Geraldine Westabay, March 30; Wonders of Modern Science, by Harry C. White, April 20.

SENIOR HIGH LIBRARIANS

ENJOY BONFIRE PARTY

A happy time was had by every girl who attended the Librarians' bonfire party from 5:30 to 8:00 p. m., October 27, at the second Class Bank.

The girls gathered around a huge bonfire to play games and to sing parodies of songs made by Ruth Seivert and her committee.

The main part of the evening, however, was the cats. The girls roasted hot dogs, marshmallows, and drank cherry pop, which was furnished by the club. Each girl for emergency brought a lunch to supplement that which was furnished.

After the dying of the fire, the girls left feeling that a happy time was had by all.

IRIS ZELENSKA ENTERTAINS

GLEE CLUB AT PARTY

On Tuesday, November 23, Iris Zelenka will entertain the Glee Club and their guests at a bonfire party given at her home.

Each Glee Club member is permitted to bring one guest.

Interesting games and dancing will be part of the entertainment that is planned by the committee with Catherine Jane Baile acting as chairman.

The refreshment committee with Helen Otto, chairman, has planned to have weiners and buns, marshmallows, hot chocolate, and apples.

Before the American Revolution, New England was the only part of our country which celebrated Thanksgiving.

NEW CLASS COLOR SYSTEM INSTITUTED

The Student Council has been largely responsible for instituting the new rotating system of class colors for Ho-Hi. In this system the outgoing seniors will present their class colors to the incoming seventh graders who will keep these colors until graduation.

This year's senior group plans to have a banner made of their colors. At the end of the year they will present this class banner to a representative of the incoming seventh graders.

Nearly all of the classes have changed their colors in order to secure appropriate combination and to avoid duplication in class colors.

Following are the colors of all groups: Senior—red and white; Junior—crimson and gray; Sophomore—color not selected; Freshmen—green and white; Eighth grade—navy blue and maroon; Seventh grade—blue and gold.

CLASSROOM DETECTIVE

Clues! Clues! Clues! And more clues! I never saw the like. After solving my last case, I thought I would be able to enjoy a hunting trip, but there are a few things going on around here that need immediate investigation. (Good-bye hunting).

Found at last! A new aid to washing ceilings. The physics class is blowing soap bubbles with gas and watching them rise and burst on the ceiling.

Here come the British! Bang! Bang! Every one under cover—the U. S. History groups are studying the Revolutionary War and might become so engrossed in their subject matter as to forget they are living in the 20th century.

Principal R. A. Nuzum's geography class is back to nature—well, anyway they're studying about mountains, plains, rivers, and their relation to life.

Discovered! Murderers in the making. They tried to keep it a secret but the odor leaked out of room 208. Chemistry students are either experimenting with a new means of killing of turkey or planning the destruction of us all. I'll let you know of the outcome of this case next time (if you live to hear it). So till we meet again. Aufwiedersehn!

CLASS OF '37

DONATES CABINETS

Four steel cabinets, to contain the books of the rental library and other classroom paraphernalia, are the gift to the school from the class of 1937. The cabinets were purchased with the \$120.00 which remained in the class treasury at the close of the year.

The cabinets are located in rooms 222, 320A, 208 and 317.

From Madison's administration to Lincoln's, Thanksgiving Day was not observed.

DRAMA CLUB PRESENTS FIRST PRODUCTION

The Dramatic Club made its first appearance to the students of Hobart High School, Friday, November 12, in a play commemorating Horace Mann.

Although this play was presented under the name of the Dramatic Club, several students not belonging to the club were used in the cast.

This club has been recently formed under the sponsorship of Misses Leta Weaver, Helen Holman, and Jeanne Lynch. The present members decided that it should be a non-social organization and most of the time should be spent working on plays. The membership of this club consists mostly of girls so that boys are really in demand.

During the school year the club plans to present several programs to the school; these will probably center around one-act plays, and, unless more boys join, will have casts primarily of girls.

MINUTEMEN GONE

What, no more minute-men! Yes, that is correct, there will not be any more minute-men this year. For the past two years the council has sponsored this service and had intended to continue doing so this year.

There was not any response to the announcement asking for interested persons to hand his name to Miss McKenna. Therefore the council agreed that the organization wishing a message delivered to the student body should appoint one of their own members to do so. Before this ruling went into effect, David Mackey, representing the council, gave the last speech to be conducted by them. He spoke on the conduct of the students during noon hour.

It is generally felt that the minute-men were a help, not only to the council, but also to the various classes and organizations. They will be missed by the entire school.

HOBERT GRADS PROMINENT IN I. U. CAMPUS ACTIVITIES

Three recent graduates of Hobart High School have won honors at Indiana University, according to an announcement recently received from the Bloomington campus.

Morris R. Ferguson, Hobart, '37, is a member of the famed "Marching Hundred" Military Band at the state university. The band plays for all home football games and will accompany the "varsity to Iowa City on Nov. 13 for the Iowa-Indiana game.

Willard Findling, graduate of Hobart in the class of 1936, has been chosen one of the sophomore business assistants on the staff of the Arbutus, university yearbook.

Winifred Black, '37, is one of the 116 students passing an exemption in examination in English composition. Miss Black is a freshman.

PARENTS VISIT SCHOOLS

Approximately 50 people visited classes during A. E. W. There were more visitors in the grade rooms than in the junior-senior high class rooms.

Near 250 were in attendance at Open House, Friday evening, Nov. 12.

MAGAZINE DRIVE REPORTS

As this goes to press every indication is that the junior high will defeat Senior High in the magazine subscription drive.

The losing team will suffer humiliation during the half of the Wanatah game, Nov. 24.

The Isaac C. Elston Senior High School of Michigan City is presenting our last year's senior play, "Growing Pains," November 19.

The Biology students of Malden high school recently enjoyed a fishing trip—Malden Outlook (Malden, Illinois).

The "Powder Horn," George Rogers Clark's Annual, received second class rating in the third annual critique and contest of Columbia Scholastic Press Association of Columbia University.—George Rogers Clark (Hammond, Indiana).

Under the direction of Miss Smith, white rats will be used as experiments to prove to the students the value of milk in the diet.—Val-Pop (Valparaiso, Indiana).

Schools closed for the State Corn Husking Contest in Malden, Illinois. Don't you wish you lived there?

Michigan City held a cake baking contest in honor of the Harvest Festival.—Crimson Comet (Isaac C. Elston Senior High School, Michigan City, Indiana).

PICTURE TAKEN OF FOOTBALL SQUAD

The entire group of football boys gathered, Monday, November 1, to have a group picture taken for the Index-Commonwealth. This was one of the last activities of the football season, which closed with the Tolleston game, Saturday, November 6.

The picture was taken by Mr. Pike.

P. T. A. STARTS ATTENDANCE CONTEST

In order to encourage more mothers to attend our P. T. A. meetings there has been a contest started in the lower grades.

So far Miss Lola Stewart's room holds high score for having the greatest number of mothers present at the meeting of November 8.

If this room holds its quota for three consecutive meetings they will receive an award of a beautiful fernery.

At the end of this year the room with the greatest attendance of mothers will receive a gift valued from \$2.50 to \$3.00.

At the last regular meeting, November 8, the program, featured an address by Rev. E. H. Karlson.

Refreshments were served during a social hour.

The next meeting will be Dec. 13.

J. H. L. CLUB ELECTS NEW OFFICER

On the regular meeting night, November 2, the J. H. L. Club elected a new secretary-treasurer to replace Maxine Doyle, who was forced to resign from the club because of a low mark she received the first six weeks.

Frances Flemming was elected by an almost unanimous vote. She will assume her new duties at the next regular meeting, December 6.

The new club ribbons, black and gold, are now being worn by the members while at the desk.

The J. H. L. Club is out to make money. Jr. High candy sales are one means of attaining your support.

A committee consisting of Geraldine Ols. Betty Lou Page, and Phyllis Hardman has been appointed to work on other ways to make money so that the club will have more funds for their social activities.

Visitor during Education Week: "What are you going to do when you grow up, my little man?"

Modern youth: "Follow in dad's fingerprints, I guess."

It's marvelous the way the students help one another with their studies. For example: Donald M. never knows how to do his mathematics any more, but maybe he doesn't just ask Rita to work his problems.

Reporters: Evelyn Adams, Shirley Lankford, Robert Lautzenhiser, George Kegebelin.
Faculty Critic: Jeanne Lynch.

The junior highs are ahead of the seniors in more ways than subscriptions. It was recently their privilege to hear Mr. Charles Grevur, a personal friend of Mr. Bagshaw, speak in convocation. He addressed the students on the subject of China, where he has been teaching for the past eight and a half years.

Uncle "Billy" has his worries and troubles just like the rest of us. Someone has reported to him that the chairs in the school rooms are not safe. Those in the gravest danger seem to be Mr. VanderKolk, especially in his science class when he demonstrates the forces of gravity, and Mary McRitchie in her eighth hour mathematics class.

Olga Klicek—"Remember Me."
Shirley Lankford—"Ah, Sweet Mystery of Life."

Evelyn Adams—"The Moon Got in My Eyes."

JOKES

Bob: "Me get marrid? No, sir. Marriage makes me think of a cafeteria at noontime."

James: "How So?"

Bob: "In either case one simply grabs something that looks nice and pays for it later."

Harvey: "Can you stand on your head?"

Donald: "Nope, it's too high."

Coach Belshaw really believes in announcing the basketball games, and he proves it in the fifth hour gym class. All of us who have been wondering whose deep voice that was we heard booming across the school grounds now have the mystery solved. Don't be alarmed if you hear this strange noise again soon after the next game; it will be the coach announcing when the next game will be.

Support Junior High Librarian's Club and buy your candy from them. Don't waste shoe leather walking up town, or don't give the

Had to sit in church all day on Sunday.

Had to carry their guns to church to guard against the Indian?

Carried what was known as "foot warmers" to church to keep their feet from freezing?

Had to go to their nearest neighbor's house, perhaps three or four miles away, to get hot coals to start a fire in case theirs went out.

Had to go out and shoot their Thanksgiving turkey?

Were tapped on the shoulder with a long pole by a deacon of the church if they went to sleep in meeting?

Thanksgiving Day table was set with wooden dishes and spoons?

ALL-STAR TEAMS CHOSEN BY COACHES

HOBART-WANATAH HERE IN INITIAL GAME

On Monday night, November 3, the coaches of the Little Four Conference teams met to pick the All-Star teams.

Before the season started the coaches of the conference schools had decided that the team that won the conference would have five men on the team, second place would have three men on the team, the third place team would get berths for two men and last place team would receive only one position on the team; thus Hobart was allowed five members on the team, Crown Point three men, Tolleston two men and Griffith one. The first team is as follows:

Left end	King	Crown Point
Left tackle	Parker	Hobart
Left guard	MacConnachie	Tolleston
Center	Wells	Hobart
Right guard	Stiner	Crown Point
Right tackle	Wallace	Tolleston
Right end	Roper	Hobart
Quarterback	Youke	Crown Point
Right half	Greenspan	Hobart
Left half	Hendrickson	Griffith
Fullback	Tromble	Hobart

The second team was chosen from the best remaining players and did not follow the same order as the first team picked. The second team follows:

Left end	Fritz	Crown Point
Left tackle	Schmidt	Tolleston

NEW EQUIPMENT FOR BASKETBALL

If uniforms will cause the Brickies to play better basketball, then they are apt to have a grand season.

The beauty of the purple and gold suits adds to the glory of the game for the fans.

New trunks, shirts, and sweat shirts will, we hope, aid the Brickies in their games. Seven new basketballs are helping them brush up on their technique. New equipment heightens morale and plays an important part in the game.

The Hobart Brickies face Wanatah in their initial basketball game of the season at Roosevelt Gym, November 24.

With four major letter men from last year still on the squad, the Brickies should turn in a fair performance this season; and they should be able to retain the Victory Ball.

When asked about the Wanatah game, Coach George Belshaw remarked, without a bit of doubt, "I think we should win."

Belshaw also stated that the starting line-up will be chosen from the following eight boys: Greenspan, Murray, Parker, Roper, Scharbach, Smith, Tromble, and Willmoth.

Sallie Swedo, '39, has withdrawn from school because of ill health.

INTERESTING BOOKS OUR SCHOOL LIBRARY

Many new books have been added to our high school library; so if you like to read, you should take advantage of this.

If you like stories with local color, these two books will prove very interesting: "The Country of the Pointed Firs" by Jewett and "So Red the Rose" by Young.

For the ones who like adventure, our library offers from its selections two for your approval. These are "The Derelict" by Nordhoff and "High Adventure" by Hall.

Biography also offers much interest in "How to Win Friends" by Carnegie, "Crucibles" by Jaffe, and "Alaska Days With John Muir." by Young.

"The Last Days of Pompeii," by Lytton, "Shadows on the Rock" by Cather, and "The Spartan" by Sneider will satisfy your taste for historical novels.

Also a list of outside reading books is being prepared: one list for Freshmen - Sophomores and another for Juniors - Seniors.

These lists contain the books to be found in our library and the books which may be obtained from the public library.

These lists contain nearly sixty fiction books and forty books of biography, autobiography, and various subjects.

STUDENTS TRIED BREAKING CAMERA

Although each student had his hair slicked, shoes shined and clothes pressed when he had his picture taken the results were not altogether pleasing.

However, unflattering the result, there has been constant exchange of pictures among students the last few days.

In 1935 pictures of students were taken in this manner for the school record, and this year the records must again be brought to date.

Mr. Brown, the photographer, congratulated the principal, Mr. Nuzum on the excellent behavior of the students in the central building.

ART EXHIBIT IN GYM VISITED BY MANY

Prints of famous paintings by such well-known artists as Titian, Da Vinci, Van Dyck, Raphael, Ben Foster, George Innes, and Harry Vincent were shown at the first of a series of planned art exhibits in the Roosevelt Gym during the week of November 15 to November 20, through the courtesy of the Colonial Art Company, known as "The World's Largest Picture House."

The exhibit consists of 150 masterpieces of fine art prints representing the French, Italian, Flemish, English, Dutch, Spanish, German, and American schools of art. Famous portraits, landscapes, marines, and pastoral scenes in the colors of the original canvases, were on display.

The admission fee was twenty-five cents for the patrons and ten cents for high school students.

The school will use the proceeds of this exhibit to purchase new pictures which will be picked at each exhibit.

DOROTHY CORRELL'S TEAM WINS TICKET CONTEST

The team of Dorothy Correll was declared winner of the ticket contest for the Librarians' benefit show, "Pigskin Parade" November 10-11. This team sold 159 tickets while the losers sold 100. Each team had been assigned by their captain to canvas a certain territory of Hobart.

The losing team captained by Lois Baker must entertain at a party for the winners some time in the near future.

JUNIORS ORDER RINGS, PINS

The class of '39 has shown enthusiasm in responding to the first order of rings. The order is expected to be filled in December.

There will probably be a greater number of rings purchased after Christmas, when the next order is sent.

The rings and pins were selected by a committee of juniors.

FRUIT SALE SUCCEEDS AS JUNIOR PROJECT

SUNKIST ORANGES DELIVERED DURING PAST WEEK

Four hundred and thirty-six dozen oranges were delivered by members of the junior class this week to the families who took advantage of the orange sale sponsored by that class. The sale started December 3, and ended December 10.

The project was suggested by Miss Juanita Horne, the junior sponsor, and was accepted enthusiastically by the class. Many problems arose in completing the plans, and when the time rolled around for the oranges to arrive, the juniors looked worried and wrinkles appeared in their brows.

Where should the oranges be stored? Every class room was used; the stage was being used for plays; the gym for practices. On top of that, the place must not be too hot or too cold. This problem was finally solved by storing them in room 322.

Scarcely had the juniors eased their minds on this score when the problem of delivery arose. However, this, too, was settled satisfactorily when a few students and Miss Horne donated cars for making the deliveries.

The star salesman of this drive was Roland Rippe, who brought in orders for 75 dozen.

These first grade Sunkist oranges were secured from a Gary wholesale market and were sold by the members of the junior class for thirty cents a dozen. The profits will be used by the class for the junior-senior prom.

AFTER-GAME DANCE

BY BOOSTERS, JAN. 7

Everybody looks forward to a dance following a basketball game. The Boosters offer their first one January 7, after the Chesterton game. Peppy dance music will make dancing a delight. There is a secret about the source of this music, but the Boosters alone are enjoying that secret.

STAFF OF SENIOR CLASS EDITION APPOINTED

Thelma Calvert was appointed editor-in-chief of the Senior Edition by Mr. Edgar Williams at a meeting of the senior news staff, Wednesday, November 17. The following were appointed: Assistant editors, Celia Purdy and Marie Sonntag; and the financial board, Ralph Worthington and Anthony Kupke. Approximately thirty seniors will contribute to this edition.

No name for the paper has been definitely decided.

If the present plans materialize, the paper will contain sixteen pages. Lack of enthusiasm for the Ho-Hi Life bindings and insufficient sales have forced the seniors to drop the picture edition of the paper.

Students Choose Art Salon Patron

Who is to be the art patron of Hobart Jr.-Sr. High? Twenty organizations of the school have each donated fifty cents to the fund to make up the sum of ten dollars needed for the membership in the Hoosier Art Salon. Each group has the opportunity to nominate their choice for the patron and the student body is to select its favorite out of the list of twenty nominees.

A more cultured and beautiful Ho-Hi is the aim of the Student Council for this season, and the army of fulfillment is on the march with the securing of the art membership acting as the vanguard.

Although the Council was sold on this idea, the completion would have been impossible without the following: The six major classes, Girls' Club, Sr. and Jr. High Librarians, Traffic Squad, Faculty Club, Sr. and Jr. Dramatics Clubs, Band, "H" Club, Girls' Glee Club, Hi-Y, Latin Club, and the journalism class.

VACATION HERE

Attention Everyone! December 17 school will be dismissed for a two weeks' vacation. School will convene again January 3. Here's hoping you have a very Merry Christmas.

Jest 'fore Christmas I'm as good as I kin be.—Eugene Field.

HO-HI CLUBS ENJOY CHRISTMAS PARTIES

ANNUAL BAND PARTY DEC. 22, GLEE CLUB TO CAROL

Ho-Hi students are again in the midst of the pre-Christmas social whirl which prevails each year at this time. The spirit of jolly old Saint Nick has been very busy spreading its Christmas cheer at the gay parties. Some parties already have been enjoyed and others are planned for the next week.

Band members and alumni guests will attend the annual Christmas party at the American Legion hall, December 23, at eight p. m. Gifts will be distributed from a grab bag. One novelty of the program planned is a jug band.

Caroling at the homes of the sick on December 22 will be the Glee Club's contribution of Christmas cheer.

Exchange of Gifts Predominates

The main features of the Librarian's party December 16, were the exchange of gifts, the program, and group singing. Mothers of the officers were the guests of the club.

Each Jr. High pupil's heart was made happier by the gift he received at the Jr. High party, Wednesday morning, December 15.

A grab bag of gifts was the thrilling feature of the Girl's Club party, December 15, in the assembly. On that afternoon a committee of seven girls took a gift box of fruit to Sally Swedo, a former member of the club.

Gifts were exchanged at the Student council party in the assembly, December 14. A program was presented by members of the council.

Several tableaux representing the birth of the Christ child were presented by the Dramatics Personae in the assembly for the P.T.A., December 13. The music was furnished by the Mother Singers.

The spirit of old Saint Nick has had a busy time attending these parties, but everyone agrees that he has successfully spread his cheer and good will.

WHO SHOULD PAY?

There has been some discussion of concessions offered the candy sellers.

Some people feel that since the association has given an organization a candy concession, it should not also be expected to pay the admission of those students who sell the candy.

The student must give his time and attention to the organization. He cannot possibly enjoy the game as much as a student who does not have the added responsibility of selling candy.

The organization receives the proceeds of the candy sales. Should it, then pay the admission of the students who give their time to make these sales possible?

THOUGHTFULNESS

The girls have one night each week for basketball practice.

Last year on nights of practice, boys would gather around the gym and cause a disturbance. Because of this the school board made just objections and threatened to discontinue the only sport which the girls have to enjoy.

This practice has already been prevalent this year. Is it too much to ask the boys to permit the girls to enjoy this one sport alone and without interference?

HEALTH NOTES

Lately a great deal of impetigo has been spreading through our school. This is a skin disease of a very infectious nature. To know a

few facts in care and prevention of the disease we may be able to check its spreading further.

The best thing, of course, is for the persons infected to remain out of contact with others.

For you who are not affected so far and who would like to prevent infection, here are a few rules:

1. Keep your hands off hand rails as much as possible, especially if you have a cut or scratch on your hands.

2. Wash your hands frequently and keep them away from your face.

3. Be careful in handling door knobs or articles which you know have been handled by infected persons. If this is not entirely possible, an antiseptic rinse will be helpful.

4. As soon as you notice an eruption or soreness around the corners of the mouth, apply an antiseptic and then see your doctor. He will give you a lotion to dry it up. Never use any greasy ointment.

This is not an especially serious disease unless it is allowed to spread with no preventive measures. These few simple rules of cleanliness will go far to prevent the spreading and contraction of many other diseases as well as impetigo.

SNOOPIN' AROUND

Right here and now I'm asking Santa for only one thing. More material for this column. Maybe some of you readers can help me out.

By the way some people are especially glad that Christmas vacation is here. You see the "grads" are coming back.

My goodness! You'd scarcely recognize Rae, Mary, and Margie if you didn't know them. They go at their desk washing with such deceiving vigor.

THE STUDENT VOICE

ROOM 101

Room 101 (Mechanical Drawing Room) is the least used room in the school, maybe that is why it is in this state.

Of the eight windows in the room only two can be opened, and they from the bottom.

If I can recall my health lessons, I vaguely remember that windows should be opened from both the top and bottom. There is also a condition of discomfort in the winter. Cold air coming thru the windows chills the students sitting near. Meanwhile those students in the back of the room are practically suffocating.

During the rainy season, rain splashes on the walk into the east window, giving the students nearby a shower bath. In the spring and fall dust is blown upon the drawings of the students. The dust also gets into the student's hair and down the backs of the unfortunates.

Can't something be done about this situation?

LIBRARIANS FROLIC AT KID PARTY, DEC. 7

"Boo, hoo, you broke my little dollie. I'm going to tell my mamal!"

"Look, I've got a lollypop!"

Those were some of the exclamations of the little girls at the Librarians' Kid party, December 7. Each girl was dressed in her best Sunday frock, hair ribbon, and anklets. A few of the girls brought their dolls to keep them company.

Dorothy Correll's team captured honors by winning the spelling bee. The girls on this team could spell that big word, "prayer."

Just before the refreshments were served Wilma Morgan read to the wide-eyed girls the thrilling story of "Tweeny and Jack Rabbit" and "Twas the Night Before Christmas."

The party ended at nine-thirty because the little girls were beginning to yawn and could scarcely keep their eyes open.

This party was given by Lois Baker's team in honor of Dorothy Correll's team who won the ticket contest.

COUNCIL MEMBERS EXCHANGE GIFTS

"Oh, look at my gift! Isn't this a beauty?" Such were the exclamations of the Student Council members in reference to the gifts that were presented under the direction of Helen Jensen at the annual Christmas exchange on the evening of Tuesday, December 14. The regular night meeting for the month of December was converted into a gay and cheery Xmas party with 209 brightly decorated by the committee, Marian Ledyard and John Fleck.

Betsy Ripley with her "Story of Christmas" and Billy Quinn's reading "Awful Luck," presented an interesting program which was varied by the singing of several Christmas hymns and carols by the entire group. Mildred Hentschel was pianist for the singing. Marian Pritchard, Roland Rippe and Frances Fleming were the members of the committee in charge of the evening's entertainment.

A light lunch of cherry jello in green paper moulds, topped with whipped cream and accompanied by Colo Cola and Santa Claus cookies were served by Charles Donnelly, Evelyn Adams, Alfred Born, Celia Purdy, Howard Parker, and Bette Johnson, the refreshment committee.

BAND MOTHERS SPONSOR

"LOVE UNDER FIRE"

"Love Under Fire" starring Loretta Young and Don Ameche, was shown at the Strand, December 8 and 9, as a benefit for the Hobart Band Mothers' Club.

BIG APPLE DANCE TAUGHT AT MATINEES

The Juniors have at last begun their long promised matinee dances.

Because there had been no way for the class to get music, the dances seemed to be postponed indefinitely. However, the advertisements that were on the blackboards last week seem to have brought results for the Big Apple dances started a week ago Thursday.

These dances will be given each Wednesday after school in the upper hall of the Roosevelt gym. The Big Apple, the newest dance of the year, will be taught at these dances to those who wish to learn.

SOPHS HAVE GAY XMAS PARTY, DEC. 11

Music and dancing were the main features of the Sophomore Christmas party, December 11, in the Roosevelt gym.

Phyllis Schroeder and Marjorie Papke gave piano solos.

John Bracus gave a word of welcome. Robert McIntire, Howard Parker, Donald Denman entertained with two vocal numbers. Charles and Delores Mills presented a vocal duet. Charlotte Kubiak sang two numbers, accompanied by Charles Mills on the guitar. Added to this delightful program were a drum solo by Jack Howorth and a song by Miss Dorsey's voice class.

The various solos were accompanied by Catherine Jane Baile, Norrine Frederick, and Phyllis Schroeder.

After the program and dancing, Santa arrived, bringing a box of candy to each one present. A delicious lunch of ice cream, cup cakes, and mints were served.

GIRLS' CLUB CELEBRATE HOLIDAYS

The annual Christmas party of the Girls' Club was Wednesday, December 15, in the high school assembly.

Each member brought a ten-cent gift for the grab bag and after the program they were given out with Sabra Guernsey officiating as Santa Claus.

The program included a playlet, "The Beau of Bath," a reading by Peggy Bleam, a song by Elizabeth Bright and Virginia Frye, a piano solo by Emma Jean Glynn and several Christmas songs by the club.

On the afternoon of December 15, a committee of eight girls visited Sally Swedo, who has recently withdrawn from school because of ill health. They presented her with a box containing a piece of fruit or candy from each Girls' Club member.

Games and dancing early in the evening were followed by the initiation of new members. Refreshments of cider, sandwiches and doughnuts were served.

The chaperones were Mr. Alfred Sweet, Mrs. John Hammersmith, Mrs. B. Todd, Miss Ethel Bersars and Miss Edna Friedrich. Miss Dorothea Friedrich is the club sponsor.

Since some of the art masterpieces were on exhibit there was no need for decorations.

Hist. Teacher: After Catherine was beheaded, what happened to Ann Boleyn?

Pupil: The king used her for a flation.

Teacher: Where did you get the idea?

Pupil: It says so in the book "After disposing of Catherine, King Henry pressed his suit with Ann Boleyn." Copied.

The man we feel sorry for is the one who takes himself and life in general too seriously.

CLASSROOM DETECTIVE

Don't look now, but it's me again. With so much going on before Christmas vacation I think I'd better get right down to business.

Chemistry class is up for attempted murder. Victims being Phillip Roper and Jerry Killigrew. While experimenting with the deadly gas, chlorine, Phillip and Jerry were mysteriously overcome. The case has been turned over to the Grand Jury.

Marlynn Fleck's talk on a journalistic career taught the journalism students many interesting things about that career they didn't know. I predict that Marlynn will be the future crime reporter for some large news concern.

Have you noticed the student posters in room 213? They are interesting.

Doris Young was very enthusiastic over the Puritan period in senior English class the other day. She went so far as to fall off her chair.

Quick Watson! the trustee officer. Thirty students and Supt. J. M. Sellers are gone. This was my state of mind December 10, but upon further investigation I found that Mr. Sellers and his economics class made a very interesting trip to Chicago. They visited the Chicago Board of Trade and the Industrial Museum.

Santo Claus is coming to town. Merry Christmas and Happy New Year!

LIBRARIAN'S CLEAN-UP

Dust cloths and mending tape were brought to light Nov. 29, at 4 o'clock, by 17 appointed girls of the Librarians' Club for their semi-annual clean-up.

Some were sent to their respective rooms to mend and clean the books, while the rest mended the books in the high school library.

They were awarded with a sizzling broiled steak, with potato chips, buns, and pickles.

PHILLIP FOXWELL CONVO

Ho-Hi students enjoyed a very interesting convocation given by Mr. Phillip Foxwell, a magician, on Nov. 30.

The marician presented many amusing and puzzling tricks.

Mr. Foxwell drew money from several boys' ears, nose, and hair. Homercizing was another feature, after which the contestants were given soda pop from a bottle in which a live white rat was found.

The students sat fascinated as Mr. Foxwell repeatedly showed that the hand is quicker than the eye.

GLEE CLUB MEMBERS ENTERTAINED

The Glee Club members and their guests were entertained at a bon-fie party, Nov. 23, by Iris Zelenka.

Games and dancing were main features of the entertainment.

HOBART HI-Y CLUB RAPIDLY PROGRESSING

The Hi-Y Club should be highly complimented by the students for the splendid gift of the 1937-38 basketball schedule. This project has well established the Hi-Y as a major functioning club in the minds of the student body.

Besides the printed basketball schedule, the club has offered a check room service at the basketball games. From the first of the semester it has taken over the running of the motion picture machines.

The chairman of the service committee, Morton Clark, is now bidding for a benefit show as a means of enlarging the treasury.

All of the new members were sworn into the club on November 16, when they were formally initiated.

Mr. J. M. Sellers was a visitor to one of the recent meetings.

SENIORS BUY BADGES

Seniors are now wearing smart red and white badges which were purchased for fifteen cents. These badges have the class numerals and school printed in red letters on a white background. Nearly half the class have already purchased them and orders have been taken for more.

If nearly everyone buys a badge, they will be worn on senior meeting days and other special days.

DRAMATIS PERSONAE PRESENTS XMAS TABLEAUX

Seven Christmas tableaux were given in the assembly by the dramatic club under the direction of Miss Leta Weaver, December 13, before the Parent-Teachers' Association. At the request of this organization, the tableaux were shown with the accompaniment of Christmas carols, sung by the Mother Singers.

Doris Morgan, Wayne Grabill, Wayne Morgan, Rosalind Stratton, Mildred Morgan, Viola Govert, Martha O'Brien, Edith Pritchard, Betty Griffith, Joe Ann Sims, Delores Sable, and Edith Wilson made up the cast.

Assisting on the program were Virgil Cornet, Marie Sonntag, Marian Pritchard, Ethel Johnson, Hazel Perry, Phyllis Schroeder, and Gret-na Yunker.

The dramatic club is off to a good start and the students are awaiting more plays with interest.

IN SYMPATHY

Ho-Hi extends its sincere sympathy to Ethel and Stanley Johnson and to Helen and William Otto who recently suffered the loss of a parent. Mr. Johnson died Wednesday morning, December 8, and Mrs. Otto died Thursday, November 18.

Come and have fun at the "Big Apple Dances."

UNDER THE MISTLETOE

Ex-grad Cal Nelson and Senior Margaret Adams seem to be hitting the high spots.

Why does Isadore Greenspan walk Frieda Libbie home every night? It couldn't be for the exercise.

The masculine Carl Westerholm seems to have a case on Dolores Sable. This may be the result of Phoebe Schroeder's party.

Everyone knows the three cadets -- Geo. Murray, Bob Parker, and Bud Pio. They're all for one and one for all.

We see Warren Jones and Carol Haddock are seeing quite a bit of each other lately. Can this be love in bloom? ? ?

Ex-grad Harry Eaton seems to miss the old school days. He comes around quite often.

Le Roy Brown and Caroline Cramer have quite a bit in common.

Students of Ho-Hi would like to know when Mark Scharbach is going to make up his mind—is it Bertie, Mary, or Rae?

Wonder what the attraction for the East Gary boys seems to be? For particulars see Jackie Gilger.

Is the romance between "Ruthie" and the leader of the Swing Nine Orchestra really gone "smash"? We wonder!

Wouldn't Izzy Bright like to catch a certain Lenny Kelly from Glen Park under the mistletoe!

Come on, gals, hurry and grab the "proverbial bachelor." Bob Wells, under the mistletoe while you have the chance.

Some day we may see Lois Baker and Edith Wilson as sisters-in-law, being as how Lois is going with Edith's big brother.

Seems that two senior girls are having difficulty over a certain East Gary boy whose initials are L. S. G.

IN SANTA'S GRAB BAG WE FIND
A new shoe shining outfit for Cecil Price.

For Mr. Yunker a bright red Packard convertible. (And he a married man!)

CHRISTMAS SPIRIT

The funny thing about Christmas is that it isn't funny at all. The few people who stop to think that it isn't all Santa Claus and sleigh bells realize that Christmas is a religious festival.

Christmas is a time for rejoicing, of course, but not only because of presents, but because of the Nativity. The custom of giving gifts on Christmas is old and beautiful. It has almost become the spirit of Christmas itself.

However let's not forget that this custom may have originated when the wise men brought gifts to the Christ child.

THEY CALL HIM

Santa Claus in America,
Kris Kringle in Germany,
Pere Noel in France,
Knecht Globes in Holland,
St. Nick in England.

But no matter how or where you say it, it symbolizes the same thing. "Merry Christmas!"

THE FIRST CHRISTMAS TREE

One cold Christmas Eve, a Catholic priest and his young friend approached a barbarous village in the Black Forest of Germany. They watched wonderingly an orange light which illuminated the sky. Hurrying to the village, they stopped short as a weird spectacle met their eyes.

Gathered in a large circle around a huge bonfire stood the entire population of the village. They were offering obeisance to a gaunt, grim oak tree. An evil-looking high priest exhorted them, declaring that the sacrifice of the tribal chief's daughter was the only means of appeasing the tree-god.

Flinching with pain, the tall, fair leader led his small daughter to the sacrificial altar. Unafraid, she knelt to receive the death blow, but just as the axe was about to descend, it was grasped from behind and wrenched from the high-priest's hands.

Then, taking advantage of the surprised silence that followed, the priest began to tell the story of the Christ child, who died that we might live. Touched by the beauty and simplicity of the religion the fair Teutons were gladly converted to the Christian faith.

The priest seized the sacrificial axe and struck the oak twice. No more blows were needed because the old tree, which was rotten to the heart, came crashing to the ground.

He then pointed to a nearby overgreen, telling the people to use it as a symbol of eternal life.

And so we do to this day.

TO MAKE AND TO BREAK

No one in the school can say that we have a really perfect group of students; however, we might do better in 1933 if the following people don't break their resolutions.

Rae Mitchell—I resolve to get a new pair of laces for my gym shoes.

Chuck Greenspan—I resolve that I shall not be bothered with any women.

Idabell Dembosky—I resolve to wear my ski-pants wherever it is permissible this year.

Bob Parker—I resolve to play a bigger and better game of basketball.

"Babe" Carbine—I resolve never again to make remarks about my studies within hearing of my teachers.

Ben Pavalokovich—I resolve to change my grades in algebra during the next year.

Patricia Edwards—I resolve to have a good hobby to pass away my leisure time.

What is it that makes everyone sick but those who swallow it? Flattery.

EVERYDAY CHRISTMAS

From Thanksgiving to New Year's Day, the whole Christian world is caught up into a frenzy of shopping, well-wishing, holly, mistletoe, Christmas trees, and charity.

The day before Christmas one hears: "Merry Christmas!" "Peace on earth; good will to men!" "Happy New Year!" The day after brings cutting remarks about the card Aunt Minnie sent, and the gloves Uncle Charley gave, when everyone knows he has just oodles of money, and wouldn't miss even one hundred dollars or so! Two weeks later even this is forgotten, and the tree is burned in the alley, the gay decorations are shipped to the attic, and the door is firmly and quickly closed in the face of a Salvation Army solicitor.

What has happened to the cheery greetings, the pleasant expressions, and the spirit of fellowship that prevailed at Christmas time? Do our poor need food, warmth, and clothing only at Christmas? Does our fellow-man merit a friendly smile and warm handshake only at Christmas? Are our old and dear friends only to be remembered at Christmas?

"Everyday Christmas? Impossible!" you say. "Think of the money that would run into!" But Christmas isn't the giving and receiving of gifts; it's the spirit that promotes such giving. If we can preserve this idea of "doing unto others" all year round, we shall have done much to lighten life's burden and to make this world a better place for our being in it.

THE FIRST SANTA CLAUS

Long years ago, a kind, rich gentleman of Holland made a practice of giving gifts to the poor on Christmas Eve. Stealing up to the house when no one was looking, he would throw a handful of gold and silver coins through the door or window. Many were the thankful prayers of the grateful folk he aided.

After his death he was canonized and was known as St. Nickolas.

Even now, although the practice has been reserved mainly for children, people of today in their gift-giving still honor St. Nickolas, as the first Santa Claus.

ORCHIDS AND NUTS

Orchids to the school board for giving us a Christmas vacation.

Nuts to those who have taken vacations all semester long.

Orchids to our cheer leaders for the peppy yells they lead.

Nuts to those students who seem to have a sore throat when it comes to yelling.

Orchids to Marian Pritchard for our nice, fat Santa Claus on Ho-Hi Life.

Nuts to those who don't believe there is a Santa Claus.

Orchids to our candy seller for "putting it on the cuff."

Nuts to those students who leave the cuff black.

Orchids to the guy that started giving Christmas presents.

Nuts to those who don't believe in the Christmas spirit.

XMAS SPIRIT REIGNS AT LIBRARIAN PARTY

A greeting of welcome by Vera Hartnup opened the annual Christbrarians, December 16, in the upper halls of the Roosevelt gym. The program that followed included: A reading, Wilma Morgan; story of Christmas, Anna Mihich; piano solo, Mary Jane Geller; "I Want You for Christmas," solo, Margaret Adams; and was concluded by a piano solo by Ruth Nagel.

Many exclamations of joy were uttered when each one received her gift. After the exchange of gifts, carols were sung.

Guests of honor were the officers' mothers: Mrs. Hartnup, Mrs. Ludvigson, Mrs. Adams, and Mrs. Sonntag. Faculty guests were Misses Helen Holman, Dorothea Friedrich, Jean Lynch, and the co-sponsor of the club, Misses Leta Weaver and Edna Friedrich.

Chairmen of the various committees were Betty Paulson, invitation; Margaret Adams, decoration; Myrtle Hentschel, entertainment; and Marie Iluff, refreshments.

Did you know that Ho-Hi Life exchanges with ten other school papers? Here they are:

Philosopher, Lew Wallace; Crimson Comet, Elston High; Michigan City; Orange and Black, Hartford, Wis.; Round-Up, North Platte, Neb.; The Tattler, Whiting, Ind.; Valpost, Valparaiso, Ind.; Ye Pilgrim, Plymouth, Ind.; Maiden Outlook, Malden, Ill.; Pioneer News, George Rogers Clark, Hammond, Ind.; and The Inklings, Crown Point, Ind.

Two Plymouth teachers have finally solved an important question. They put mirrors in the front of the room so the students can see themselves.—Ye Pilgrim, Plymouth, Indiana.

The home economics department gave a tea where members of the sewing class modeled garments.—Crimson Comet, Elston High, Michigan City.

A class in woodworking for girls only has been organized on the South Side.—South Side Times, Fort Wayne, Indiana.

It isn't leap year but just the same the Girls' Athletic Association of C. P. H. S. gave a dance for the athletes of the football season. Each girl brought her boy friend and paid for the entire evening.—Inklings, Crown Point, Indiana.

Reporters: Evelyn Adams, Shirley Lankford, Robert Lautzenhiser, George Kogheim.
Faculty Critic: Jeanne Lynch.

Fads, fads, fads, and still more fads: is there any end to them! Mr. VanderKolk and the boys led in the first fad of tumbling off the chairs; and just so the men and boys wouldn't be ahead of them in any way, the girls started a fad all of their own. Of all things, yes, you guessed it; it's shoes. Leave it to them to be different.

Miss Lynch starts the fads (that doesn't agree with some of us) of paying a penny for everytime a pupil has to borrow a pencil in her class. At last report she has about ten cents. Some of the students think she needs a body guard, and don't doubt it one bit. Some of these pencil "forgetters" might stage a sidewalk robbery when Miss Lynch is going home.

We all knew and expected that Mr. Foxwell would do strange things, but who would of thought that he would have gone so far as to undress Raymond Respecke? (Maybe that's a fad of his undressing people we mean).

Phyllis Hardman seems very interested in the band. Your main interest couldn't be a certain clarinet player with the initials J. S. could it, Phyllis?

Mary McRitchie must have her mind some place else besides with her. First she falls off her chair, and next she mistakes Vivian Verplanke for Miss Anderson. Come on Mary, what's it all about?

Have you voted for your candidate in the "Popularity Contest"? If you have, we hope your choice won; and if you didn't, don't let it happen again. The contest was sponsored through the "Junior High Lights." After the first vote, those who received the most votes were selected, and the final vote was taken.

The seventh and eighth grades sponsored a Christmas play. The name of it was "The Least of These" by Ella Wilson and Anna Field. The characters included in it were: Laverne Johnson, Herbert Ellenberger, Junior Lautzenhiser, Catherine Wood, Pearl Gumm, Trent Kostgrade, Clara Schroeder, Jenn Piester, and Dean Stark.

Only fellow classmen attended.

There will be no rest for the eighth grade basketball team during the Christmas vacation, for the practice and games will be held as usual.

CLASS ROOM HAPPENINGS

Pupil: "Mr. Todd, will you help me with this question?" (during test)

Mr. Todd: "I would, only I think it would not be right."

Mr. VanderKolk: "What does municipality mean, Billy?"
Billy M.: "You've got me there."

Miss Lynch was giving a very illustrative example of an alien in her history class by saying that it was like sugar and salt mixed together; one was foreign and didn't belong.

Bright pupil: "Which doesn't belong—sugar or salt?"

TRAFFIC SQUAD PLANS SPRING BANQUET

A ways and means committee was organized under the leadership of Mr. Wendell Elpers, at their regular meeting Thursday, December 2.

The purpose of this committee is to obtain money to have a banquet at the end of the year.

Plans are being made to put on a benefit show which will be in the near future. The chairman of this committee is Roland Rippe, assisted by Anthony Kupkee and Harold Stevens.

GLEE CLUB GOES CAROLING

Approximately twenty-five Glee Club members will go caroling in the true Christmas fashion on Wednesday, December 22.

The group will pass through the streets singing the well-known carols, "Silent Night," "The First Noel," and "Deck the Halls."

BLACKIE CANINE

ESTABLISHES RECORD

The shortest school term on record was established by Blackie Canine, who took a fifteen minute course in business English, December 7.

Blackie came in unnoticed and quietly took a seat (upon the floor) in the back of the room. About fifteen minutes later he moved to the front of the room to hear better. There, however, he was immediately noticed. Since he had not enrolled in Ho-Hi, he was asked to leave. Blackie argued that he wanted to hear the rest of the lesson, but his objections were overruled. Feeling very depressed, he allowed Fred Sonntag to carry him out of the room.

When questioned about his dismissal, Blackie said sadly, "And I wanted to be the only educated dog in dogdom."

BALANCE WINS, LOSSES IN WEEK END TILTS

Hobart Brickies received their first setback of the season Friday night, December 10, by the efforts of Hammond Clark by a 28 to 24 score; but they came back strong the following night by netting a last quarter drive to defeat North Judson, 40 to 29, on the enemy's court.

In the Clark game the Brickies' punch was lacking; Neal Smith, the Brickies' captain, was unable to get going probably due to cold from which he was suffering. Philip Roper led the home town boys by garnering eleven points; Sfcrow paced Clark with six points.

The Brickies garnered their fifth win of the season when they met North Judson. Both teams were keyed for a win, because both had been defeated the night before. The game was played at a terrific pace with both teams taking advantage of their time outs.

With Smith out of the line-up, Roper again carried the burden with eighteen points. Judson's captain and forward paced the Blue Jays with nine points.

Reserves Down Clark

In the reserve game Hobart defeated Clark on Friday night, by a good margin of 30 to 18. They were paced by Charles Greenspan. On the following night they were defeated 17 to 14 by the Blue Jays' reserve team in a rough and tumble game. Gradle led the Brickies, while Smith and Trimosky paced North Judson.

BRICKIES FAVORED IN CHRISTMAS TOURNEY

The eight non-conference towns of Lake County will compete in the annual Christmas tourney at Crown Point, December 20-30. The eight schools are Hobart, Tolleston, East Gary, Griffith, Wheeler, Calumet Twp., Merrillville and Crown Point. Five of these schools are eligible for the Post-Tribune Victory Ball.

The Brickies are the leading favorites because of their defeat of Wanatah, Calumet, Chesterton and Griffith, East Gary, Tolleston and the host follow respectively.

The three high-point men of the Brickies—Smith, Roper and Greenspan—will be expected to boost Hobart's scores. Last year Hobart lost the Victory Ball to East Gary, who in turn lost it to Tolleston, who were the victors of last year's tournament.

HOBERT BRICKIES OFF TO WINNING START

Hobart Brickies inaugurated their 1937-38 basketball season by posting four wins over the first four opponents, namely: Wanatah- 42 to 7; Calumet, 31 to 14; Chesterton. 32 to 25, and Griffith, 27 to 17. All games except Chesterton were played in Roosevelt gym.

During the game with Chesterton, the Hobart fans were given the biggest scare of the season by seeing Hobart behind at the end of the first quarter, 9 to 2. Hobart steadily overcame Chesterton's lead and held it until the end of the game.

Hobart Loosters were entitled to a good brand of basketball when the Brickies faced the Panthers of Griffith, who was a major contender for the Victory Ball and several times were close on the Brickies' heels.

In the other two games the Brickies were set against weaker teams who did not show stiff opposition against the local sharpshooters.

Brickies' hoopsters have been paced by Neal Smith and Philip Roper; while the opposition has been led by Downing from Griffith and Hess from Chesterton.

The Hobart reserves are keeping in step with their brother team by taking four straight out of four attempts. They have been paced by Clarence Winger, Raymond Dommer, and "Chuck" Greenspan.

Their most impressive game was at Chesterton, where they were pitted against a more experienced team which also had height and a good shooting eye. But the Brickie Reserves came through and put the game on ice in the fourth quarter by the score of 27 to 20.

BRICKIES SET FOR CLARK, CENTRAL

Hobart Brickies will engage Hammond Clark Saturday night in their second meeting of the year, on Clark's floor.

The Brickies are sure to give the Pioneers a good battle if they play the brand of basketball shown at North Judson. Hobart will also give a good showing for Clark is the only team to defeat Hobart thus far this season.

On Friday night Hobart will be host to Catholic Central. This game should be of interest to local fans, for if Hobart wins it will boost their rating to six out of

BRICKIE WRESTLERS LOSE INITIAL BOUT

Hobart groaners under the supervision of Coach Belshaw lost their initial bout of the season to a more experienced team from Clark by the score of 15½ to 16½, at Clark's gym, Thursday night, December 2.

Clark's scorers were Zimmermann, L. Foster, J. Foster, Vrone, and Fech. Zimmermann pinned Jolliff for five points; L. Foster mastered a time advantage over Woncewicz for three points; J. Foster established a time advantage over Wells for three points; Vrone tied with Westerholm for two and one-half points; and Fech received a time advantage over R. Sonntag for three points, making a total of 16½.

Hobart's tallies were made by Goodrich, F. Sonntag, Parry, and Westerholm. Goodrich received a time advantage over Golauka for three points; F. Sonntag pinned Bell for five points. Parry pinned Laumeyer for five points and Westerholm tied with Vrone for five points.

This made Hobart's total of 15½, one point short of tying Clark.

GIRLS' INTER-CLASS BASKETBALL ORGANIZES

Approximately sixty girls met in the gym with the coach, Miss Dorothea Friedrich, Monday, November 29, to organize girls' inter-class basketball.

Due to the changing of the lines on the gym floor for boys' basketball, a new system of rules will be used this year. Two section basketball will be played instead of three section. In two section basketball a team consists of three forwards and three guards. This eliminates a jump center and a running center. The floor is divided in half; thus a girl is able to play on half the floor instead of a third.

Practices are on Monday in the evenings and Friday afternoons. A girl who misses more than two practices will not receive an activity point.

There is a possibility that there will be a tournament, but it has not been definitely decided.

Once again the big bad wolf examinations, is howling at the door of those who are not exempt. However, he is weaker this year than he was last, for the exams are only one hour long.

Finals will begin on Thursday, January 20, and will be concluded on Friday at 10:45. The schedule will run as follows:

January 20

First and second hour classes----	8:45 to 9:40
Third hour classes----	9:45 to 10:40
Fourth hour classes----	10:45 to 11:45
Fifth hour classes----	12:50 to 1:45
Sixth hour classes----	1:50 to 2:45
Seventh hour classes----	2:50 to 3:50

January 21

Eighth hour classes----	8:45 to 9:40
Ninth hour classes----	9:45 to 10:45

At 10:45 Friday morning, students will be dismissed for the remainder of the day. Teachers will have this time to complete final records and reports.

School will reconvene on Monday, January 24, under the old schedule. The student who needs his schedule changed will be called to the office. After his program has been adjusted he will follow his new schedule.

The new requirements for exemption are rather high in Hobart. One must have a B average in the exempted subject; a C average in all the other subjects; no grade under C; and no conduct grade lower than B. Only academic subjects count on exemption.

Few of the four hundred odd students of Hobart are exempted. However, those who reach a sufficiently high average in one subject are usually exempt in others.

TRAFFIC SQUAD FROSTY DRIVE

For the past few weeks the Traffic Squad has been sponsoring a frosty sale for the purpose of securing money to finance a banquet at Phil Schmidt's for all club members at the close of the year.

Harold Stevens, who is captain of the frosty drive, is assisted by one lieutenant for each day of school.

TALKING MOVIES SHOWN AT CONVO. JANUARY 12

Moving pictures of the world of athletics were shown at a convo in the assembly Wednesday, January 12, the seventh and eighth hour to junior and senior high students.

This is the second opportunity that Ho-Hi students have had to see talking movies. Mr. Wreeland, who brought them here, showed movies of the 1936 Olympics on January 6 of last year.

Dramatic Club To Give Pageant

The Dramatis Personae Club will give a pageant entitled "Lost and Found Opportunity," February 8. This pageant was written by a P. T. A. member and will be presented for the P. T. A.

Miss Leta Weaver explained at the meeting January 6, that the pageant is woven about Pandora and the box of evil spirits and the founding of the P. T. A.

A system of merits was explained by Betty Passow, chairman of the merit committee. Merits will be given for work done for the club, but no demerits will be given.

It was also stressed at the meeting that anyone who missed three successive meetings without an excused absence will be dropped from the club. Excuses may be put in the excuse box in room 322. Wayne Grabill was appointed judge to pass judgment on these excuses.

MR. YUNKER ATTENDS DISTRICT HI-Y MEET

Mr. Howard Yunker, sponsor of the Hobart Hi-Y Club, attended the annual dinner of the First District on Monday evening, January 10, at Gibson Y. M. C. A. in Hammond, Indiana.

The sponsors took advantage of the splendid opportunity to discuss local Hi-Y problems, and they made tentative plans for the regional Older Boys' Conference to be held early this spring. They also discussed plans for representation at the Second National Hi-Y Congress to be held in June.

State Y. M. C. A. secretary, B. A. Schnell, and States Boys' Work secretary, Merel Graver, were the main speakers of the evening.

CERTIFICATES TO STUDENTS
SELECTED BY FACULTY

As in the former years, the Student Council will again present awards at the close of the second semester to deserving students who are named by a faculty committee.

These awards are in the form of a certificate; and, although they have little material value, the honor will long remain.

The fifteen awards in the senior high will be for attendance, courtesy, citizenship, diction, girl and boy scholarship, personality, best girl and boy athlete, best in dramatics, boy and girl with most activity points, and the outstanding organization.

The ten awards in the junior high are for attendance, scholarship, citizenship, diction, courtesy, outstanding junior high boy and girl, music, best in dramatics and personality.

The judges for the senior high are Mr. Howard Yunker, Misses Helen Holman and Ruth Martindale, and for the junior high are Mr. S. B. Todd, and Misses Edith Dorsey and Jeanne Lynch.

The physique awards of last year were dropped and those best in dramatics were added.

Since the awards will not be given until the close of school year students who are interested in receiving the honorary award have time to prove themselves worthy for the distinction.

SENIORS MEASURED FOR CAPS AND GOWNS

Since the measuring for caps and gowns has begun, seniors are beginning to realize that their high school days are rapidly drawing to a close.

All seniors graduating at the end of the first semester must be measured for caps and gowns before they leave school. Luella Sonntag and Elma Allen are taking the measurements for the girls while Fullerton Boyd, Anthony Kupke, and Neal Smith are taking the measurements for the boys.

UNBALANCED TEETER

Once again there is a death-like silence in the assemblies, a dearth of parties in the clubs, feverish questioning in classes, and cramming at home.

What is it? Surely you yourself are sufficiently in its midst to guess. Exams.

"It's mean of the teachers to give them; anyhow. I should have been exempt." Thus may freshmen, sophomores, juniors, and even seniors (who ought to know better) be heard voicing their opinions of exams.

Students who have spent the last seventeen weeks on the heavy end of a teeter weighted down by social activities must now settle down to a week or so of cramming in order to pass the exams. They can only watch enviously the frolics of the other students who, because they did their daily work, need not burn midnight oil.

If you are one of these unfortunate, you probably know it, but don't tell any one else. Just begin to creep very carefully toward the other end until the teeter balances again.

LEARN THESE YELLS

Keep it up! Keep it up!
Don't give in!
Keep it up! Keep it up!
And you will win!

Sometimes we win
Sometimes we love;
But we have a smile
That we always use.

CONSOLATION IN TRYING

Will you pass the examinations in all your subjects? Who knows?

Success is a wonderful joy to man. But failure is usually hard to face. Suppose an individual has earnestly tried during the semester to get all his assignments and really worked diligently, but still seems to fail. Here is where praise and glory is due. He can at least say, "I tried." If we seriously set our minds to the task, we're not a failure, even though the grades are against us.

So, if success shall come your way, you deserve full credit; to those who tried but failed, we dedicate these lines.

For Those Who Fail

"All honor to him who shall win the prize,"

The world has cried for a thousand years;

"But to him who tries, and fails and dies

I give honor and glory and tears."

LOST OR STRAYED

The following magazines have been lost or have strayed from the magazine rack of the school library: The November and December issues of the "American," the December issue of the "Business World," the November issue of "Correct English," and the November and December issues of "Scholastic."

If you have these magazines or have seen them, the librarians would appreciate your returning them to the library.

TOO HEAVY AT ONE END

BAND MEMBERS GET LETTERS FOR MERIT

Outstanding members of Hobart High School Band can soon be identified by their wearing of letters and stripes worn on regulation sweaters.

Only those members who have been in the band two years, who have attended one National Contest in solo or ensemble, and who are in the upper half of their section will be eligible to letters.

These letters are in the form of a gold lyre with HOBART written across the top. The members themselves will furnish the regulation sweaters on which the letters are to be worn and which will have a blue stripe for every two years' membership and a white stripe for section leadership.

The band system of "challenging" enables any member to work himself up to letter eligibility.

J. H. L. CLUB PLANS VALENTINE PARTY

After the success of the Christmas party, the J. H. L. Club are making plans for a Valentine party in February with the new 9B's as guests. The members for this party are Rita L. Bates, time and place committee; James Fleming, invitation; Edna Stevens, entertainment; Freda Libbie, decoration; Dorothy Foreman, refreshments; and Jean Call, secretary.

The present plans are for the library clean-up before the semester ends. The committee to select the theme for this function is Betty Lou Page, Nettie Howatt, Betty Cuson.

GIRLS' CLUB SELL OLD FAVORS AT SALE

Hats, rings, and comb cases! These were the items sold at the rummage sale by the Girls' Club on Friday January 7, at 12:15, in the assembly.

These articles were favors left over from parties that the Girls' Club had had and were sold for two and three cents.

ART SALON PATRON

The following nominees from the various organizations have been selected and voted upon by the student body on Wednesday, January 12.

Journalism, Margaret Adams; Senior High Dramatics, Wayne Morgan; Senior High Librarians, Marie Sonntag; Band, Eugene Becker; Junior Class, Betty Passow; Freshman Class, Patricia Edwards; Latin Club, Morton Clark; Hi-Y, Georges Smith; Sophomore Class, Lenore Schavey; Girls' Club, Bonita Leininger; Senior Class, Marian Pritchard; Traffic Squad, Jerry Kilgrew; Glee Club, Catherine Jane Baile; Student Council, Charles Donnelly.

The results of the voting were tabulated too late for this issue.

HO-HI STUDENTS BUY READERS DIGEST

Ho-Hi students now enjoy the Readers Digest each month. Ordinarily this magazine would cost twenty-five cents an issue, but by ordering them through the school, the student may have them for fifteen cents.

Any student may secure a copy of the Readers Digest by placing his order with an English teacher or at the office.

This magazine contains articles that have been condensed from all leading magazines.

The popularity of the Readers Digest is proved by the fact that it is the only national magazine that is published in a special Braille edition for the blind.

SENIOR CORNERED BY CUB REPORTER

The inquiring reporter struck again—he cornered his victim, Robert Wells, during the noon hour in the assembly on January 4.

Bob is a senior, and was captain of the 1937 football squad. He is now an understudy of Coach Belcher in the art of wrestling.

When Bob saw that he was cornered, he immediately opened up by telling "Hi."

The first question fired at him by the reporter was, "What are your hobbies?"

He answered, "My major hobbies are football, wrestling, swimming, and hunting. Bob also stated, 'I guess I inherited my love for sports and, especially my love for football, from my father, who played half back during his high school days.'"

When asked what he thought of the other activities offered by the high school, he replied, "Although I do not belong to any of these organizations, I believe that they are for the betterment of the school and will raise the standard of the school."

In his closing sentence he said, "Girls are out."

During his high school career, he participated in football, basketball, track, and wrestling, which he intends to continue if he goes to college.

SENIORS TO TAKE SNAPSHOTS

At the senior meeting, January 3 Ethel Libbie was appointed chairman of a committee to take snapshots of the members of the class. The committee will begin soon to take these pictures. They will be sold to the students at the price of development.

Booklets for autographs for senior week will be made by Luella Sonntag and her committee.

The senior edition was also discussed at this meeting. Assignments have been given in the last week to those who have expressed their willingness to write for the paper.

"GIRLS LEAD BOYS IN ACTING"—WEAVER

"I am not at all discouraged," replied Miss Leta Weaver in an inquiry about the Dramatic Personnel, the new name of the dramatic club. "It would have been better if more boys would have come out, but you will find that in young people of high school age, girls are nearly always more interested in dramatics than boys."

Miss Weaver, who formerly taught in Scott High School, Howe, Indiana, stated that she thought Hobart much different from Scott in that it is composed of city instead of rural children, is much larger, and has many more activities.

While in Scott she sponsored a class organization but not until she came here did she direct dramatics. However, she is interested in dramatics and enjoys the club work. She is also the sponsor for the Senior High Librarians.

LATIN CLUB HONORS ANCIENT ROMAN GOD

Since the Latin Club members have consulted the Delphic Oracle for favorable auspices, they are certain to have a good time at their Mardi Gras party.

Held in honor of Saturn, Roman god of agriculture, this party will take place in the high school assembly.

Roman games will be played by the members. After the program, arranged by Dick Harrigan, has been presented. For this occasion the assembly will be decorated in maroon and gold, the club colors.

A Roman menu of cheese cakes, olives, parched corn, pomegranate seeds, and grape juice will be served to the members before they leave for the torchlight procession. Carrying lighted torches, they will proceed up town dressed in togas and singing "Talasio."

In the 1A Latin class contest John Harney's side won and was treated by Howard Wegmet's side to frosties. Individual winners were Albert Johnson, and Aileen Flick.

Esther Ramsay's losing team will give a party on January 19, for the winning team under Jane Ferguson in the 1B Latin class. Individual winners were Myrtle Henschel and a tie between Dick Nelson and Paul Van Asdal.

A soap carving exhibit was displayed in the book cabinet in room 209. These carvings will be sent to the Proctor and Gamble exhibit in New York.

I. U. BAND COMING TO HOBART, MARCH 24

The Indiana University Band will give an early spring concert at the Roosevelt gym, Thursday, March 24, at eight o'clock. The program will be entertaining to all music lovers.

Tickets are twenty-five cents for students and thirty-five cents for adults.

CLASSROOM DETECTIVE

With a little investigation I have found that every student has started the new year right by studying. But Watson's report shows that it's the final exams just ahead that has made such studious pupils in Ho-Hi. Early European history students are going Roman! Well, anyway, they're studying the "Emperor of Rome."

Undaunted by exams, students of Mr. Williams' government classes are giving reports.

Discovered! the reason for all the sighs of relief of the second year Latin students. They have just studied the death of Caesar.

Students of the physic class are keeping warm these winter days with their study of heat.

This is about all I could find as all classes are preparing for final examination.

So long! see you next time with more news.

FANCY THAT!

Are you "snug as a bug in a rug?" That started in 1779.

You've heard no doubt that "whatever is worth doing at all is worth doing well?" That started in the eighteenth century.

Sounds were as "clear as a whistle" almost 200 years ago.

That same century saw the birth of "over the hills and far away."

Alexander Pope can be blamed for "In youth and beauty wisdom is but rare!" In other words, girls, "beautiful but dumb!"

People went "hand in glove" as long ago as the seventeenth century.

Jonathan Swift started the saying that "she looks as if butter wouldn't melt in her mouth."

ORCHIDS AND NUTS

Orchids to the Traffic Squad for their "frosties" at noon.

Nuts to those who can't keep them on the stick.

Orchids to the Booster Club for their keen after-the-game dance.

Nuts to those who didn't shake the dust off their feet.

Orchids to Edith Pritchard for her straight A's in Literature.

Nuts to us poor guys that get only a B.

Orchids to the seniors who will wear caps and gowns.

Nuts to those few seniors who failed to make the grade.

Orchids to Virgil Cornet for his noon hour swing session in 321.

Nuts to "vouse" guys that can't get down and swing it.

Orchids to the junior class for their apples—we mean "Big Apple Dances."

Nuts to those guys who won't try the "Suzy Q."

It matters not how a man dies but how he lives.

DESERTED?

A REMINDER

Dear Students,
Once in a while
Will you try to give one little
thought to me?

Though something else may be
nearer your heart.

Once in a while
Will you dream of the moments you
should share with me

(Remember those finals!)

Moments before we two drifted
apart

(Dear old Christmas vacation)
In the fires smoldering embers

One red mark may remain.

If you do not remember,
The red mark may be there, again.

I know that I'll be contented with
yesterday's memories,

(Cramming for the last exams)
Knowing you think of me

Once in a while.

With love and hope,

Your school books.

The Freshmen Journalism classes of Hartford High School have been putting out hand printed weekly papers. Two or three copies are made and passed around the room.—Orange and Black, Hartford, Wisconsin.

Tune your radio in on station W-II-I-P Saturday at 2:30 p. m. and listen to the group of students from V. H. S. dramatize Mrs. Graves' plays. After the fifth broadcast these students will try for a sponsor.—Valpost, Valparaiso, Indiana.

The Journalism class of Whiting High School presented an amateur show on Jan. 6.—Tattler, Whiting, Indiana.

Faculty Critic: Jeanne Lynch.

Robert Balitz seems to be trying his best to get to the bottom of algebra, and the floor seems to be the limit in his mathematics class. We found him, chair, and all lying on the floor tussling with algebra. Maybe he doesn't know yet that one is supposed to sit, not lie, on a chair; but then, algebra seems to be quite a problem at that!

If you hear a certain eighth grade girl and a ninth grade girl talking about how wonderful root beer is, don't think they are really talking about root beer—it happens to be a boy with the initials R. B.—(Root Beer)—get it?

WANTED—LOST—FOUND—DEPT.
Wanted—Robert Balitz—Some of his pictures returned.

Lost—Way to keep 7th hour literature class from giggling at everything. If found return to Miss Anderson immediately.

Found—That pupils in Social Studies classes still can't remember pencils and paper even though it costs them a penny each time they forget. The second hour class has .22c in the treasury with Grayson Moss as secretary. The 3rd hour class has .13c (the Scotchmen).

Wanted—More room in Ho-Hi Life for junior high news. Get your contributions in.

Found—The steps leading to the lower hall are very slippery. Go quietly next time, E. B.

Found—Evelyn Adams' theme song seems to be "Rosalie" (by changing a few words around she seems to have a very fitting song).

Found—Miss Anderson can't get to her 8th hour class before the bell rings.

The 8th grade basketball team defeated Miller 8th grade with a 16-13 score. Two overtime periods were played before B. Scharbach made a free throw and Jr. Lautzenhiser made a basket. This spurt put them ahead of Miller by three points. The scoring may have been brought about by the four practices which were held during the holidays.

Grayson Moss proved that the force of gravity is still working in room 205. He fell off his chair (like Robert B.) in 8th hour mathematics class. Beware, you may be the next victim.

CORRECTION

We hope too many of you didn't get the wrong impression from our statement that J. S. was Phyllis Hardman's main interest in the band. That would be doing an injustice to Jimmy Shaw—how about it, Jimmy?

GIRLS' SPORTS

The girls' gym classes participated in a volley ball tournament January 10, 11, 12. It was a round robin tournament. The captains of the teams are: Cathern Woods, whose team has won 10 out of 11 games; Ruth Anderson, whose team has won 6 out of 11 games; Shirley Haxton, whose team has won 4 out of 11, and Evelyn Lundahl, whose team has also won 4 out of 11.

Evidently the tournament was a contest between R. Anderson's and Cathern Woods' teams. The schedule for their games were as follows:

Round I
Cathern—Shirley
Evelyn—Ruth

Round II
Ruth—Shirley
Round III
Evelyn—Shirley
Ruth—Cathern

Round IV
Evelyn—Cathern
Round V
Ruth—Cathern

The 8B-2 were as follows:

Victoria Tzitz...6 out of 9 games
Annis Vermeson...6 out of 9 games
Anne Wasylewick...1 out of 9 games
Lois Jane Schoon...1 out of 9 games

In this contest the most competition was offered by Victoria and Anna's teams. The schedule was as follows:

Round I
Anna V.
Anna V.

Round II
Victoria T.
Anna V.

Round V.
Lois S. and Anna V.

The Jr. Hi Dramatic Club is going in for valentines in a big way. They expect to sell to all the students in Hobart High and Jr. High. Don't forget that February 14 isn't so far away.

In the study hall library books should not be taken out until five minutes of the period have elapsed. Books should be returned to the desk five minutes before the bell rings so that the librarians will have sufficient time to place the book on the shelf and get to her next class.

See that your name is properly signed upon the card or you may be fined for a book that you did not take out.

Books taken out overnight should be returned to the desk the second or third hour of the next morning or a fine will be imposed.

Failure to abide by these rules causes the librarian extra work and she would appreciate it if you would co-operate with her.

ON THE SHELF

Do you like stories of early pioneer days, of the struggle between man and nature, of people—real people—who left their homelands to come to America and start a new nation?

All these are found in Rolvaag's "Giants of the Earth," a story of hard working Norwegians, especially of Per Hansa and his wife Beret, who went far west in our country to make a new home on strange soil. It is a story of Per Hansa's growing love for his adopted country, and of Beret's growing dissatisfaction and fear, of her gradual withdrawal into her dark thoughts until her mind becomes affected and—

But read it for yourself and don't miss the introduction to the book. The life of the author, Rolvaag, is as interesting as the book itself.

This book, which was first published in 1927, is acceptable as a senior book report.

BRICKIES READY FOR WEEK-END GAMES

Hobart Brickies will meet two foes of the lower bracket when they meet the Bulldogs of Crown Point this evening and the Bearcats of Wheeler tomorrow night.

To date neither of these teams have shown a great amount of offensive or defensive power. Wheeler seems somewhat stronger than Crown Point as they went to the finals in the consolation games in the Xmas tourney and were defeated by Tolleston.

Crown Point on the other hand was an early victim of Edison in the tournament, and also a victim of Wheeler in the consolation games.

Hobart, having defeated Tolleston at the holiday games, is a favorite in the week-end games.

LOSE XMAS TOURNEY TO EAST GARY, 38-33

The Hobart Brickies' hope of becoming the champions of the Christmas Tournament was short lived, December 30, when they encountered the fast stepping team from East Gary in the finals, and were set down by a 38-33 count.

The Brickies uncorked plenty of offensive and defensive power in the opening and semi-finals, when they met and defeated Tolleston 28-19, and Calumet 31-17.

The Brickies led in the opening quarter by a 13-7 margin. In the second quarter Edison garnered 12 points while Hobart could snag only 4, making the score stand 19-14 in favor of Edison at the half.

In the third quarter the East Gary boys again counted for 12, and Hobart for only 7, making the score 31-24 at the beginning of the fourth quarter. In the last quarter the Hobart boys made a vain attempt to overhaul the East Gary sharpshooters but fell five points short of tying. The final score was 38-33, with Edison on the long end.

During the entire tournament the Brickies' high point men were Greenspan and Smith; Greenspan accounted for 28 points, and Smith garnered 25 points.

By winning the tourney the East Gary five received a trophy and the ball used in the tournament; by defeating Hobart, they captured the Brickies' prized trophy, the Post-Tribune Victory Ball.

The only way Hobart can again gain possession of the Victory Ball is to defeat Edison, or some team that is lucky to beat Edison.

CHESTERTON BECOMES VICTIM OF 3RICKIES

Hobart Brickies, led by Philip Roper, defeated Chesterton in their second encounter by a score of 40 to 35 in Roosevelt gym, Friday, January 7, 1938.

The Brickies took advantage of the slow-starting team by piling up a 23 to 9 score at the half.

In the third quarter, the tall Chesterton quint started to get the range, by pumping in shots from all angles. They made 15 points to Hobart's 11, and made the score 34 to 24 in Hobart's favor.

In the fourth quarter the visitors paced by McGroarity and Gierck made 11 points to Hobart's 6, and several times were within five points of the winners.

Hobart was paced by Roper, Greenspan, and Smith. Roper made 13, Greenspan 12, and Smith 9 points. Gierck and McGroarity made 14 and 11 points respectively.

When the final gun sounded, the Brickies were out in front by a 40 to 35 count.

The Brickies have won ten games in twelve starts, counting the two wins in the tourney and eight scheduled games.

SPORTS GOSSIP

The Brickies' "Ace" detective, Neal Smith, had a workout on the way to Hammond Clark when his new sweat socks disappeared. He immediately began his probing and questioning for the missing articles. During his search he came upon innocent Philip Roper, whom he searched thoroughly and found the missing goods, thus closing the "Socks Mystery!"

Philip Roper knows he is tall, but he also knows of somebody taller, a Buck Holtz from Hammond Clark.

The football boys received their Little Four Conference stars in January, and they look pretty nifty. The stars were awarded to the major lettermen.

Neal Smith and Issy Greenspan seemed to be the "plugs" that pushed the team to victory over Central and Clark.

During the siege of illness and injuries among the Brickies, Chuck Greenspan was moved up to the first team, but joined the second team during the Clark game.

The Gary Post-Tribune has been giving the Brickies a big boost here of late. The paper recognizes the Purple and Gold Quint as one of the top ranking teams of the county. The boys of the first ten, even had their pictures in the paper.

CLARK, CENTRAL FALL INTO BRICKIES' HANDS

Brickies of Hobart downed two strong teams from Hammond, Dec. 17 and 16, by defeating Catholic Central on the home floor by a 30-34 count, and by defeating the highly touted Pioneers from Clark by a 33-30 score the following night.

Hobart's invasion of the Pioneers' fort on Saturday night, December 17, was to get revenge for the defeat handed them by Clark in an earlier game. The Brickies did just that, for they came from behind to defeat Clark in the final twenty seconds of play by two successive field goals from Hobart's "Ace" Smith.

The Brickies were being led in the first quarter, 12-7, but tied it at the half by a 15-15 count. At the end of the third quarter Hobart had a two point lead. The fourth quarter both teams were straining and playing for all their worth. With less than a minute to go the Brickies were trailing by one point. Willmoth got a free throw but missed, which looked as if Hobart's cause were lost, but the Brickies' captain broke through to score twice in succession, putting the Brickies in the lead by a three point margin just as the gun sounded.

The night before, the Brickie fans nearly went wild when Coach Belshaw sent Smith and Greenspan in to the losing game. Central was leading at that time 21-12, but the two new members bolstered the morale of the losing team and carried it to a 34-30 victory.

In the two games the Brickies were paced by Roper, Willmoth, I. Greenspan, and Neal Smith; Clark was paced by Burk and Central by Bencheik.

WELCOME

January brings us a new office girl. Miss Jeanne Grinn, '37, is now employed as secretary to Principal R. A. Nuzum. The position was formerly held by Dorothy Rhoades '35 (Mrs. Gordon Daniels), who is now living in Vicksburg, Michigan.

STUDENTS MISS FAMILIAR FIGURE

Returning after the Christmas holidays to newly waxed floors and stairways, Ho-Hi students had a queer feeling that some essential thing or person was missing.

It didn't take long for them to realize it was Uncle Billy Foreman, mechanical engineer, who has been ill with a bronchial cold for several weeks.

Uncle Bill has been with Hobart High for nearly thirty-three years and is one of the best known and most loved characters of our school.

Many of us can remember him from our primary days as one person who has never been too busy to hear our tales of woe or to give us a cheery greeting.

We are glad that he has recovered and is with us once more.

MECHANICAL MUSIC FOR HO-HI DANCERS

"Swing Is Here to Sway." This is the current watchword for the students of Hobart High. The absence of school "swing bands" for the dances of the various organizations of Ho-Hi has brought about the securing of a new electric victrola for the school. The financing of the instrument is to be handled by donations from the various classes and clubs.

The idea was first introduced by the sophomore class, who purchased 25 records when they had their party. It was later used by the band at their Christmas party and was received with unanimous favor. It is currently being used by the juniors for their matinee dances.

NO STRIPES FOR MINOR AWARDS

The boys participating in school sports voted against the wearing of stripes with minor letters. The voting was held in room 205, January 5.

A committee consisting of Russell Sonntag, Robert Wells, and Philip Roper were appointed to find who the boys are that are wearing stripes with minors.

MID-WINTER CONCERT PRESENTED FEB. 15

N. W. Hovey, Guest Conductor;
Contest Numbers For Class
B Bands Interpreted

Mr. Bertram W. Francis, Director of the Hobart High School Concert Band has selected a wide variety of tone compositions and will present his band in the Annual Mid-Winter Concert next Tuesday, February 15.

The program will be one of the most difficult Mr. Francis has directed since his arrival in Hobart. Contest music will be the predominating feature of the concert. The required contest number for Class B bands is the fugue-natured "Builders of Youth," by Capt. Charles O'Neill. The Hobart Band will give their interpretation of this number in May at Elkhart when they will try strongly to uphold the title—National Champions.

The band will benefit materially by the fact that the concert will be staged on the floor of the Roosevelt Auditorium rather than on the stage, as was formerly the case. The curtains are said to have muffled the tones of the band. In this way patrons can more appreciate the balance effect for which this musical organization is noted.

Solos rendered will be Victoria Pflughoeft, harpist, and Richard Averitt, flutist.

Mr. Nilo W. Hovey, noted director of George Rogers Clark, Hammond, will be guest conductor for the evening. He will direct one of the required contest numbers.

The tone poem, "Manin Veen" composed by Hadyn Wood, is believed by many, to be the most sonorous and musical composition ever written by the pen of man. It is the heaviest number on the entire program. The climax portrays in music, the melody of the Irish fishermen, when they all banded together to sing following a successful fishing trip. It sounds like all Ireland singing with the organ in St. Peter's Cathedral of Rose playing their accompaniment.

The finale of the concert, however, will be the two excerpts from the Pathétique Symphony by Igor Tschaiakowsky.

WASHINGTON

An American soldier, statesman, and first president of the United States was George Washington, the father of our Country. He was born in Westmoreland County, Virginia, and well deserved the record: "First in peace, first in War, and first in the hearts of his Countrymen."

NEW SEMESTER BRINGS CHANGES

For the past eight and one-half years Miss Emma E. Clapp, English, social studies, and Journalism teacher, has been a member of this faculty. Because of her interest in the field of newspaper, she has resigned as teacher in Hobart High School, to accept a position with C. T. Dearing Printing Company of Louisville, Ky.

Since Miss Emma Clapp resigned, Miss Virginia Carnefix was engaged to take her place. Miss Carnefix teaches English, literature, and journalism.

A new course, Safety, has been instituted in the curriculum of this school. A state law requires a credit in Safety before graduation. Seniors of this year, however, are not required to take it. Miss Dorothea Friedrich and Mr. George Belshaw are teaching this course.

Twenty-seven 8A's of junior high successfully passed their examinations and are now freshmen in Hobart High.

IN SYMPATHY

The students of Jr. Sr. High School wish to express their deepest sympathy to Coach S. B. Todd and son Curtis Thomas, for the loss of their dear wife and mother. Mrs. Todd passed away on January 17, 1938.

"ABRAHAM LINCOLN, THE CHRISTIAN"

John L. Parsons and Wife Present
Three Episodes in the
Life of Lincoln.

Two professional artists, Mr. and Mrs. John L. Parsons, who have had long, long years of experience on the legitimate stage, will present a playlet of three episodes from the life of Lincoln to the Ho-Hi students in the assembly, Monday, February 14, during the sixth and seventh hours.

Mr. Parsons is a veteran of 41 years on the stage, and Mrs. Parsons has served as his leading lady for the past fifteen years.

The make-up for this playlet requires two hours to prepare, and the costuming is historically correct.

When his make-up is complete Mr. Parsons is a living image of Mr. Lincoln. The dimensions of the facial features, height, size of boots, beard, wig and wearing apparel are exactly those of the former president.

Mrs. Parsons wears the hoop skirts, pantalettes and poke bonnet of the '60s, changing to a government issue soldier uniform of the Civil War.

The playlet consists of three episodes: First, The Jeffries Appeal, which depicts Abraham Lincoln in his law office in Springfield, Illinois, in 1858; second, The Sleeping Sentinel, which takes place on board the steamer Ocean Queen, at City Point, Virginia, March 25, 1865, following his interview with Grant, Sherman and Porter; third, Lincoln's conversation with the Confederate officer who dies in his arms.

This playlet has been recommended by High schools, churches, of all denominations, private schools, clubs, lodges, boy scout troops, and American Legion.

MERLE CARVER SPEAKS TO HI-Y CLUB

Wednesday, February 9, the Hi-Y Club had the pleasure of hearing a talk given by Merle Carver, Secretary of State Boys' Work.

Merle Carver has been visiting all the Hi-Y Clubs in this district.

Following the meeting, light refreshments were served.

VALENTINE THOUGHT

"Valentines!" What emotions are aroused by the one word! Although the custom of sending love-messages has fallen into disuse in England and although it has been greatly commercialized here in America; some of the old sentiment still is aroused in every boy and girl at this time of the year.

However, the idea in the public mind seems to be that valentines are to be sent only to one's sweetheart and that they must be expensive to show the degree of affection. Charles Lamb presents a different idea when he suggests that we send an anonymous Valentine to anyone who has done us an unknowing kindness. Have you never felt "blue" and a wee bit discouraged, when suddenly your spirits rose at a smile from a young girl or boy, or a cheery greeting from a friend. What could be more fitting therefore than, on this day of loving thoughts, we repay that kindness with a beautiful message, fashioned by ourselves, and sent anonymously with the hope of making another heart glad?

What a feeling must be in the heart of the person receiving this valentine, knowing that someone, not a lover, cares enough to spend time and thought in creating a message of gratitude and affection to add beauty and joy to the day!

Let us then pass this Saint Valentine's Day, happy in the thought that the postman, who "sinks beneath a load of delicate embarrassments," bears a message of thanks to one who has unknowingly lightened our hearts!

VANDALISM

There are some students in school who do not possess the self-control to resist scratching and defacing any smooth surface. It seems an impossibility for such students to pass a wall or desk without drawing designs or inscribing their names.

The school administration has to spend an unnecessarily great amount of money each year to refinish desks and other such surfaces which have been damaged by students in this manner.

Such vandalism is wholly unnecessary, and totally unworthy of our students. The desks and walls should, by their unmarred surfaces, reflect the character of high school students who wish to keep their school beautiful and neat.

ON THE SHELF

Warner Field, whose name was really Jeffrey Warner Field, became absorbed in the diaries of Nancy Moore and was for some reason very much perturbed when he read the last entry. It read: "I am eighteen today. Something has happened... something terrible... Oh, Nancy Moore, I loved you. Good-bye."

What was it? Had they sent her away? Had she died? Had she been married to someone against her will? What had happened to her?

Many nights Field puzzled over this and then—Nancy Moore came back...!

You will enjoy this story. "The Rim of the Prairie," by Bess Streeter Aldrich. A little bit of pathos, humor, and mystery make this a truly absorbing story.

DRAMATISTS GIVE

P. T. A. PAGEANT

At the request of the Parent Teachers' Association the Dramatis Personae presented a pageant entitled "Lost and Found Opportunities" February 14, 1938, in the high school assembly.

This play was written by a P. T. A. member and centered around the Greek myth of Pandora and the chest of evil spirits. The founding and work of the P. T. A. was also illustrated.

The student directors for this play were Margaret Adams and Delores Sable.

The cast is as follows:

Pinner of Dreams—Wilma Morgan
Mothers — Ruth Dommer. Ethel Johnson, Hazel Perry, Bettv Passow, Marie Sonntag, Eunice Young, Ruth Kellberg, Phyllis Schroeder. Poppies—Mary Janssen, Helen Lazar, Betty Jane Shafer, Janet Stangebye, Dorothy Siewen, Alice Mae Stevens, Gretna Yunker. Father—Virgil Cornett.

Wounded Soldier—Wayne Morgan.

This program was prepared in honor of P. T. A. Founders Day and was the second of the dramatics club works presented before the P. T. A.

STUDENT COUNCIL PRESENTS PROJECTS

A safety week to be sponsored by the Traffic squad, better stage lighting effects to be secured by the Dramatic clubs of junior and senior high, and a clean-up week to be conducted by the Hi-Y Club, are a few of the projects that have been presented to the various organizations of the school by the Student Council. It is the Council's chief objective this year to make Ho-Hi a more desirable place to attend school than other institutions of the district. Anthony Kupkee, chairman of the projects committee, is open to any suggestions that the student body might have concerning projects for the betterment of the school.

At the meeting on the evening of Tuesday, January 25, the Council elected to send two delegates, Jerry Killigrew and Charles Donnelly, to the faculty for the purpose of having certain matters explained to the satisfaction of the student body.

It was decided that the date for the Senior Party was to be set for the evening of Tuesday, February 22. The various committees for the function were appointed by Agnes Jane Keppel, the acting president.

A locker inspection was to be conducted on a moment's notice, the purpose of which was to find any lost books or other property and to conduct a general clean-up.

Following the business meeting, refreshments of chocolate pie and milk were served by the chairman, Irene Call, and other members of the refreshment committee; Trent Kostbade, Dave Mackey, Marian Ledyard, Betsey Ripley, Miss McKenna and John Sapper.

SENIOR NEWS

Eugene Beckner, president of the senior class, recently completed the class chart which has printed upon it the name of this year's class officers, the motto, the flower, and the colors.

The red and white flag that now hangs in room 210 is the senior class flag. It was recently completed by Richard Worthington and his committee which consisted of Margaret Adams, Elizabeth Bright, Jacquelyn Gilger, and Dorothy Stratton.

Seniors will soon select their announcements. The committee—Una Jean Haxton, Robert Wells, Evelyn Lowitt, and Dorothy Stratton, has written to various companies who will send representatives to display the announcements at a senior meeting where they will be chosen.

The autograph committee for Senior Week has decided to have the autograph booklets made if the company will make them for a small fee. If their plans succeed, the booklets will contain a page with the names of the class officers of the four years, pages for autographs, and pages for small pictures.

PITTER - PATTER

FANCY THAT

There were a half dozen Saint Valentines; two of them died on the same day were buried in the same place, and have their festivals at the same time.

Neither of them had anything to do with February fourteenth excitement.

Charles Lamb rather quaintly described valentines as "delicate embarrassments."

Valentines Day is no longer celebrated in Great Britain, and in America it has digressed greatly from its original purpose.

At Shakespeare's time, the liver, not the heart, was considered the seat of the affections.

The only reason love tokens are exchanged on Valentines Day, is that spring is near; and in the spring, you know, "a young man's fancy

The actual sending of Valentines, or rather, love-tokens and messages, originated in the worship of Juno, wife of Jupiter.

CUPID'S SECRETS EXPOSED

Cupid's diary has been found! Let's look into it, huh? Here goes—February 1, 1938.

That Marie Sweet thinks she's pulling a fast one on me, but I'm still trying to find the owner of the '36 class ring that she is wearing. February 2, 1938

That Allen Tobey lad certainly does things fast. He has already found Maxine McKee, and he's only been in Ho-Hi a couple of months. February 3, 1938

I think I'll send a couple more darts into the hearts of Betsy Ripley and Robert Worthington. Feb. 4, 1938

Bob Parker is smart. Now, if he wants to marry Peggy Blean, he won't have to pay for a preacher. February 5, 1938

Gosh, when I let my darts pierce the hearts of Shirley Hoos and Bud Pio, I didn't think it would be that serious. February 6, 1938

I see that Wayne Morgan has gone in for music with Norine Frederick as the reason. February 7, 1938

What's wrong with me? I've just discovered that Marjorie Lounsbury is wearing a diamond, and she's had it for two weeks. February 8, 1938

Well, I won't have to worry about Martha O'Brien much longer. Carl Nelson will soon be back. February 9, 1938

Goodness gracious I can't seem to keep up with Jerry Killigrew. Now it's Irene Call. February 10, 1938

Saw that heartbreaker, Harold Stevens, with Norma Alexander. February 11, 1938

Good-bye for awhile, diary. I'm going to be terribly busy with Valentine's Day only a couple days away.

VALENTINE CHARM

Here's a charm used by love-lorn lassies of the Middle Ages. It may be just the thing for you who want to wed your heart's desire.

Pin to your pillow five bay leaves, one in each corner and one in the middle. (This charm does not insure a good night's rest). Do this before retiring, and if you dream of your sweetheart, you're sure to marry him before the year is over.

But to make it a sure thing, boil an egg hard, remove the yolk, and fill its place with salt. Just before going to bed, eat the egg, salt, shell, and all, without drinking or speaking afterwards. If this does not insure a vivid dream, there is no virtue in charms.

This method is guaranteed to bring results—of some sort!

SNOOPIN' WITH CUPID

We find that Dan Cupid has pierced the hearts of many of our Ho-Hi Life Readers. There are old cases and new cases, so let's review a few of them.

Here they are:
Jackie Quinn and David Mackey

So long, folks until next time when we return with more news about this and that.

HI-Y ORDERS EMBLEM

The Hobart High School Hi-Y Club held their regular meeting January 25, 1938, at four o'clock in room 211. At this time they ordered a wooden emblem to be made in the school wood shop. This will be hung in the gym.

The club was fortunate in securing Rev. Wm. Blean, of the First Methodist Episcopal Church, who spoke to the boys on the topic of "Keeping a Young Mind and Staying in Step with the World of Today." The talk was very interesting and its force was felt by everyone present. After Rev. Blean's address, sandwiches, jello and cookies were served by the refreshment committee.

No definite time has been set for the party.

Inch me and pinch me weren't very busy,

STUDENTS' COLUMN

The following are articles, poems, and songs which were written by students.

Inspiration

I want to write a poem,
But I don't know what about;
I want to draw a picture,
But my art is not so hot.

I'd sort a like to sing a song,
But that's against the rule.
Since I don't even take chorus
In this ever boring school.

I 'spose I ought to study,
Learn how to read and spell;
But, gosh, who wants to study,
Let the darn books go to the lock-
er.

My Love

Here I sit in silent bliss
Longing for my lover's kiss,
I don't know whether it will ever
come
Because it seems "I'm so darn
dumb!"

Chemistry

(To the tune of "O Fir Tree Green")
Chemistry, my chemistry,
O how deep you are for me.
When'er a test doth come alooq
I put down answers that are wrong.
And so you see, I shall not be,
A swimmer long in chemistry.

By swimming do not take me wrong
I'm swimming now, but not for long.
As farther in the course I go.
It seems there's less and less I know.
Just watch me sink and you will see,
I'll live not long in chemistry.

LIBRARIANS' ALUMNI

PARTY FEBRUARY 18

The Sr. High Librarians' Club will entertain approximately thirty five alumni guests in the upper hall of the Roosevelt Gym at seven-thirty in the evening February 18. Valentine's Day will be the theme of the party. Everyone who attends must bring a valentine.

Invitations were made in the shape of a book in the club's colors.

Broken hearted bunco will be the main game of the evening with a prize for the highest score. The program will consist of a short skit of the affairs of two small children and of a song by Lois Baker.

Mothers of the chairman of the committees and several teachers will also be guests of the club.

A rose will be given to each alumni guest at the close of the party.

Following are the chairmen of the various committees: Invitation, Margaret Adams; entertainment, Marian Glynn; decoration, Lenore Shavey; program, Wilma Morgan; refreshment, Luella Sonntag; and check room, Mdred Hentschel and Marie Sonntag.

CLASSROOM DETECTIVE

Everything is in an uproar this time. Watson and I have been kept busy with so much going on. Instead of studying, everyone is wondering if Hobart will beat East Gary. Oh, well, that's the teachers' worry, not mine, so I will give you a few of the most prominent cases tried this week.

In her seventh hour safety class, Miss Dorothea Friedrich is learning that some students drive a car in many queer ways.

Mr. E. P. Williams' government class heard Mr. Ray J. Madden, Lake County Treasurer, the other day, and they're anticipating a visit from state representative, Mr. Baltghazer Hoffman, in the near future.

Calling all cars! Rubber checks are in circulation! Investigate the bookkeeping students at once!

Kenneth Pope was left holding the bag the other day when the table in some mysterious way fold ed up causing his typewriter to go crashing to the floor with a bang and a broken space bar. It was rushed to the Woodstock hospital where it has imoroved sufficiently to return to work.

Well, beware of Dao Cupid. You know that every time he shoots an arrow, he usually Mrs. it. So long.

BASKETBALL BOYS SEE

NOTRE DAME-ST. LOUIS PLAY

Members of Hobart High School's varsity basketball squad attended the Notre Dame-St. Louis game, at the Notre Dame Fieldhouse, on Tuesday, February 1. The boys were guests of the Notre Dame University.

Superintendent J. M. Sellers and Coach George Belshaw drove the boys to La Porte where they had their supper, and then continued on to South Bend.

Much useful knowledge was gained, as the boys saw a strong Notre Dame five defeat their opponents by a final score of 50-25. The Notre Dame team has many good ball handlers. This seemed to be the outstanding point of interest to the boys.

HO-HI HARMONY BOYS

The various high school organizations can now add to their entertainments without hiring outside talent.

Three sophomore boys—Robert McIntire, Donald Denman, and Howard Parker have formed a trio, which will be on call for any high school entertainment.

The idea of a high school trio originated last year but was dropped due to a lack of a sponsor. They are accompanied and directed by Catherine Baile.

HOBERT VS. EDISON FOR VICTORY BALL

The two top-ranking teams of the county, East Gary and Hobart, will play for the Post-Tribune Victory Ball, on Saturday, February 12. The Victory Ball is now in the possession of East Gary, the only undefeated team in the county. The Brickies rate second-best with only two defeats this season.

The game which will be played at Edison's gym will be a knock-down and drag-out affair with both teams fighting to the finish. Although the Edisonites are the favorites, as the record proves, they will have a tough job in defeating the Brickies.

When the two highest ranking teams of the county meet, along with all of the fire and tradition of high school rivalry and the Victory Ball to the winner, the spectators will be on the edge of their seat all of the way.

The following week-end the Brickies will journey to Tolleston to meet the Blue Raiders, Little Four foes. On February 19 the Purple and Gold will be guests at Griffith. The last game of the Brickies' schedule will be with Lew Wallace on February 25 at the Brickies' home gym.

SPORT GOSSIP

Does Izzy play basketball or does he take in washings? Izzy was caught washing his socks at the half of the Tolleston game.

Chuck Donneley seems to be giving Betty Ittel lessons in cheering.

Those who were at the Wheeler game got an eyeful of Gradle's new red pants. Weren't they just ducky, Mr. Todd?

The second team mascot seems to be giving Chuck Walters considerable trouble.

"Girls," have you noticed the change in the appearance of the basketball players lately? It appears that they have been combing their hair and slicking up before going on the floor.

Whether you know it or not the Brickies are playing bang up basketball.

HOBERT WRESTLERS

IN CLARK EXHIBITION

The Brickie grapplers met Clark in their third match of the season on Thursday, January 25, at Clark where the Pioneers won by a 20 to 10 score.

Wonsuircz and Jolliff obtained their first win of the season at this match.

Hobart's leading scorers are: Fred Sonntag, 10 points; Carl Westerholm, 5½ points; followed by Wells, Perry, Wonsuircz and Perry with five points.

The next match is to be held at East Chicago.

HOBERT BRICKIES IN DOUBLE WIN

Paced by Greenspan, Smith and Roper, the Hobart Brickies defeated Crown Point 44 to 31, and Winamac 41 to 16, on the two successive evenings, February 4 and 5, at Crown Point and Winamac respectively.

Hobart met its strongest foe of the week at Crown Point. Although Crown Point's center, Brooks, connected for seventeen points, the Bulldogs were a serious threat to the Brickies' lead.

Hobart led in the Crown Point game 13 to 4 at the end of the initial period. In the second quarter Crown Point out-scored Hobart by one point, by garnering eleven to Hobart's ten. At half time the score stood 23 to 15 in the Brickies' favor. From then on the Brickies scored at will.

Hobart rode high at Winamac. Expecting a strong team and playing them as such, the Brickies using a fast break, piled up an 11 to 3 lead at the quarter and led 18 to 6 at the half.

By the end of the third quarter the Brickie regulars had garnered a large enough lead to enable Coach Belshaw to send the regulars to the showers and a new team into the game.

The new five sent into the game lived up to their expectations by outscoring the Winamac quint as well as holding them in check just as the first string had done.

The Brickies' second team broke even over the weak end by dropping their first game to Crown Point by the score of 18 to 13 and then coming back the following evening to defeat a strong Winamac quint by a 23 to 17 count.

HOBERT BRICKIES IN WINNING STRIDE

By playing a hard, fast brand of basketball, the Hobart Brickies have defeated most of their opponents recently; Crown Point—29 to 18, to 26; Whiting—37 to 33, and Westville—55 to 23.

The toughest foe of the season was met in the team of Oilers from Whiting. Hobart was able to defeat the Oilers by the use of the fast break followed by stiff defense.

The Brickies witnessed their first overtime game and win at Whiting, playing a nip and tuck game with the Oilers, for part of the time Hobart was ahead, and then again Whiting was leading.

The next hardest game of the season was playing against Tolleston, who gave the Brickie fans a scare by coming suddenly to life in the second half, and pulling up within two points of the winners.

Points on the third six weeks honor roll run higher than those in the semester honor roll because drill subjects and conduct, as well as solids are counted.

Four students, Shirley Hoos, Gretna Yunker, Ralph Worthington, and Richard Worthington head this honor roll with a maximum of twenty points. Helen Jensen, Marjorie Papke, Edith Pritchard, Elaine Ludvigson, and Charles Donnelly have nineteen points; Mary Jane Galler, Albert Johnson, Aileen Fleck, and Anthony Kupkee have eighteen points;

Patricia Edwards, Anton Galich, Bette Johnson, Marilyn Fleck, Wilma Morgan, Esther Ramsey, Doris Frye, Marian Ledyard, and Marv Zajec have seventeen points; William Salter, Marian Glynn, Norine Frederick, Betty Eaton, Madge Dockter, and Charles Miller, have sixteen points.

Patricia Edwards, Anton Galich, Bette Johnson, Marilyn Fleck, Wilma Morgan, Esther Ramsey, Doris Frye, Marian Ledyard, and Marv Zajec have seventeen points; William Salter, Marian Glynn, Norine Frederick, Betty Eaton, Madge Dockter, and Charles Miller, have sixteen points. Gertrude Wellman, Lyall Lamb, and Bonita Leininger, have fifteen points.

There are fewer people on the third six weeks' honor roll than on the semester one because third six weeks' grades are counted instead of semester averages.

C. O. HOLLEY SPEAKS TO GOV'T CLASS JAN. 14

Sheriff Carroll O. Holley spoke to the Government class during the fourth period on January 14. Mr. Holley explained his duties as sheriff of Lake county.

Recorder Borman, who is the Lake county recorder, also spoke on January 14, telling of his work.

Several students of the class wrote to these county officers asking them to speak before the Government class.

LATIN CLUB HOLDS MARDI GRAS PARTY

A Mardi Gras Party was held by the Latin Club on Monday, January 30, in the high school assembly.

This party, held under favorable auspices, was in honor of the god Saturn.

The program included songs in Latin by the group, a speech by dictator Bradford Colburn, a speech by Charles Miller, and a Roman wedding in which Wilma Morgan and Mark Sellers were the bride and groom, and Jarvis Roper, the Priest.

The Latin Club has been selling pegasus's, winged horses, in Room 209 for two cents. Only students who have had or are taking Latin may buy these.

GARY R.O.T.C. CHIEF SPEAKS ON DEFENSE

**CAPT. DONALD Q. HARRIS SAYS
WAY TO PEACE IS THROUGH
ADEQUATE ARMAMENT**

"In this world of today, with its large standing armies, fleets of bristling warships, and munitions plants running full blast," said Captain Donald Q. Harris, "the only way leading to peace for America is preparedness." Since the French and Indian wars, the people of America have only armed themselves when they were face to face with immediate danger. With the present day methods of eating up space with high speed transportation, we have been far removed from the old days and now must stand prepared at all times to defend this country of ours.

Captain Harris, who received his degree from the United States Military Academy at West Point, is in charge of the R. O. T. C. training in the Gary Public Schools. During the fourth period of Friday, Feb. 18, the captain gave a very interesting informal talk to the members of the senior class. At this time he spoke of our three point National Defense program, the army, the navy, and the reserves, and also urged attendance of any boy over 17 years of age in the Citizens' Military Training Camp at Fort Benning Harrison where he is Personnel Adjutant.

DOCTOR LUTZ GIVES SECOND LECTURE

On Friday, February 24, the high school girls, eligible to hear health lectures, heard a second talk by Doctor Georgiana Lutz, who is very interested in high standard of good health for young girls. In order to be strong and healthy in later years she believes we must build up our bodies now, by eating correct foods and by getting a certain amount of rest and exercise, thus assuring a healthful life.

Blood and money have to circulate freely in order to do any good.

A man never knows how lucky in love he is when he remains single.

Information About Colleges

Mr. Williams, senior class sponsor, has many booklets and catalogs describing colleges and universities in Indiana and other states.

Some of these colleges and universities, which are located in Indiana and Purdue University, are: Indiana University, Bloomington; Western College, Crawfordsville; Valparaiso University, Valparaiso; Taylor College, Upland, Ind.; Ellettsville College, Terre Haute; Hanover College, Madison; Franklin College, Franklin; Central Normal College, Danville; and Butler University, Indianapolis.

A few of those located in other states are: Harvard, Northwestern State, University of Illinois, Northwestern, Wheaton College, Western Reserve, Rockford, Oxford, Middlebury, Marquette, Lake Forest, and Judson. An outstanding feature of all the colleges mentioned above is that they all give scholarships.

Mr. Williams also has special booklets available for use by students on letter writing, art, advertising, music, business, and nurses training.

All of these booklets and catalogs are on the desk in room 210 to be used by any student who is interested. You may use them during school hours or you may take them home overnight. For further information any student may see Mr. Williams, who will gladly answer any questions which you might have.

DRAMATISTS BEGIN ONE-ACT PLAYS

The Dramatic Personae has begun to work on one act plays which will be given at the meetings.

For this purpose the members have been divided into three groups of eleven persons. Each of these groups will have the opportunity to give at least one play.

The first play will be "Three's a Crowd" by the McCarthys. This is a delightful comedy about a boy, his girl friend, and her little sister.

Betty Passow will play Eddie, the young swain, Phoebe Schroeder, Madeline, the siren, Margaret Adams, Ellen, the little sister; Vergil Cornett, Elmer, who is, in a way, the villain; and Margaret Nehring, Mr. Johnson, Eddie's father.

BRICKIES TO PLAY HAMMOND SECTIONAL

**HAMMOND TECH. TO BE FIRST
FOE FOR HOBART QUINTETTE
IN NEW AUDITORIUM**

March 3! Oh. Joy! Tournament week is here again! Perhaps you have never been to a sectional tournament, never given your invaluable aid to your team by yelling your throat sore; never sustained body and soul for two days with peanuts, hot dogs, frosties, and the like. Now is your chance to experience this great thrill along with many other loyal Brickie supporters. These things are a vital part of every high school student's school life; therefore if you have never been to a sectional tournament, don't let anything cause you to miss this one.

Hammond, with their new half million dollar civic center building, which houses the latest thing in air conditioned gyms, has the honor of playing host to the competing teams. All the schools of Lake county, with the exception of the five Gary schools, will be represented at Hammond on March 3, 4, and 5.

Although Hobart will be rid of the Gary menace, we shall still have plenty of tough opposition to overcome. If things work out as every Hobart roster hopes they will, the team will have to put aside Hammond Tech., and three other teams that will have to wade through plenty to reach the Ho-Hi representatives. If support will help win this tourney, the Brickies should have a good chance of coming through with the laurels.

The tournament will be divided into eleven sessions of three games each, one on Thursday evening, three during Friday, one Saturday afternoon, and the finals Saturday night.

So come one come all, watch the Brickies play ball.

A sensible girl doesn't look as sensible as she is because she is too sensible to look sensible.

EMBLEMS

"Ask him what his emblem means!" So spoke Mr. Merle Carver at a recent convocation. This statement holds meaning, not only for the boys of that particular organization, but for the rest of us as well.

Figuratively speaking, we all wear emblems, whether we want to or not. We receive our emblems through years of training, and each emblem reveals to others exactly what we are. Many young men and women of today wear the emblem of good taste, fine breeding, extensive education. Yet, are these young people true to these emblems? Do they understand what they represent? The answer is decidedly negative when we know that these people are wastrels, having no idea of the value of money, and indolents, content to live on their parents and the hope of an inheritance.

Many young men and women of today bear the emblem of illiteracy and dishonesty. These young men and women have received these emblems, some through unfortunate circumstances, and others through choice. These young people are everything their emblem reveals.

We, too, are judged by the emblem we wear. If, through careful training, our emblem shows that we are honest, intelligent broad-minded individuals, let us always be true to that outward sign and live up to our better qualities as best we can.

The only thing that can't be taxed to death is the patience of the taxpayers.

If looks could kill it would not be safe for some people to look in a mirror.

STUDENT VOICE

The policy of this column is constructive suggestions and criticism. As is the case in all newspapers, any contribution that is unsigned will not be accepted. If it is so desired, the names will be withheld, but we must have the signature. Ho-Hi students have co-operated splendidly in the attempt to secure personal opinions. Thank you.

Lost Club?

What has happened to the Camera Club? . . . Nothing has been said about it this year and we think it is a shame as well as a disappointment to many of the former members. . . . It was a convenient organization for the bus-riders, because all meetings were held at noon. Why not revive the Camera Club and give it a new start?

Fire Drill

I want to criticize the way in which the recent fire drill was conducted. When the bell sounded, everyone began to talk . . . students started for the stairs . . . with no formation at all. This is the first time they have had a fire drill since I've been here and I couldn't imagine what was happening! It seems to me that, as narrow as the halls are, they should have some sort of formation.

Band Notes

(Several band students have expressed this idea) — Mr. Francis doesn't challenge enough. (This is band "lingo" and has nothing to do with duels).

(Band members are asking for more support from the student body because they are trying to keep the title, "National Champions").

Room 209 Hallway?

I don't see why some people condemn the sixth hour community civics class as being the most unruly class in the school. Part of the confusion is due to the fact that most pupils use it as a hallway between Jr. and Sr. High during the noon hour. While nearly all classrooms are locked . . . room 209 is open to all students. Students who don't belong in our classroom, come in and mark up the board with silly expressions. . . . I know they are not allowed to do that in other classrooms so why should it be allowed in room 209? The majority of the class really tries to be quiet.

Upper classmen please be a little more considerate when you talk about our class.

A Boost!

Last year it was a rare and much celebrated occasion when our boys put over a victory. This year only three games have been won over us, thus far. Of all the twenty-two games played this season, the three that were lost have been the most valuable to us. Our team has proven its ability to win fairly and squarely; the students with the team have justified the courage to lose courageously. Our sportsmanship has been fine so far. Let's keep it up!!!

THE DISSIMULATOR

(Fashioned After the Athenian Characters of Theophrastus, B. C. 372 - 287).

A dissimulator is a pretender.

Therefore, a dissimulating student is one who pretends to be deeply interested in each subject, holds long consultations at the teacher's desk, is never "not prepared," but has always "studied the wrong lesson" or "was absent yesterday" or "did not understand the question." The pretender will wave his hand frantically at an easy question and will search in a pre-occupied manner for a lost pencil when a hard question is asked. He unwittingly betrays himself when he says that he would "enjoy making posters but just hasn't the time."

The dissimulator is worse in private life than in public, for he will praise you to your face and slander you behind your back; therefore, for all these reasons beware of him.

THE PRINTING PRESS

My heart is of steel. My limbs are of copper. My fingers are of brass.

I am the voice of today and the herald of the future. I tell the story of peace and of fighting. I still the pulse of nations and make brave men do brave deeds.

When I speak, many thousands of people cease their work and listen, for I carry their joys and sorrows. I am right knowledge and power; I am the record of all things mankind has achieved.

I am the laughter and the tears of the world, and I shall never tire until all things have returned to dust. I am the printing press.

Co-Operation, Please!

In one of the largest organizations of the school—that is the Junior Class—approximately one-fifth of the members have been attending the meetings. Then, when business is done without them and various projects are planned, the majority refuse to support them because they have not had a share in planning them. They claim, and justly, that a few persons are running the class. It is true that only a few students have influence in the government of the class, but how can the rest help themselves by staying away? The logical thing for them to do is to attend the meetings and have their say-so instead of finding fault with the way things are now.

How About It?

Let's have a snake dance, Hobart. Other schools do.

Untidiness

Could we ask the students who eat their lunches in the assembly at noon to be more considerate of the students who occupy those seats during the sixth hour? They have been leaving crumbs, paper, etc., and the appearance of the assembly is extremely untidy.

Most of the houses on Easy street are for rent.

SAINT PATRICK (ABOUT 389-463)

Although Saint Patrick is the well-beloved patron saint of Ireland, he was born in Scotland, or in England, or in France.

At the age of sixteen, he was captured by pirates from Ireland and carried to that island where for six years he tended the flocks of an Ulster chieftain. During these years of slavery, he became a devoted Christian, and after his escape to France entered monastic life. In 432 he returned to Ireland, and for the rest of his life worked zealously in various parts of the island, where he founded over 300 churches, and personally baptized over 120,000 people.

A great many legends grew up about this popular saint. One of the favorites represents him as charming the snakes of Ireland by his music so that they followed him to the seashore, where they were driven into the water and drowned.

Always thought of in connection with Ireland, of which it is the national emblem, the shamrock is usually identified with the white clover. The clover, believed to be the shamrock, has leaves of a beautiful blue-green color, each made up of three leaflets.

Saint Patrick, so the story goes, chose this emblem because the three leaflets were symbolic of the Trinity.

All over the world, wherever the Irish have penetrated, March 17 is celebrated as Saint Patrick's feast day.

CLASSROOM DETECTIVE

Sprig has cub! That is, if Watson's report is true. It seems as if the biology class met one morning not so long ago to find that a moth had hatched. It proved to be a Telega Polypheumus which was brown with a blue spot on each wing. It had hatched from a collection of 120 cocoons brought in by Herbert Sonntag. They also have in their midst a Crecopia, having dark brown wings and a body of red and white stripes. A little later three more Telega Polypheumus and one more Crecopia were hatched. The class is being tried for murder as a result of the chloroforming and the mounting of these poor innocent moths. The verdict has not yet been pronounced.

The Business English Class is having a contest for the best business letter to be put on the bulletin board in room 213. Duplicate prizes will be awarded.

Flash! Flash! Flash! Believe it or not, I was informed that the Mechanical Drawing Class is drawing. Fancy that!

The 10A Literature Classes are studying Silas Marner and from all reports seem to be enjoying it.

Debates are fashionable in the Journalism Class. For particulars see Bob Parker.

Well, I'll see you next time with more cases (I hope).

THE VACUUM CLEANER

The vacuum cleaner is that piece of mechanism which drives men to distraction and dirt to its doom. During the week it stands dejected and forlorn in the closet, but on Friday it swells out its chest and becomes a prime factor in the life of every housewife.

Having been plugged in and given a good start by that energetic woman, commonly called the housewife, it pursues its belligerent course, in corners and around piano legs, shouting vociferously and licking up every particle of dirt within the grasp of its gaping mouth.

However, there sometimes comes a time when it does not shout so loudly nor run so boldly. Suddenly a few coughs are heard, a dying gasp, and then quiet reigns. In such a case an S O S call is often transmitted from the somewhat exasperated wife to her husband. The cleaner is given an examination and then its case is diagnosed. An attempt is made to repair the affected part. Sometimes the trouble is found and repaired at once, but more often not. In either case, the irate husband, muttering unintelligibly to himself, betakes himself to some favorite haunt where he can forget it all. Meanwhile the poor will either struggles on with the still roaring but somewhat subdued cleaner, or in disgust, gets out the hand cleaner to finish the day's work.

Nevertheless, it can be seen that the vacuum cleaner is an essential part in the health and happiness of any home.

Shirley Hoos,
11B English.

TWELVE THINGS TO REMEMBER

The value of time.
The success of perseverance.
The pleasure of working.
The dignity of simplicity.
The worth of character.
The power of kindness.
The influence of example.
The obligation of duty.
The wisdom of economy.
The virtue of patience.
The improvement of talent.
The joy of originating.

THE LITTLE THINGS

It takes so little to make us glad, to cheer us up, to make us happy; it takes and costs so little to be kind, to be thoughtful, to be considerate; it takes so little to cheer others up who are discouraged, so little to lend a helping hand; yet it means so much, to others as well as to ourselves.

We think too much about doing the things that look big in our lives, and we think too little of the everyday small acts of thoughtfulness, of kindness, the little helpfulnesses to those who are disheartened and down and out. After all, is it not the little things that make up life?

—Orison Swett Marden

"TWO HOT DOGS, PLEASE"

(By "The General")

He had been working hard all day, and now he was tired. He was simply and utterly exhausted. He leaned slowly back in his none too comfortable chair, as if he dreaded to encounter its stiff unfriendly back. He interlaced his fingers at the back of his head and closed his weary eyes.

Wouldn't it be nice, he reflected, if he didn't have to work? If only he could loll on some nice quiet beach and watch the graceful sea gulls circle leisurely overhead, and maybe get a little sand in his ears—just enough, mind you, to make him feel at peace with the world and all its inhabitants. Yes, there would be what is commonly known as a hot dog in his right hand and a bottle of strawberry pop in his left. One hot dog didn't seem enough though. Well, ten of them would just about fill him up, and to add just a bit of romance to the scene, a beautiful mermaid would rise out of the unknown depths of the sea, and sing sweet love songs in his attentive oh, so attentive ears.

"Two hot dogs, please," a sharp voice shattered his musings. His chair came down with a loud bang.

While he doctored the hot dogs with mustard and onions he thought about his new customer. Now he looked like a prosperous gentleman. Ah me, if he could only be as rich as he. His time would be entirely his own.

He handed the order to the customer and said, "Ten cents, please." He then dropped the two nickels into the cash register and turned back to his dreams.

As the supposedly prosperous gentleman walked away from the stand, he quickly devoured his purchase in four delicious bites.

"De lucky guy," he muttered in between bites. "If I had his job of takin' care of a dinky hot dog stand, I'd be a millionaire instead of a bum."

THE IDEAL OF CONDUCT

A Hi-Y Girls' Club Joint Committee, composed of seven boys and seven girls together with the president and sponsor of each organization, has been meeting for the purpose of drafting a code of ethics which the committee considers should be practiced by all good school citizens of Hobart High, both boys and girls. If anyone has suggestions for discussion by this committee, please hand them to Betty Johnson or Bob Parker before Thursday, March 10. These suggestions may have anything to do with courtesy, conduct, citizenship, character, or every day problems upon which the students think attention should be focused. The committee invites the attention of the student body to this project and solicits their help in anything any individual or group can offer.

Orchids to the students who use courtesy in the halls and rooms.

Nuts to the students who whistle and sing and run into every one in their way.

Orchids to our splendid basketball team and coach for winning the Victory Ball from Edison.

Nuts to those who don't care or are uninterested in the game of basketball.

Orchids to Betty Ittel for the big boost she gave the team at the pep session.

Nuts to the few students who missed one of the finest pep sessions we have ever had.

Orchids to our cheer leaders for the yells at the Edison game.

Nuts to those who didn't yell and support them.

JOKE

Student: How long should a theme be?

Miss Carnefix: How long should a man's legs be?

Student: Gosh, I don't know.

Miss Carnefix: Long enough to touch the ground.

TALENTED STARS FOUND IN HO-HI SCHOOL

"In Ho-Hi there are many talented students," said Bukor of the National Pictures Co., Cedarwood, Calif.

Mr. Bukor, en route to Ainsworth in his search for new dramatic talent for the screen production, "Gone With the Wind," said that he need not go any farther. Hobart is indeed proud that Mr. Bukor found the long-searched-for Scarlett O'Hara and Rhett Butler, as well as the complete cast for "Gone With the Wind" in the local high school.

Rhett Butler—Carl Westerholm, Scarlett O'Hara—Thelma Calvert, Carreen—Martha O'Brien, Suellen—Betty Robinson, Gerald O'Hara—Peter Montville, Ellen O'Hara—Babe Carbine, Melanie Wilkes—Bette Johnson, Ashley Wilkes—Robert Worthington, Frank Kennedy—Jack Hanson, Charles Hamilton—Bill Shryock, Prissy—Izzy Bright, Mammy—Betty Ittel, Pork—Emil Milanovich Dilcey—Sabra Gernsey, Aunt Petty—Irene Covert, Dr. Meade—David Mackey, Mrs. Meade—Marian Pritchard, Beau Wilkes—Fullerton Boyd, Wade Hamilton—Billy Seed, Ella Hamilton—Goldie Antrim, Tareton Twins—Carl and Charles Myer, Uncle Peter—Lorenz Kenny, Mrs. Merriweather—Dorothy Correll.

The critics say that this picture, directed by Charles Donnelly, will be a super-colossal hit on Main Street.

Some students of North Platte High School seem to have made some slips on their exam papers. For instance:

Felonies are 8:15's.

A felony is an illness.

Mark Twain invented the airplane.

The president of the United States is Francis Perkins.

Abe Lincoln was the first president.

Suffrage is the act of smothering.

A "bath" is a prisoner's promise to obey the law.

—The Round-Up, North Platte, Neb.

MISS CUFF SPEAKS TO SR. LIBRARIANS

Miss Cuff, of the Demco Binding Company of Indianapolis, demonstrated the binding of books to members of the Sr. High Librarians during the fourth hour on Feb. 14.

Six underclassmen of the club were given a special demonstration during the seventh hour in order that they will be able to help repair library books next year.

Soon students will see bright new bindings on the high school library books in place of the worn and torn ones.

SNOOPIN' AROUND

Extra! Extra! Mr. Snooper is at it again. He has brought to light many things of interest for his readers. Hold your breath, here they are.

Did you ever hear the gag: "Please help me, mister! I'm working my way through college?" Bob Gradle and Shirley Roper seem to be working their way through high school washing desk tops. When will students learn to stop talking at convocations?

By the way, Tom Howard has found that Betsv Ripley is "Tops," or vice versa.

Beware! An epidemic of "Seven Year's Itch." Some students can't sit still in the fifth hour assembly. Better see your doctor, Leroy.

Why is Jane Rhodes so down hearted lately? Could it be because "Smoky" has gone to Pennsylvania?

Why is Virgil Cornett carrying his guitar around school lately? Could he be serenading Alice Vincent? Wait until after school, anyway, Virgil.

Idabell Dembosky has been receiving unsigned notes. Can someone enlighten her as to who the unknown admirer is?

We advise "Izzy" to put his notes in the right girl's locker next time. You know it can be rather embarrassing "Izzy."

Dorothy Boluss has again changed her boy-friend. He is a junior high boy whose initials are J. L.

You would never guess that Jerry and Irene even know each other by the way they act around school. Why is it?

Instead of one group of students having "triple" dates it can now be "quadruple." What do you think of the idea, Tom?

Oh, my! What are these high school boys coming to? Dark red fingernail polish (why, Sonny!) and bright colored bows on shoes. Tsh! Tsh! Dick and Lorenz, we do believe you're a little plicated.

Who's the ex-grad that Marie's going with? Here's a tip. His brother's name is Neal.

TOO BAD

That the stage curtains in the assembly were opened when Margaret Adams was getting her ride in the wheel chair.

That Paul Jordan can't talk to any other girl but B. L.

That the students have to take six

That Miss McKenna still has to have her baby milk.

That Francis Redar can't play the banjo while Virgil sings.

That the prom had to be set for an unlucky date, Friday 13.

Be up to snuff by reading HO-HI stuff.

Flash! It was suddenly discovered that Paul Fleming's pet peeve is asking foolish questions.

Nicknames

Dorothy Hughes—Burrhead—Reason unknown.
Bobby Lautzenhiser—Shorty—because of height.
Alice Greenlee—"Skinny"—inquire D. H. R. A.—E. A.—P. H.
Lewis Rose—"Ace"—because of basketball.
Gail Sears—"All Stars"—because he "hogs" the ball.
Phyllis Hardman—"Flips"—flips, flop—(get it).
Paul Sigler—"Ace"—because someone got mad at him.

TIME MARCHES ON

We find:
Jimmy Corbin still has a very pleasing personality.

Gail Sears still thinking about M. G.

Jr. Lautzenhiser thinking dreamily about Dorothy Bolouss.

Phyllis Hardman still saying, "Oh, Shaw!"

Dorothy Foreman still asking "whosit?"

Robert Balitz still tussling with algebra.

Ruth Anderson still trying to teach E. L. A. how to shag.

George Kegebein still coming in at 10:45. Someone should tell him school opens at 8:45.

Cathern Woods still informing her J. H. L. partner what the date is.

Jr. High pupils still falling off of chairs and still making notebooks.

Bobby Lautzenhiser still showing off for Lorraine Anderson.

Shirley Lankford still chewing gum.

Paul Sigler still thinking about the slap that a girl gave him at a party.

Poppin' Around Jr. High.

Ask Freda Libbie about the program at our last Pep Session, and she will give you a "blank look." Kenny Tegge is the reason.

Bobby Lautzenhiser has become suddenly lazy and insists upon propping up his literature book cover with his pencil.

Jr. High Band News

We thought that all the members of the band knew the names of the different instruments, but this was proved to be false when Paul Fleming called the bass clarinet a bass trombone and the alto clarinet a bass flute. We are all living in hopes that he will learn some day.

Found: Dorothy Luke packs a mean right as she demonstrated in 8th hour math class. For proof see Paul F.

Found: Quite a number of Jr. Hi students are Boy Scouts.

Boys' Sports

The 8th grade basketball team lost to New Chicago 17 to 12. In this encounter "Ace" Rose was high point man.

The 8th grade defeated New Chicago 16 to 11. Baillitz was high point man.

POT LUCK PLANNED

BY J. H. L. CLUB

For the early part of March, the J. H. L. Club is planning a pot-luck and theater party with Phyllis Hardman, chairman of the event.

Vivian Verplank is chairman of the Jr. Hi program committee for the Mothers' Teas during the latter part of March.

The Valentine party, February 14, was a great success. The home economics room was decorated in hearts and red and white balloons. Prizes for the various games were awarded to Vivian Verplank, Marjorie Malleck, Shirley Bowers, Thelma Kegebeine, and Ruth Anderson.

DEDICATED TO MR. WILLIAMS

Mr. Williams, tall and thin,
Oh my gosh, watch out for him.
He seems as mean as he can be
Just you wait and watch and see.
He'll look at you, and roar and scream,

But really, he isn't so awfully mean.
When he looks at you,
You'll shiver and shake
But when he sees that you're afraid
He'll pat your hand that's cold as ice

And then you'll think
Gosh, he is kinda nice.

A LOVE LYRIC

Dear "Rosalie":

Gee, "My First Impression of You" still lingers in my memory. You looked as "Sweet as a Song" watching the "Ebb Tide" on "Miami Shores." That was a lucky break when I accidentally bumped into you.

At the big dance that night "I Double Dared You" to kiss me and you did. Right then and there "You Took the Words Right Out of My Heart" when you said "I Love You." Remember, you said "Good Night, Angel" before we parted.

The next day you left without even saying good-bye.

Maybe I'm just on "The Sentimental Side" but "I Got That Old Feeling" today and decided to write to you. I got your address from "Sweet Sue."

Well, anyway, "Thanks for the Memories."

Please write soon if you still care for me.

Love,

Bill.

WANTED: More students to go to the "Four O'Clock" frolic.

CLASSROOM DOPE

Beware! A desperate invisible thug is at large in Hobart High School. He is a second Dracula in his lust for blood. A reward will be given for any information leading to his capture.

Wednesday morning "Chuck" Donnelly's nose began to bleed suddenly. There was no person close enough to have committed such a dastardly crime. The victim's nose bled profusely for some time, and he was in a state of intense agony for a few moments. The culprit is extremely dangerous because he cannot be seen. Who knows? You may be next!

Flash! Harlev Martin seemed to be stricken with the dreaded Trypanosomiasis. (Sleeping sickness). Although in the 8th hour assembly the teacher stood over him for a few moments amid the "snickers" of the students in the assembly, he did not awaken for some time. The disease is caused by the sting of the Tsetse fly. The symptoms are: Irregular fever, headaches, and weakness. Be on your guard for this fly!

Alex Kaulzaski has decided not to take up whistling as a career after his audition on Wednesday.

Mary Ellen Leininger, an alumni of '36, captured the prize for "Names and Authors," a get-acquainted game.

Most of the evening was spent in playing broken hearted bunco, which was played quite differently from regular bunco. Two alumni girls, Jean Thompson and Bethel Kruse, were awarded first and second prize, and Mrs. Gertrude Schavey, a chaperon, third prize.

Mildred Hentschel, mistress of ceremonies, introduced the following program: Welcome—Vera Hartnup, Acceptance—Ruth Glynn, Tap dance—Helen Crabtree, Origin of Valentine parties—Wilma Morgan, "Many Happy Returns," song—Lois Baker, Introduction—Miss Edna Friedrich, and Thank you—Miss Leta Weaver.

"MARCH BIRTHDAYS"

Oh, me! Oh, my! Again another month of the calendar is here, and along with it comes more birthdays. In this month, if March comes in like a lion, it will go out like a lamb. I wonder how many of you came roaring in like a lion. Ha! Ha! Big joke!

BIOLOGY CLASSES VISIT CHICAGO

On Saturday, February 26, part of the biology class, 9 members of the general science class, and several members of other classes, visited the Staley Field Museum and the Shedd Aquarium in Chicago.

The students left Hobart by bus at 8:20 a. m. Upon reaching Chicago they made a tour of the entire aquarium, viewing fish of all kinds and sizes such as sharks, starfish, sea anemones, and saw fish.

At the museum, they were especially interested in the bird exhibit, stuffed animals, and precious jewels.

After lunching at the museum's cafeteria, they started for home, reaching Hobart about 5:20, worn out but happy.

STUDENT COLUMN

OUR TEAM

We hope "Victory Ball" is here to stay.
We won from East Gary the other day.

It was the "Victory Ball" that we were seekin'
When we gave them that awful beatin'.

They won full nineteen straight, I guess
That's why they thought that they were best.

But we went knocking on their door
And came away victorious once more.

They beat us at the Tournament
Which beating we did all lament.
That loss made victory all the sweeter,
Although they called us a bunch of cheaters.

So thanks to the team for winning the game
And saving the glory of Hobart High's name.
They deserve more thanks than we can give
And that we'll remember as long as we live.

I fear more evil lest I forget my assignment and the teacher prosecuteth me in the presence of mine classmates.

Or I will dwell in the school house forever.

IT'S THE LAW

In Memphis, Tenn., it is the law that no one is to wear hatpins in a theater.

In Santa Ana, California, it is the law that no one is to pass a fire engine while riding a bicycle.

A Willimantic, Conn., ordinance declares that a horse must carry a tail-light if traveling after dark.

Essex Falls, N. J., forbids a dog to bark, a rooster to crow, or a duck to quack between the hours of 10 p. m. and 6 a. m.

A Norman, Oklahoma, ordinance stipulates that no young woman shall sit on a man's lap without a pillow under her.

A Utah statute forbids woman to wear heels more than 1½ inches high.

LIES

Oh! those horrid drums,
Sound in your ears,
As you creep unbumbed
Beyond your fears!
Its black as pitch!
No star to guide!
Only fear to go,
And fear to hide
Those prying eyes!
Those blackened skies!
Good God,
Forgive those useless lies.

FANCY THAT!

In the seventeenth century, Samuel Butler created a character who was really quite a forthright individual. For instance:

He was not afraid to "look a gift horse in the mouth."

If he suspected a person of lying he would declare, "I smell a rat!"

On the outside of a king's bed-chamber door, was written this witticism:

"Here lies our lord, the king,

Whose word no man relies on.

He never does a foolish thing;

And never says a wise one."

The pioneers of our country were very courageous and brave people. Also, they had a sense of humor. Even death could be made amusing, and many were the humorous epitaphs written. These are actual verses.

"Here lies our beloved Anna,
Done to death by a banana.
It wasn't the fruit that laid her low,
But the skin of the thing that made her go."

Here is an epitaph which was written by a widow on the tombstone of her husband.

"Here lies Mister Woodhen,
Beloved and best of men.

(His real name was Woodcock, but I couldn't make it come in rhyme)."

Here is an epitaph written on a tombstone of a grave along the roadside. It was written in the hope of making men mend their ways:

"Behold a man as you pass by
As you are now, so once was I,
As I am now so you will be
Prepare for death and follow me!"

Some wag added:

"To follow you I'm not content
Until I know which way you went!"

IN EXPECTATION OF RELAXATION

Oh you examination!

You are an abomination.

I answer with hesitation

And am filled with vexation.

I'd like to give an exclamation

Which might be a condemnation

Before next examination.

BRICKIES DEFEAT UNBEATEN EDISON

In an overcrowded gym at East Gary, the Hobart Brickies recaptured the victory ball by defeating Edison in a hard fought battle, 33-31. The preceding evening the Brickies were defeated by a tough crew of Raiders from Tolleston by a 27-23 count.

After suffering the defeat handed them by Tolleston, the Brickies came right back, a fighting quint, to down a powerful group of Edisonians, thus avenging the defeat handed them by Edison at the Christmas tourney. The Brickies also broke Edison's nineteen game winning streak and retook the victory ball that Edison wrested from them at the Christmas tourney.

The heavily charged Brickies were paced by Izzy Greenspan, who continually had the fans on their feet by his brilliant defensive and offensive plays.

Hobart led at the first quarter by a 9-5 and held a slight margin of one point at the half, for the count was 16-15 in favor of Hobart. The second half was almost a repetition of the first. Sometimes Hobart was ahead, sometimes tied, and at other times behind.

In the fourth quarter, Edison staged a brilliant offensive attack. With less than three minutes to play, Edison was leading 27-23. Then Hobart started the victory drive, with Scharbach, Willmoth, and Roper contributing the winning points.

HOBART BRICKIES END SUCCESSFUL SEASON

The curtain was run down on a successful season for the Hobart Brickies on Friday, February 25 at Roosevelt Gym. The Brickies defeated the Hornets of Lew Wallace by a 42 to 34 count. The week before the Brickies successfully defended the Victory Ball, by defeating the Griffith Panthers by a count of 27 to 24 score.

In the Brickies' last encounter of the season they met their traditional rivals, the Hornets of Lew Wallace. By defeating Lew Wallace this year, the Brickies have shown that they are as strong as any team in Gary; Lew Wallace has defeated Froebel, and they in turn have defeated Horace Mann and Emerson.

The game for the first three-quarters was played at a dazzling pace with the score almost tied at the end of each period. In the fourth frame, Hobart turned on the heat and coasted in with a good margin of eight points, the final count being 42 to 34.

By winning this game the Brickies' record for the season became 20 wins and 3 losses.

BRICKIES END SEASON BEAT WALLACE 42-35

The Hobart Brickies ended their 37-38 season last Friday night by defeating Lew Wallace, in the fastest and most exciting game ever played in Hobart. The game drew a capacity crowd in the Roosevelt Gym. From the minute the varsity set foot on the floor, the spectators were kept on the edges of their seats.

The game was fast and wild, but the sportsmanship was clean. Kornevich sank the first bucket from the white stripe, and Greenspan rallied with an under-the-basket shot. After that it was up and down the floor at a pace that would make a horse tired.

Neal Smith, our dark-haired hero, led the scoring with 21 out of Hobart's 42 tallies, while Kornevich sank the majority for the losers.

In the first half the scoring was fairly even. At the end of the first half the Brickies led by a score of 21-20. In the second half the Brickies again scored 21 more points. The baskets seemed to fall like the gentle rains from heaven.

The box score was as follows:

Hobart 42.		FG	FT	PT
Smith, F.	10	1	0	4
Greenspan, F.	3	5	0	4
Willmoth, F.	0	0	2	2
Roper, C.	1	1	2	0

Wallace 35.		FG	FT	PT
Stanislaw, F.	1	1	0	4
Hixor, F.	0	1	0	1
Canol, F.	1	3	0	0

SPORTS GOSSIP

There is a rumor around that Bud, George, and Bob have been trucking after every basketball game. What about it, boys?

Have you noticed the broad smiles on Coach and the basketball players? It couldn't be over the "Victory Ball."

Bob Fowler seems to be the team's lucky charm. Bob didn't dress Friday, and we lost by 4 points; but he did dress over to East Gary, and did we win! For complete particulars see Mr. "Billy" Belshaw.

That "Victory Ball" is here again. What do you say—let's keep it.

The boys' battle cry from now on will be, "On to the Tourney."

The second team boys put up a swell scrap with Edison's second squad. Nice work boys.

IN STATE MEET

For the first time in the history of Hobart High School, the purple and gold was represented in the State Wrestling Meet, held at Bloomington, March 24 and 25.

Although the boys did not carry home State honors, they could not be expected to do so; for this was the first time that the boys had participated in a State Meet.

Hobart, who ranked tenth out of twelve schools, received one point, when Bob Wells pinned his man in his second fight.

Boys that qualified for the State Meet were Fred Sonntag, Frank Wonsurwicz, Edwin Perry, Bob Wells, Carl Westerholm, and Russell Sonntag. Due to uncontrollable occurrences Russell Sonntag and Frank Wonsurwicz were forced to stay at home.

Edwin Perry and Carl Westerholm lost while Fred Sonntag and Robert Wells won one out of three.

COMEDY SELECTED FOR SENIOR CLASS PLAY

"I'LL LEAVE IT TO YOU" BY NOEL COWARD TO BE ENACTED BY TEN SENIORS

Practice on the senior play, "I'll Leave It To You," a light comedy in three acts by Noel Coward, has begun. The cast consisting of ten seniors, six girls and four boys, has not as yet been selected; but competition has brought out some excellent talent among the remaining students trying out for parts.

The action of the play takes place in Mulberry Manor just a few miles from London. Mrs. Dermott and her five children are suddenly faced with the problem of being penniless. Mrs. Dermott, inexperienced with worldly affairs and having brought her children up free from outside worries immediately calls on a wealthy uncle in South America. Uncle Daniel promises to give the family aid, but just wait until you see the circumstances under which the aid is to be given.

AWARDS

Come, come, let's put our best feet forward, for the time for the selection of the students to receive the Student Council merit awards is drawing near. The purpose of the presentation of these diplomas of honor each year is the fostering of better citizenship in Ho-Hi. As in the past, the awarding of the certificates will be the nucleus for the Council's convocation on the last day of school for the 1937-1938 season of dashing and activity. The style of the awards will be the diploma type as introduced last year.

The awards for the leading students of Junior High will be:

Attendance, Scholarship, Citizenship, Diction, Courtesy, Outstanding Jr. High Girl and Boy, Music, Best in Dramatics, and Personality. Those for Senior High are as follows: Attendance, Citizenship, Courtesy, Diction, Scholarship—Girl or Boy, Best Athlete—Girl or Boy, Outstanding Organization, Personality, Penmanship, Music, and Senior High Dramatics.

INDIANA STATE TEACHERS' COLLEGE HISTORIC SKETCH

The Indiana State Teachers' College (known as the Indiana State Normal School until 1929), was created by an Act of the General Assembly of Indiana, approved December 20, 1865. The act clearly defined the object of the school as the training of the teachers for the public schools of the state.

The entrance requirements for admission to the State Teachers' College are:

1. Good Health. The entering student is given a physical examination by the college physician to determine whether he is in physical condition profitably to undertake school work.
2. Satisfactory evidence of undoubted moral character.
3. Graduation from a commissioned high school or equivalent scholarship.

Free tuition is given to all resident students of Indiana, but all non-resident students of Indiana pay twelve dollars (\$12.00) per quarter for tuition. A contingent fee of twenty-five dollars (\$25.00) per quarter is required to be paid by resident students of Indiana.

Living expenses cannot accurately be determined as they vary with the individual tastes and requirements of the students.

The college is situated in the heart of the city of Terre Haute and the cost of rooms and meals is substantially that prevailing in other cities of the state. Rooms may be secured near the college with good facilities at the average cost of \$1.50 to \$3.00 per week. Approved lists of suitable rooms are kept by both the Dean of the Women and Dean of the Men. All non-resident freshmen and sophomore women students (white) must reside in Resident Hall. The Phyllis Wheatly Hall is a small modern building for colored women. All colored women students who do not live in Terre Haute are expected to live in the Phyllis Wheatly Hall as long as accommodations are available there.

There are several activities in the Indiana State Teachers' College. Some of these are orchestra, band, college chorus, choir, publication of "The Indiana Statesman," the weekly college newspaper, Student Council, and Alumni Association. There also are sororities and fraternities.

GERALDINE WESTABY DISCUSSES YOUTH

FAMOUS TRAVELER - LECTURER TO SPEAK TO HO-HI STUDENTS ON MARCH 30

Youth, as youth itself, will form the basis of this convocation which promises to be very interesting as well as fascinating. Miss Geraldine Westaby will present to the students of Hobart a discussion of the problems facing European youth today.

As a student of language and history at three American and three European universities and as a world traveler who spends a part of each year in Europe, Miss Westaby is peculiarly fitted to speak to American students about the current problems of youth in countries overseas, and reflect these problems as related to those of our own.

Of vivid personality and keen mind, Geraldine Westaby gives a broad outlook on the extensive youth movements of Germany and Italy. Her presentation is not partisan; she neither condemns nor condones the policies of Europe, but merely presents a true picture of life as she finds it, and its merits are left entirely to the private opinions of the students.

CONCERT PRESENTED HERE BY STATE UNIVERSITY GROUP

When the Indiana University Band gave its spring concert at the Roosevelt gym last Wednesday evening, March 23, a large audience enjoyed a very interesting program.

Marsten Bass, of Shelbyville, Indiana, acted as master of ceremonies. He presented the compositions with an explanation, thus adding personality and interest to the program.

This annual Spring tour concert was sponsored by the Hobart Band organization, and they served as hosts for the Indiana band during their stay in Hobart.

LIBERAL EDUCATION

Superintendent J. M. Sellers.

It is important in educational and social progress that we occasionally check our course, reorient ourselves, redefine our aims and our purposes in terms of other social institutions and general social objectives. A liberal education is a method of thought free from dogmas and devoted to truth. To pursue truth the schools must of necessity be free from authoritarianism or sporadic types of interference, either by church, state or interested groups of individuals. We have come, in America, to mention free schools, free assembly, free speech, and a free press, in much the same way. These mores of freedom are concomitant and it is doubtful if the one would survive without the other. Whenever any of these liberties are subjected to the deadening effect of dogmas either religious, political or economic, to that extent pure democracy is hampered, and education, the press, political and economic growth become agencies for indoctrination. These dogmas must be subjected to collective reasoning and criticism, otherwise we deny the right of the individual to develop into the most capable personality.

Liberty in education, the press and political and economic activity is the product of centuries of struggle. We are reminded of the pearl merchant who was willing to surrender his whole stock for the one pearl of great price. The eighteenth century men and women were willing to surrender everything for the prize of liberty. We see, in certain European countries of today, a

people willing to bargain liberty for a vestige of economic security. There are continual and concerted attacks on liberty within our own country. The unjust criticism of Muzzey's American History, the dismissal of Jerome Davis by Yale University, the enactment of teacher's oath laws, are instances of attacks on American schools that have been repeated many times. Such assaults on the public schools are a part of a pattern of action that reaches throughout the entire social order. To attempt to deal with the attacks on free public schools as an isolated event rather than as an event connected with the struggle between nations for materials and markets, the growing intensity of the struggle between capital and labor, the growing tendency to rely on power and to exalt power as an end in itself, is to misconstrue the tendencies of the modern times and to close our eyes to some of the most evident social phenomena. We are today continually reminded of the democratic principle that, "eternal vigilance is the price of liberty."

The money and power value of an education that has been emphasized by some educators in the past, might be partially responsible for the restlessness of certain pressure groups. If we grant the importance of economic relations, that is in itself not a denial of the importance of those qualities that are uniquely human. The cultivation of an appreciation for, and participation in the quest for knowledge and truth, the creation of beauty, and the devotion to the good, are qualities which give life its worth. It is the appeal to these human values that causes economic and social problems to impinge so pertinently upon the social consciousness. Liberal education must sensitize the mind to those things discerned by poets and artists. It means the development of that type mind that transmutes the commonplace events. There is the further condition that an urgent desire be created for an ever fuller participation in goodness or an ever closer approximation of eternal truth. Devotion to truth means a continual search for fact, a valuation and reevaluation of fact with conclusions; followed by continual repetitions of the entire process, and throughout the procedure a rigid objectivity must be observed.

It is the hope of the public schools that the scientific attitudes of the scholar will become the ever present weapon of our present student body in their attack on the future social and economic problems of our country.

IN SYMPATHY

The students of Hobart High School recognize the loss of one of the foremost educational leaders in the death of Dr. William A. Wirt, superintendent of the Gary School System.

STUDENT VOICE

It is the policy of this column to print constructive criticism from the students who read Ho-Hi Life. All contributions must be signed, although names will be withheld if so desired.

In Appreciation

We cheer-leaders wish to thank the faculty, Mr. Francis, the band, and the student body for their co-operation in helping us to lead the yells.

Marie Sweet, Celia Purdy, and Betty Passow.

To the Iconoclast:

Thank you for responding to our column. Our policy does not permit the publishing of opinions that might encourage or lead to unfair criticism of our faculty. Yours is a problem between you and the party mentioned.

Protest Student Actions

In the last issue of Ho-Hi Life it was inferred in a column that two persons weren't going together because of their actions toward each other around school.

First of all when a couple start going together it causes such comment by the "back fence gossips" around this school that it nearly causes a panic among them to keep their "weather eye" open for anything they might see to tell about. Secondly, when two students go together there is such a rush to tell what the other is doing out of line, that it looks like the whole school has appointed itself volunteer guardians of their welfare.

I, for one, do not blame any of those going together for not letting their feelings betray themselves around school so filled with "old maid sewing circle." So far in my high school experience I have not found a place where gossip seems to precede school work as it does here. Those "blows" are one of the drawbacks this school has, and it surely is not complimentary to it. If more students would worry more about their own actions than the actions of their neighbor the whole school would benefit.

I am not criticizing the writer of that column, because I know everyone hasn't the same ideas as he; but I should like to know what you would call right actions. Do you call it right to be seen sitting together in convos, assemblies or such places? Do you call it ethical to get together in some remote corner after every class as if you were afraid one or the other were going to run away? Do you call it acting right when you pass notes over the heads of other students when going from one room to another? Do you call it sensible when you hang all over each other in the hall? If this is what the majority mean by "acting right" I think it is high time someone does something to instill in the minds of those "boneless weaklings" a little proper etiquette, and I believe a class should be started along that line.

THE FLATTERER

CLASSROOM DETECTIVE

WAR IN AMERICA

The Flatterer is the sort of person who will say or do anything to gain favor.

He thinks your clothes are "cute," "smart," "becoming." He "cannot see why you did not become class president" because "all the students remarked on the aptness of the nomination."

He praises your intelligence, your person, and your dancing. He is continually plucking at you, removing a piece of paper, a raveling, a stray hair. He is mostly interested in your doings and is all ears when you speak. He asks to see your papers and reports. He laughs out loud in class at some second rate joke.

The flatterer is fully as dangerous to you as a parasite is to an animal. Beware of him.

ON THE SHELF

Have you ever imagined how exciting life would be? Possibly not, but you can find out by reading the "Black Tulip" by the life of a tulip grower by Alexander Dumas.

The scene of the story is the Hague, Holland, during the rule of William of Orange.

Our story concerns an innocent tulip grower, Cornelius Van Baerle, who was absorbed all his life in trying to secure the prize given for raising a perfect black tulip in competition with his rival, Bostel. As he was on the verge of securing it, he was sent to jail for life or death, to be executed.

Why was he sent to jail? Was he guilty of the same fate as his godfather, that of death? Was his life ever raised?

Romance is also another feature of this gripping story.

For real excitement, interest and variety, this book is at its best. Don't fail to read it!

PET PEEVES

Miss Dorsey—Her 8th hr. chorus pupils who do not know the staff key are singing from.

Ethel Libkin—Low marks on her card. Like A's, B's, and C's.

"Babe" Carbine—The lime light. Junior class—Fellow students to buy a ticket to this or that.

Mr. Bagshaw—Students who don't behave.

Steve Davis—Mountain Music. Typing students—The same old songs—errors.

"PETER RABBIT"

The operetta, "Peter Rabbit" directed by Miss Edith Dorsey will be given by the students of the Roosevelt building, Thursday, March 1st.

The operetta, arranged in three acts with a cast of 60 characters, takes place in the home of Peter Rabbit, and in Mr. McGrew's garden. The story in intriguing, told in song and rhythm.

A small admission will be charged for matinee and evening performances.

5. Mr. Watson is home with spring fever. I had to do all the scouting for time myself and just look at the things I found.

The chemistry students are becoming quite efficient in the art of cooking. After making their own baking soda they turned up with the most delicious cup cakes and decorated them in class.

The government class is holding a mock session of Congress, with Charles Miller, speaker of the House and Margaret Adams, clerk, the House is trying to pass an important bill on the Senate, headed by Charles Donnelly, presiding officer, and Greta Yunker, clerk.

Miss Mildred McKenna's 3rd and 6th hour community civics classes are working on different committees: crime, fire prevention, safety, health, public playground, sports, education, churches, slums, and immigration. Every Friday for five consecutive Friday's class time is spent on this project. They will be ready for display April 5. Beginning then, each committee will present a program in class consisting of lectures on the chosen topic by the members of the committee and also from guest lectures. Field trips will be made to the city water plant, police department, and the hatchery.

The French students are enjoying the novel "L'Abbe Constantine," and are looking forward to reading a four act play "Le Voyage de Monsieur Perrichon." Foreign correspondents are enjoyed by various members of the class. Antoniette Kael on class corresponds with a girl in France.

In the French class II, Earle Mize and Paul Jordan are corresponding with boys in Paris, France. Charles Jones' correspondent goes to school where a bottle of the World War was fought. Eldon Maiese is waiting in Paris from his correspondent in Nantes, France.

Well, I'll be suing ya! Adios!

BELIEVE IT OR NOT

That Mr. Williams' pet peeve is plenty absentee excuses.

That 20 of the 80 graduates of the class of 1944 are married. Don't lose those amors.

That Miss Horne's pet peeve is the continual teasing of Harold Stevens.

That during the Hammond sectional, when Hawart was playing Clark and was kissing Betty Ittel stated that she would have to get on little red shorts and help Howard rain pants.

That Mr. George Belsaw is called "Billie."

When Byron Findling was asked, in these commencement booklets the seniors have, what he wanted to do when he graduated, he stated, "A Bum." Only is a joke folks. Don't take him wrong.

That Cecil Price can't tell time with one watch. He has to wear two of them on his arm. Leave it to Cecil. Is it a new fad?

As I sit in the study hall, I am thinking of the war in Spain and in China. It must be dreadful for those mothers whose husbands and sons are dying like flies on the battlefield, to see in front of their own eyes their homes burning, their children hurt or dead in constant air raids. Poor, helpless souls! I can imagine many people committing suicide rather than living through the days of torture. On every one's lips a prayer is whispered, "When will it end?" Who knows? Nobody. I shall now turn my thoughts to America. From a school girl, here are my vision of war in America. That terrible word . . . war. We are fortunate enough that we do not see the conditions of Spain and China. But the pictures that appear in the newspapers—oh, well—

What would we do, we in America if there were war here? Our beautiful parks, places of fame, our tall buildings, bridges, and dams that have required years of work wouldn't look the same as they were before the war. People wouldn't recognize California from Indiana if they had seen it before and after the war. Nights of terror when we wouldn't have the slightest thought of an air raid or an attack—I dare not think of anything else. Let us hope that there will never be war in America or any place else in the world (which there unfortunately is). Just peace . . . peace.

Mary Bosnak, English 9A

"A DAMSEL IN DISTRESS"
CLUB BENEFIT SHOW

The Dramatic Personae Club will sponsor "A Damsel in Distress" as their benefit show at the Strand Theater, April 7. The admission is twenty cents.

George Burns and Gracie Allen supply the comedy interest of the film, with Joan Fontaine as the damsel in distress, and Fred Astaire attempting to rescue her.

Tickets may be purchased from any member of the Dramatic Personae Club.

OFFENDERS OF RULES

Do the students of Hobart High know that there are several students who have been brought before the Student Council Jury two or three times already this year?

Surely, the majority of students are not offenders in any way so why is it always the same few? Do not these people know the rules and regulations of the school? The rules which we do have are for the good of all students, not merely for the fun of making them.

As we all know it is the duty of the jury to punish offenders, but after the first one or two times even this does not have much effect.

No one can put a stop to this problem but the offenders themselves—why not give it a try?

FANCY THAT

You've heard about people who keep "harping" on one subject? William Shakespeare started that expression in Hamlet.

The same play saw the origin of the expression "method in his madness."

Also give credit to Hamlet for starting that very eloquent expression "it smells to heaven."

Boys, if you're tired of hearing "But what will Mrs. Grundy say?" blame it all on Thomas Morton. He created Mrs. Grundy (who represents etiquette) in the 18th century.

Do you remember, when you were in the grades, how you learned how many days were in each month? We had a little rhyme that went:

"Thirty days hath September,
April, June, and November,
February eight-and-twenty all
alone,

And all the rest have thirty-one;
Unless that leap year doth com-
bine,

And give to February twenty-nine.
You may have thought that was an old rhyme because your parents said it too. Believe it or not, that started in 1606.

In the fourteenth century, people were given the very excellent advice to "choose the lesser of two evils."

"Robbing Peter to pay Paul" is not a new idea either. That one began in the fifteenth century.

AIN'T IT THE TRUTH?

If the brave "Four Hundred" made a charge

Like our students at noon.
They could have beaten their foe
severely,

And could have chased them to
the moon.

Before the 11:45 stops ringing,
(As it invariably does each day),
Some are in the basement singing,
While they put their books away!

If one should miss a step and
stumble

(As he's bound to do some day.)
Down those wooden steps he'll
tumble.

Pounding hardwood all the way!

Teacher—What is "whom"?
Thelma—Oh, that's where you
take shoes off and relax—"Whom
Sweet Whom."

SNOOPIN' AROUND

We the students of the journalism class, in order to keep our readers posted on the affairs of this school, do hereby submit to you this column of the latest developments in the snooping world. We sincerely hope that it will meet with your approval.

My goodness, George, but it took us a long time to find out who sent you the valentine. For everyone's information, her initials are F. S.

Who is the dark haired girl who was called down because she smiled at one of the assembly teachers?

Is Bill Scharbach bashful? He seems to be afraid to make his own dates.

Why is Bud Pio so down-hearted lately? Is it because of Shirley's illness?

We are announcing that Richard Worthington has adopted a new name which is "Butch."

Latest reports are that Miss Dorsey's chorus classes must stop singing popular songs until their conduct in class shows definite signs of permanent improvement.

Tom Howard seems to have a way with the girls. He was caught winking at Florence Stewart in algebra class and she seemed to like it. First it was Betsey, then Betty Jane, and now Florence. What is this younger generation coming to?

What doesn't Edith Wilson like to have her best beau's name to appear in our column?

MERRIE MOVIES

"Sally, Irone, and Mary"—Bertie Rhoades, Margie Louks, and Rae Mitchell.

"The Perfect Specimen"—Jackie Gilger.

"Rosalie"—Rosalind Strattan.

"Life Begins in College"—Class of '38.

"One in a Million"—George Bari-beau.

"Firefly"—Mary Margaret Ray.

"Pigskin Parade"—The future football team.

"Snow White"—Irene Call.

"She's Got Everything"—Shirley Roper.

"Romance in the Dark"—Ruth MacPherson.

"Every Day's a Holiday"—Dot Strattan.

"Stella Dallas"—Thelma Calvert.

Thelma Calvert doesn't like to go steady?

ORCHIDS AND NUTS

Orchids to our use-to-be good times in the assemblies.

Nuts to the guys who built that long legged seat that makes all seats visible.

Orchids to the fast and flying fingers in the typing room.

Nuts to the Remingtons that stick and slow up progress.

Orchids to the new songs we sing in the chorus classes.

Nuts to those who talk and hold up our swing session.

Orchids to the fine support you gave the basketball players all through the year.

Nuts to the tough draw we got in the tourney.

Orchids to our up and coming track team.

Orchids to the Brickies for the good basketball season during '37 and '38.

Nuts to those who never knew that we ever had a basketball team.

Orchids to the one-man band in the 8th hour chorus class.

Nuts to those who don't appreciate Kinney's talent.

DID YOU KNOW THAT—

Wayne Morgan is attempting to raise a moustache?

There are 1776 squares in the ceiling of the assembly? So Elbert Ross has reported.

Bud Tromble's nickname is "Tumble?"

No one can discover what boy's watch Helen Lazar is wearing?

Helen Henderson, a new senior, came from Lowell?

There are no boys in the Business English class?

Betsy Ripley went on a "save your breath strike" in English class?

Lois Baker has a wonderful voice? Iris Zelenka doesn't like to have her picture taken?

Spring is just around the corner? Oh, what corner?

Many senior girls have autograph books for you to sign? Watch your step, senior boys, you're liable to sign your life away.

Lenore Tegge can get mad over nothing?

Vernon Schmelter has his pin back again? Why, Vernon, we didn't know it was gone.

"I'LL LEAVE IT TO YOU"

junior hi-lites

We all are detectives at heart and here's your chance to prove your ability.

Class—Eight.
Sex—female.
Hair—blonde.
Chief dislike—red hair.
Chief like—movies.
Hobby—collecting postcards.
Favorite sport—basketball.
Favorite class—mathematics.
Nickname—"Shorty".

Think you know who it is? Be sure to read next issue to find if you are correct.

We should like to know what it is that these foreign correspondents have. Both the boys and girls are really going for it, and we all admit we are getting a wee bit worried. Say, Phyllis, here's a hint—we've been told that Jimmy has a girl in Hawaii for his correspondent. Of course, he says he won't even write, but it might get tempting.

Robert Hamilton surprised us all to death in Social Studies the other day. The class had been turned into a meeting of Congress to debate different measures which were before the House. We had forgotten Robert was the Representative from Georgia until he suddenly took possession of the floor and made his entire argument in southern dialect.

Evidently Miss Edna Friedrich is afraid our junior high girls may wear colors that clash. Anyhow, her class is studying what colors harmonize and those that just do not mix. It's too bad the Boy Scouts can't get an edge on the instruction. Did you know that they have taken up making beaded bags along with their bracelets? At least that is the report we received from Harold Woods.

Speaking of learning things in classes, we wonder where Ruth Siewin was taught that the drinking water downstairs was so much better than upstairs? If you are curious ask "Professor" Scharbach.

Girls, girls, before we forget, let us give you the latest on Thomas Dooley. He is giving money away! Yes sir! Just ask him what he "willingly"—or carelessly—donated to the peanut fund in his third hour class.

If anyone knows a good salutation to the problem of getting the right book from the check room, please, tell Geraldine Spears. She tried three times one morning—Sounds serious, doesn't it?

Most women want a husband they can look up to—but they prefer neighbors they can look down on.

The people who can lie with a straight face are apt to be crooked.

GLEE CLUB TO GIVE

SNOW WHITE PARTY

Snow White and her friends, the Seven Dwarfs, have finally invaded Hobart High.

This fairy story written by Grimm and cleverly adapted by Walt Disney, will be the theme of the Ho-Hi Glee Club party, to be held Saturday, April 2, in the Roosevelt Gym.

The members and their guests will be entertained at the beginning of the evening by a short program which will carry out the Snow White theme. The remainder of the evening will be spent in dancing and games. Refreshments will be served.

HI-Y CLUB

The regular bi-weekly meeting of the Hi-Y Club, scheduled for Tuesday, March 15, was postponed.

Mr. Yunker, the club sponsor, was called out of town because of the death of his father.

BITS OF WISDOM

Marriage is usually the outcome when one courts trouble.

Gravity is a mystery of the body invented to conceal the defects of the mind.

If a man died quickly in the old days his stomach was examined—now it is his bankbook.

Before marriage a man yearns for a woman; after marriage the "y" is silent.

The largest bone in the human body is the wishbone.

"THREE'S A CROWD"—FIRST CLUB PLAY

The first group of the Dramatic Personae presented "Three's a Crowd" at a meeting last week before the members of the club.

This comedy was enacted with Betty Passow as Eddie Johnson, Phoebe Schroeder as Nadeline, Margaret Adams as Ellen, Gretna Yunker as Elmer, and Margaret Nehring as Mr. Johnson.

The first play of the year, presented entirely by members of the club, "Three's a Crowd," centered around Eddie, who started out to the dance with Nadeline and her sister Ellen, and ended with Ellen and her sister Nadeline. Elmer was the cocksure young fellow who turned up with Mr. Johnson's car and showed Nadeline up as the gold-digger she was. Of course, he was punished in the end.

Mary Janssen was student director of this play, and Viola Govert, Betty Jane Shafer, and Janet Stangebye procured the costumes and managed the stage. Miss Leta Weaver was sponsor.

GIRLS' CLUB GIVE GIFT TO THE SCHOOL

Every year it is a custom of the Girls' Club to give a gift to the school. This year the Club is giving an Airline radio which is to be kept in the Superintendent's office.

The radio is for all classes and the assembly to use when there is a program of interest to the students.

The Girls' Club also purchased a full length mirror for the girls' washroom.

IT'S THE LAW

He tossed me down the walk.

A LESSON

I sneezed a sneeze into the air
It fell to the ground, I know not
where,
But hard and cold were the looks
of those
In whose vicinity I sneeze.

WHAT A MAN!

Some fellows can get away with
anything. There's one in our neigh-
borhood who does.

The duties of so-called good citi-
zens are just so much bunk so far
as he's concerned. He doesn't vote
at either the primary or the gen-
eral election. He never thinks of
paying a bill.

We have seen him take a \$2 taxi
ride without giving the driver so
much as a pleasant look. The driver
only stared at him and muttered
something silly.

He won't work a lick; he won't
go to church; he can't play cards, or
dance, or fool around with musical
instruments or the radio. So far as
known, he has no intellectual or
cultural interests at all.

He neglects his appearance ter-
ribly. He's so indolent he'd let the
beard burn down before he'd turn
on an alarm. The telephone can
ring itself to pieces and he wouldn't
bother to answer it.

But we'll say this for him, in spite
of all his faults, he comes of a darn
good family.

He's our new leader.

BRICKIES ANNEX LITTLE FOUR CROWN

The Brickies' colors of purple and gold were run to the top of the Little Four Conference flagpole, when they were declared undisputed champions of the Little Four Conference. At the meeting of the coaches of the Little Four teams, and the conference commissioner, Andy Hatrak.

The Hobart boys received only one setback by a conference rival, Tolleston's Blue Raiders. During the conference season Hobart established five wins and one defeat.

The Brickies defeated Tolleston once and Crown Point and Griffith twice.

For winning the conference, the Brickies were awarded a trophy by the People's Hardware of Gary.

This is the second championship annexed by the Brickies, for they also captured the football championship last fall.

At this meeting the ten outstanding players of the conference were chosen along with nine honorable mentions.

Those that were picked as outstanding are as follows:

Forwards: Downing of Griffith; Neal of Hobart; Buche of Crown Point, and Bartos of Tolleston.

Centers: Roper from Hobart and Schmidt of Tolleston.

Guards: Greenspan of Hobart; Swets and Cook from Griffith, and Valentine of Tolleston.

The nine players making honorable mention are as follows: Wagner, Golden and Welsh of Crown Point; Scharbach and Parker of Hobart; Wallace and Aubuchon of Tolleston, and Bothwell and Smith of Griffith.

SPORTS GOSSIP

The basketball players were presented with an enormous meal just before the game with Clark. Were they ever full! How about it, boys?

A certain basketball captain was chosen on the all tourney team. Is it true, Smith?

What, no souvenirs from the hotel? You boys must have been awfully tired.

The varsity certainly played two very good, hard, and clean games in the tourney. That's the old fight, boys.

Basketball has just closed its eyes and already "Billy" Belshaw has begun to worry about his football team of this coming fall. Don't let it bother you, "Bill." Dear old Hobart High will come out on top.

Track is off with a bang, so don't forget to give the track team your whole-hearted support. Let's make it a promise.

BRICKIES HOPE FOR PROSPECTIVE SEASON

The sound of the pounding feet on cinders is heard as spring issues in the track season. Forty-five boys answered the first call, among whom were last year's Captain Izzy Greenspan, Philip Roper, Neal Smith, Donald Ramsay, Lloyd Schroeder, Robert Wells, and William Shryock, who were lettermen that returned from last year.

The first meet of the season will be a meet between classes to be held on the first of April.

Michigan City will be Hobart's first track rival of the season with the teams meeting on April 21 at Michigan City.

The important meets of the season are the Chesterton Relays, Little Four Conference meet, and the Sectional.

The main desire of Coach Todd for his team this season is to take the Little Four Conference. This will be possible by having more men finishing in second, third, and fourth places. For if Hobart does cop second, third, and fourth places their points will make a larger total than the team that just annexes a first.

Coach Todd and his squad wish to thank the Boosters' Club for their gift of fifty dollars. This money is being used to give Hobart a better equipped team than those that have represented Hobart in the past.

Already ten pairs of track shoes have been purchased and ten new sweat outfits have been selected.

"OUR" HOBART BAND

The National High School Band Contest—What does that mean to the Hobart Band, students of the Hobart Public Schools, and citizens of Hobart and vicinity? There is a varied opinion and realization n all cases.

Most of the students of the Ho-Hi realize Hobart has a band, that it has won many contests and is nationally recognized.

There are some groups who have helped the band from the first, and to them the band organization is grateful.

Directors of other high school bands point out the great Hobart High School band as an example to their band members. Professional bandsmen express it as a decided privilege to conduct our band. Noted men of the musical world come from all over the country to hear our band perform a concert. In musical associations our band members are looked up to, and their ability is appreciated by professionals and high school members alike. Many of the graduates of Hobart High School have gone ahead and are becoming leaders in the musical profession.

In preparation for the 1938 National High School Band Contest the organization is meeting daily to find an interpretation of the contest numbers which can be considered close to perfection. Many members have solos and ensembles to arrange for the annual contest. Most of the participants spend long hours of practicing in the morning before school, during the school hours, after school, and often after supper. Year after year the Hobart Band has gone to the contest and topped first prize honors. The student body doesn't have to enjoy music necessarily; it is, more or less, keeping the versatility in our activities that is important.

The best way for the student body to support the school reputation is to support the band; let the band members know that we are behind them when they go to the national contest this year. The national contest consists of the best bands in the United States. Many think Hobart is going to let the bottom fall out this year and a great many band directors realize Hobart has a fine band but consider this their year, not Hobart's. If the band knows that the people back home are really for them and pray they will win, the young musicians will play from the bottom of their hearts.

Give the band a real send off this year and an even bigger reception. Do your part to help add another National Contest victory to the record of our Hobart High School Concert Band.

FORMER BAND MASTER APPOINTED EDITOR

Hobart students and patrons were recently pleased to hear that Mr. William D. Revelli, former director of the Hobart Band, has been appointed editor of the Band and Orchestra department of "The Etude" magazine.

The citizens of Hobart are rightly proud of this famous band trainer and leader, who has made such remarkable progress in his profession.

BAND GOSSIP

Wham, Bang, Zowie! John Campbell can make more noise than anyone in the band. John plays the bass drum and is he proud!

Carl Cope was asked by a little boy whether he always had to swallow the pipe every time he drew the slide to his mouth. Carl told the little boy to run along.

Why doesn't Mr. Francis break more batons? He probably was taught to count up to ten every time he gets angry.

Wow, Swing it girls! thought Bobbie Sohn, when he let forth a glissando on his clarinet during challenging.

Lorenz Kenney, John and Merle Anderson are new members in the concert band.

Ask Eugene Beckner what he found in his bass horn after he overhauled it.

Richard Worthington can now be seen trodding around with a high chin and a broad smile. Richard challenged Byron Findling and now sits in the solo clarinet chair.

Who is the most outstanding marble player in the band this year? Why, Kenneth Tegge, of course. He is repeating Morris Ferguson's achievement of last year.

HOBART STUDENTS WALK OUT

LOCAL TEACHERS MAKE GOOD

Mr. Edgar Williams, long a leader (and pusher) of the Government Class, has recently been elected to the House of Representatives by the Thirteenth district of Indiana. Since Mr. Williams has been placed in charge of the seating arrangements, noticeable change has been made in the heights of the seats in the House. Because of his small stature all those in the rear of the room have been placed on platforms similar to the "Warden's Seat" in the assembly.

Miss Dorsey's renown in the field of mechanics and woodwork has received a further boost since the completion of her solid pine, engraved hand-carved, automatic, self-changing, all-purpose music cabinet which she invented for the benefit of Mr. Belshaw's music classes. This amazing contraption attracts attendance, makes assignments, holds rehearsals, gives concerts, and controls discipline. Following last minute improvements she hopes to have it on sale for the astounding price of \$999.02 1/2.

Mr. Martindale, long interested in all branches of sub and super Physics, has just completed his phenomenal discovery regarding the electro-magnetic qualities of the atom and its relation to the inevitable, which has turned the scientific world. She hopes soon to arrive at a definite conclusion which will aid in understanding and coping with curing fever, as found in the afternoon science classes.

Mr. S. B. Todd, well known Hobart violinist, has been appointed conductor of the Podunk Symphony Orchestra, Oolika, Podulika, Mr. Todd's genuine "Strad" will be prominently placed by Hobart's music lovers.

Miss Mildred McKenna's election to the Supreme Court does not come as a surprise to Hobart Students and teachers for her amazing ability in coping with the milling multitudes in room 329 for her for this unique position. The advanced Civic Class will prize their speaker during the Citizens Day, the after and mountain projects of the basketball tournament on 209.

BAND GIVES CONCERT

At the annual mid-winter band concert last night, Director George Belshaw and his band presented a brilliant performance.

As one of the main features of the evening, George Murray played a stirring, rumbling solo on the harp. Following this excellent performance, Charles Greenspan played a sweet, tinkling, "Dream of Love" on the bass horn.

As an added attraction, Mr. Robert Fowler rendered a violin solo on the bazooka. Mr. Fowler has taken instruction under that superb master, of bazooka playing, Professor Robert Burns Director of the Bazooka Symphony Orchestra in Bazooka City, Arkansas.

The next number in the program was a piccolo-oboe duet, played by Philip Roper (piccolo) and Neal Smith (oboe). Their thundering rendition of the Overture to Wilhelm Tell brought the audience to its feet in appreciation.

The following number, a classical piece entitled "Swing Is Here to Stay," was played by the entire band and was directed by Dick Tracer, the student director.

A harmonica solo, played by Izzy Greenstein, brought tears to the eyes of the listeners and the concert was ended at this point because the audience was weeping so noisily as to drown out the entire band.

TRAFFIC SQUAD

For the last few weeks Mr. Elbers, together with the Traffic Squad boys, has been going old rag, and ironing for the purpose of raising money with which to pay the fees in the Cream Co.

This task was necessary because of the lack of funds with which to pay for the frockies they have received. It is believed the shortage was \$150.09.

After repeated experiments with the nutrition, Mr. R. A. Nuzum has developed a species of plant which is delicious for soups and other foods and whose framework, when well-laced makes delightful favors for bridge parties. This remarkable contribution to the horticultural field has been highly acclaimed by the Dept. of Agriculture in Waco, D. C.

DURING FIRE DRILL HELD EIGHTEENTH HOUR

A short vacation from the worries of Algebra, history, and English was enjoyed by all the Hobart students during the eighteenth hour on Saturday June eleventh, nineteenth century ump.

The weather was so beautiful that Mr. Nuzum and Mr. Sellers decided to have the fire drill last for the rest of the day.

During this time marbles, golf, tennis, and swimming were enjoyed by all.

NEW RULES INSTITUTED

The faculty is now enforcing the new rules set forth by the Board of Education. To make the students better acquainted with these rules we are printing them here.

Bring your roller skates to school for better transportation in study halls.

If you have symptoms of "spring fever," stay home because it is catching. Attending school is rapidly passing out of style.

Jump down the stairs instead of walking. You get there more quickly.

Tripe the teachers when they are walking up the aisles in the assembly. They shouldn't be there anyway.

Never ask for a pass. Just walk out; nobody will miss you.

Don't listen to the teachers. Break all windows for a new air-conditioning system.

Write on all walls instead of using paper. It is less expensive and saves the janitor's work.

Abide by all these rules or suffer severe penalty.

POEM

"I think that I shall never see
A hazard rougher than a tree
A tree o'er which my ball must fly
If on the green it is to lie.
A tree whose leafy-arms extend
To kill the mashie shot I send;
A tree that stands in silence there
While angry golfers rave and swear.
Nibbles were made for fools like me
Who cannot make a tree."

APRIL FOOLS' DAY

The first of April, known as "All Fools' Day" has long been in America, and for a still longer period in many European countries. It is a day for mocking unwary persons by sending them on bootless errands or making them the victims of some other practical joke. The custom seems to have been unknown to German antiquity. Grimm regards it as having been introduced into Germany from France in comparatively modern times. Various theories have been held as to the origin of the custom. One traces the custom to the miracle play formerly represented at Easter, which sometimes showed the sending of Christ from Annas to Caiaphas, and from Pilate to Herod; another finds the origin in some ancient pagan festival where similar tricks were played, such as the Huli festival held by the Hindus on March 31, or the Feast of Fools, celebrated by the Romans on February 17. In France, the victims were called *un poisson d'avril*, an April fish possibly from the reopening of the fisheries at that season; in Scotland, a gowk or a cuckoo.

FOOTBALLERS

Football people are the nuttiest peoples! Imagine starting football in the sweet, sweet springtime. They disregard all the beauties of nature to make kicking at a skinned pig with the pig taken from out with. They tear up the grass from Hobart's football field where the grass isn't growing. If only some grass would plant itself and proceed with the process of growing! !

Men who sit down to think of
men who sit down to think of it.

APRIL FOO

April Foo is here at last,
Will I be glad when it is past,
These "Wise-guys" with their funny
tricks
Always make me awful sick.

I tried one with my pocketbook
I hid behind a fence's crook,
I jerked the string but it did not
come
That "guy" wasn't so darn dumb.

I hung a bucket above my door
I'll never do that any more,
My "Pop" came home in a sudden
flurry
And I departed in a bit of a hurry.

I'll be glad when twelve o'clock
comes
Cause April Foo will then be done,
And next year I'll stay in bed
Before someone finds me dead.

—John Jacob Foo.

PRINTING CLASS STRIKES

On March 6, the Hobart High School Printing class went on a strike demanding longer string and shorter proof-paper, and no more printing jobs after job No. 18.

Mayor Frank Davis called out his Hobart Regulars to disperse the striking printers.

The boys were brought together after a long consultation with Superintendent J. M. Sellers. Principal R. A. Nuzum and teacher Mr. K. L. Martin.

The authorities decided to comply with the demands of the strikers, stating that they will let the printing class off every Friday.

The next day the boys came back and enthusiastically started back to work after a day-off of two weeks.

MAST HEAD

Ho-Hi Life publishes the Journalism Class of Hobart High School. The reason why these lines appear is because there was a fear That without their hidden plot This would lie a vacant spot. "Ain't it the truth?"

—Journalism Class.

CONDUCT IN ASSEMBLIES

Do not study when you are in the assembly. The teachers want you to enjoy yourself; therefore, make all the noise you can. If you have a yearning for a bite of candy, send an S. O. S. across the assembly and the candy store will see that your wants are fulfilled immediately.

As everyone knows, we must have some sort of recreation between our hours of studying. W suggest that you play marbles. It is so clever the way the marbles go rolling down the aisles. Several people usually join in the fun. The more the merrier, you know. Wars are also very interesting. Paper wads make good bullets and can be shot very easily from rubber cannons.

The library is to be used the same way as many students use the street corners, as a place to meet friends and have a nice friendly chat. Magazines and fiction books should be read in place of school books. School books are to be used only in leisure time.

If you weren't with your sweetheart long enough the night before it is correct to dream of him or her in the assembly. In case you aren't a good dreamer the "loved one" will surely appreciate a "good note."

Your books become very tired if you keep them on your desks all day. For a little variety drop them on the floor now and then. Their backs might get injured, but they enjoy going to the hospital. It is so inexpensive for them to be given treatment by the best doctors.

Last on this list of things which should be done by all good school citizens is to talk around the assembly whenever you want to. This saves the teachers from bobbing their heads up and down all day. In this way we can save them from having sore necks at the end of each day.

NOBILITY

We wish to set forth the idea that all students in Hobart High school are perfectly behaved. For instance: never in your long and checkered existence have you seen one talk while the most honored instructor is instructing, and never has one been caught throwing a paper wad. Furthermore, no Hobart student has ever been known to eat candy or masticate chicle during class. Let us carry on into eternity this noble conduct and let us go down on the pages of history.

Heaven won't seem like home to some people unless there is something to kick about.

FIRE BUG'S DREAM

One day I got a desperate yearning
To burn a building down
To see a building burning
Burning to the ground.

A fire always fascinated me
I cannot tell you why,
But I always liked to see
A fire-truck speeding by.

I called up the nearest station
And told them to "Step on the gas,
A fire is spreading all over creation."
Then I watched the fire-truck pass.

They soon found out what I had done.

My mother was almost in tears
She swore someone else was the guilty one,

"It wasn't this boy of hers."

But the fireman shook his head in determination.

He said he must take me along;
He must take me down to the station

To "right" this awful "wrong."

BRICKIES AMAZE

UNITED STATES

In the past season the Hobart Brickies have smashed all records for a winning streak. The Brickies have chalked up one hundred straight wins. Among their victims was the National Champs, the Denver Safeways.

The Brickies started their winning streak in the Hammond Sectional, in which they defeated the strictest teams in Hammond, including Hammond High, when they set down 42 to 7.

The Brickies kept up their good playing and coasted into the State Championship. The team kept on playing in exhibition games all over the United States.

To date the Brickies have been paced by their flashy captain, Robert Fowler, who also has made a record by contributing 429 points.

The Brickies' toughest foe was met in the Denver Safeways, who were National Champs.

The game opened with Denver getting the tips. They used a slow break and caught Hobart off guard, this running up a 30 to 10 count in the end of the first quarter. In the second quarter the Brickies held the Safeways to ten points while collecting fifteen points on the harp-shooting of Captain Fowler.

In the third period Captain Fowler was forced to retire to the bench to rest up. The Safeways took advantage of this break, and thus got off to a 60 to 34 lead.

In the fourth period, Fowler was forced to retire to the bench to rest up. The Safeway took advantage of this break, and thus got off to a 60 to 34 lead.

In the fourth period, Fowler was sent back into the game. He immediately picked up the Safeways' scoring chain and sliced through for twenty-two points, making the score 62 to 62 with less than ten minutes to go.

Hobart had possession of the ball under the Safeways' basket. Tromble tossed the ball to Fowler, who held the ball in one hand and heaved it the length of the floor. The ball sailed through the net as the gun sounded. Hobart is champion of the United States by a 62 to 64 point.

LOVE IN THE ORCHESTRA

"Viola, I love you. I want you tuba mine. I lay my harp at your feet."

"Aw, quit stringing me along. You don't get to first bass with me."

"Say not this: 'I'm tired of playing second fiddle.' You've got too many guys bowing you around."

"Oh, what a violin situation! What brass! Why did you piece out thing like that to say to? I ought to give you a baton on the head!"

"Yeah? Gee, I'm trebling all over!"

"You'd better tremolo-ver what you said. I'm liable to drum you yet."

SENIOR PLAY TO BE GIVEN APRIL 29-30 'I'LL LEAVE IT TO YOU', COMEDY BY NOEL COWARD, SELECTED FOR 10 SENIORS

The senior class has been fortunate in securing Noel Coward's three act comedy, "I'll Leave It to You," as their class play. It will be given at the Roosevelt gym April 29-30. Mr. Coward is a well known British playwright who is the author of "Bitter Sweet," "Hay Fever," and many other well known plays. Several years ago he appeared in the movie, "The Scoundrel."

The action of the play takes place at Mulberry Manor, Mrs. Dermott's house, a few miles out of London.

Mrs. Dermott, the fluttermother of five children, will be played by Emma Valette. At recent rehearsals Emma has shown herself well able to portray the mother who is so concerned about money matters.

Dorothy Stratton will play Evangeline, the dramatic daughter of Mrs. Dermott. Evangeline is the type who likes to pose at all times.

Sylvia Dermott, an attractive girl of twenty-one will be played by Jane Rhodes. Sylvia is a sensible girl who is a favorite of Uncle Daniel.

Uncle Daniel, Mrs. Dermott's brother, will be played by Charles Donnelly. He is the type of person who doesn't care what anybody thinks of him. Mrs. Dermott sends for him to straighten out her financial matters and that's where the fun comes in.

Marjaret Adams and Charles Miller provide the love interest. Marjaret is Faith Crombie and Charles is Bobbie Dermott.

Mrs. Crombie Faith's dominating mother, will be played by Doris Young and Bill Kinison plays the part of the butler, Griggs.

This cast was selected by Miss Helen Holman, director, and Misses Leta Weaver and Jeanne Lynch, co-directors after several weeks of final try-outs. The above named cast will take part in the play unless something unforeseen occurs.

Easter Greetings to Each and All.

BUTLER UNIVERSITY OFFERS OPPORTUNITIES

Butler University, which is in Indianapolis, is located on a beautifully wooded campus of 246 acres north of the city in a section once known as Fairview Park. Here the rolling and heavily wooded hills are edged by a scenic canal, which skirts the north of the city, beyond which is a deep valley extending to the northwest. Botany students have a never-ending source of field-trip material on the campus, with its botanical gardens, greenhouses and landscaping of trees, flowers, and shrubs.

Butler offers unusual opportunities to students in that it combines all the organized social life of a larger university with the informal teacher-pupil contact of a smaller school—all so valuable to student development.

Affiliated with Butler University are the Arthur Jordan Conservatory of Music and the John Herron Art Institute which make it possible for students to take a Bachelor or Master of Music degree and Bachelor of Fine Arts degree from recognized schools of music and art at the same time they may take their academic work at Butler. Such a combination gives to unlimited opportunity in these two specialized fields, still making it possible to meet State B and requirements for teaching.

Included in Butler University are the College of Liberal Arts, College of Education and the College of Religion which offers graduate work beyond the four year course.

Miss Virginia Carnefix and Mr. Edgar Williams are both graduates of Butler. Gilbert Kolberg formerly of Hobart High School, was graduated from the Jordan Conservatory and Butler and is now a member of the Indianapolis Symphony Orchestra.

BOOSTERS' CLUB SPONSORS BENEFIT SHOW

"Breakfast for Two," with Barbara Stanwyck and Herbert Marshall, is scheduled for April 27 and 28.

Tickets are good for the last show on Wednesday and both shows on Thursday. The price is 20c. Tickets can be purchased from any Booster Club member. Be a booster of your school by boosting the Boosters' Club.

MODERN SCIENCE TOPIC OF CONVO HARRY C. WHITE, NOTED SCIENTIST, LECTURES TO STUDENTS ON WONDERS OF TODAY

The dark and mysterious regions of modern science will be explained in simple terms for the complete understanding of all the students by Harry C. White at a very promising convocation on April 20.

As director of public relations and good will ambassador for the General Electric Company, Mr. White became acquainted with the foremost scientists of today. A personal friend of Thomas A. Edison and Charles P. Steinmetz, he has the sterling inspiration which made these men outstanding in their laboratories.

With laboratory equipment worth \$50,000, Harry White demonstrates the electric eye or photo-electric cell, the beam of light which rings a bell or turns on a fan, at his command. By the radio pen, Mr. White writes in letters of fire on a far-away screen. He exhibits the world's largest as well as the smallest electric lamps, and he will also demonstrate the black ray which permits the human eye to see what it has never before looked upon.

The students of Ho-Hi-Hi are promised to be intrigued by Mr. White's word pictures and may be even a little spellbound by the sheer marvel of man's discoveries and inventions. A new world, one of scientific accuracy and wonders will unfold from the stage of Roosevelt Gym.

LIBRARIANS PLAN GARY FIELD TRIP

Members of the Sr. High Librarian's Club and the sponsors, Misses Edna Friedrich and Leta Weaver, will take a field trip to Gary the latter part of April. The date has not yet been decided.

They will visit the new Glen Park library, the East Side Branch of the Gary Library, and the School Library of Horace Mann school.

Transportation will probably be provided by private car.

EDITORIAL

x x x

You know, this mid-semester time isn't so good for some of us. It's most embarrassing to bring your mother to school and have the teacher tell her why you aren't leading the honor roll.

Perhaps the idea of "pulling the wool" over the teacher's eyes seems a very clever thing to you, but one has to be very, very clever to do it. In fact, the odds are ten to one that while some clever student is telling his friends about the way he fooled his teacher, Mr. or Miss — is sliding his grades down several notches.

With some people this constant pretending is not just a way to get out of studying; it's just a habit. They pretend to be a great club worker, a good athlete, or a wonderful musician. In fact they pretend about everything, big or little. However, the majority of the students know their real value, so why shouldn't the teachers?

Of course, you may skin through a course with a minimum of effort by bluffing but the one who does it loses, not the teacher. A credit may be valuable for graduation, but when it is earned by two D's and an E, it will not be of much help in finding how much fence to put around the yard.

Why don't these students wake up? Both the teachers and the students see through their pretenses, but they can not see far enough ahead to realize that it is themselves they are hurting.

STUDENT VOICE

You wonder why the students do not contribute more to the voice of the student column. The answer is: Many students who would like to contribute do not, because they must sign their names. If a ruling was passed that no names be signed, I'm sure your column would run to overflowing. Try this and I am sure the results will be amazing.

(Editor's Note: It has been stated that names will be withheld if it is so desired. We operate on the theory that if a person is not willing to sign his name and stand up for his opinion, opinion cannot be very worthwhile.)

Jr. High As It Really Is

What I have to say can be said in just four words "Jr. High is gyped." Every time there is a convocation or some other school pleasure, furnished by the teachers, credit and scorn is passed out. If there is good conduct, Sr. Hi gets the credit but if there is disorderly conduct all the blame is laid on poor old Jr. Hi's shoulders. That is just a sample, look around for yourself and see Jr. Hi as it really is.

Nolsy Assemblies

I noticed that in the last few minutes of an assembly all of the pupils start talking and want to take books up to the library. The ones going to the library make the most noise. I think that by appointing one person in each assembly to take the books to the library, would be a suitable remedy for this problem. If he couldn't carry all the books the school should make a two wheel carrier like a wheelbarrow or a suitcase trunk at a railroad station. The last few minutes of an assembly are the most important to me and I would appreciate if this question could be dealt with.

The Prom and Outsiders

Hear, hear, ye Juniors! Especially those who have a girl friend or a boy friend out of school, who was not a graduate of Hobart High.

Don't you wish you could invite an outsider to go to the Prom with you? I think it will be nice to ask an outsider if the faculty, the chaperones, or Mr. Nuzum and Miss Horne would approve of the person; also have the outsider purchase a bid or pay a small amount of money; perhaps a dollar or more. Many of the members of the Junior class will not be able to attend the Junior Prom because of the old ruling, so come on Juniors, shall we make a new ruling and have certain outsiders to this great event

(Editor's note: The ruling about outsiders is not an "old ruling." It was decided upon just last year by a committee of faculty and students. The faculty's reasons for prohibiting outsiders are well founded and sufficient. You will have a discussion at one of your class meetings and I'm sure it will be explained satisfactorily.)

Ho-Hi Life for Ho-Hi news.

THE ASSEMBLY

(Fashioned After the "Characters" of Theophrastus)
(392-287 B. C.)

To a room which has seen much hard use and many people—the assembly. With desks scarred by the knives of students wrestling with geometry—and ennui—and floors stained by endless classes of ink-spillers, it stands on guard at the head of the stairway.

The great, yawning mouth of a doorway has welcomed all kinds of students—bored and gay, sad and happy, Frosh and Senior. It has seen their every mood and watched with interest the transformation of a green and curious freshman to a bored and sophisticated senior.

Innumerable pairs of eyes have stared out its window, wishing for spring—or snow—or rain. Unblinkingly has been the gaze directed at the clock.

It knows the pride with which the trophies were hung upon its walls and the gayety of school parties.

It is the heart of the school. Honor to it!

ON THE SHIELF

Have you ever imagined what kind of a life a convict leads after he is released? Does he reform or does he return to his wrong doing?

On may find the answer to this question by reading "Les Miserables," by Victor Hugo.

This fascinating story takes place in France about 1815.

The main character is an innocent tree-pruner, Jean Valjean, who served in the galleys for nineteen years for stealing a loaf of bread. He also reared a small child, Cosette. Did he have any right to her?

Jean Valjean had one deadly enemy, Javert. What had Javert done to him?

Romance also has a part in this story in the form of Marius, a young man disinherited by his grandfather. Was there any reason for his being disinherited?

All these mysteries and many more are solved in this exciting book. It makes you feel every emotion from love to horror.

Can you visualize the horror of traveling through a filthy network of sewers underneath the city of Paris?

But endless questions keep arising, so the best and only way to satisfy your curiosity is to read this marvelous book.

Don't fail to read it, for it will not disappoint you.

COUNCIL GIFT

This year the Student Council is giving the school a six-dollar first aid cabinet. This cabinet contains all the necessary articles which are needed in case of emergencies for giving first aid treatment of minor wounds. It will be placed somewhere in the high school office where it will be easily accessible.

PALM SUNDAY

It is from Palestine that we get the earliest accounts of the celebration of Palm Sunday. It was also called the "Feast of the Palms" in the life of Euthymius, Abbot in Palestine, who died at a very advanced age in A. D. 473. But we in the West, the carrying of the Palms did not appear before the ninth century.

It is a very ancient custom in all countries to carry palms to church, but in each country the ceremony is different. At Rapollo, Italy, silkworms' eggs are taken to church to be blessed. All through England and Lanarkshire, lads walked in procession carrying willows adorned with daffodil and box, on the previous Saturday.

The ceremonies at Rome commence on Palm Sunday, and there are generally ten thousand foreigners in the city. The Pope, borne on his Chair of State, with soldiers presenting arms amid a burst of music, gives his blessing to the multitude, and then proceeds to bless the palms.

EASTER EGGS

The custom of giving eggs at Easter is very old and world-wide.

Among the ancient Persians, eggs were given at this time of the year, because of the Vernal Equinox, which began the new year; and eggs are a symbol of new life.

Eggs are given on Easter Day, in most countries of Europe. In England, usually eggs made of chocolate, or fancy eggs filled with sweets or some costly trinket are given.

The Russians dye a great number of eggs with Brazil-wood and take them to the priest. The common people take red ones, and the gentle folks give gilded ones.

In some places hares are exchanged as gifts at Easter instead of eggs; thus the ancient myth of the Easter Bunny was originated.

PEASANT'S FEAST

FOR OLYMPIANS

During the first week of May the members of the Olympian Council (Latin Club) will honor with a Peasant's Feast Maia for whom this month is named.

Wearing the insignia of tradesmen the members will march to the Indian Lagoon where all will feast on vegetables and roasted eggs.

In order to atone for their sins and omissions in Latin classes during the year all will make a visit to the lower world. Those who are successful in this commendable enterprise will feast on ambrosia, but the rest must return another year.

Chairman of the committees of Lares Vesta, Pluto, Pan, and Jupiter are respectively: Aileen Fleck, Fredric Fowler, Jarvis Roper, Robert Gradle, Dick Nelson and Emma Jean Glynn.

EASTER HYMN

Lilies that bloom for the Easter Day,
Soul of a plant from the miry clay;
'Look, little child,' they seem to say,
'Your spirit shall bloom in some such way.'

They take their strength from the darksome mold;
Their dream of hope from the sunlight's gold.
Within the heart of the lily's shrine
Was hid the plan of a flower divine.

Far in the distance of olden days
Lived One who moved in the earthly
Yet staunch was He, and as pure as these,—
The stately lilies that stem the breeze.

And when, on an Easter long ago,
He rose from the things of earth below,

As a plant that in the soil had striven,
His soul bloomed free in the light of heaven.

And so may any whose liften face
Sees still the radiance of His grace;
Who carries hid in his earthly shrine
A faithful image of One Divine.

ways;

POP'S TWENTIETH VICTORY

Two very anguished looking people sat on the front porch of the little grocery store. While each up-raised hand held a menacing black fly swatter, a look of hopeful anxiety appeared on the countenance of each. Who would down the antagonist first? As the younger of the two drew his arm back farther for more masculine power, the old man saw his chance and energetically brought his sturdy arm down with an almost fiendish delight.

Silas Jackson's brown eyes opened wide with astonishment and disappointment. To think, that once more and the old man would be up with him. With growing dismay, he watched Pop chalk up another mark on the piece of cardboard.

The old fellow sighed from sheer exhaustion, as he leaned back in his battered rocking chair and waited for another animated victim.

"Son," he grinned at Si, "pears like I'm about to win my twentieth race of 'n' ye."

"Uh, huh," Jackson's shrill voice was heavily veiled with grief.

Silas' friend and adviser arose from the chair and hastily withdrew from the line of fire.

While Pop was in the store making good his excuse on an imaginary customer, Silas downed two more victims. He chuckled confidentially to himself, because he was leading by a score of 58 to 55.

"I see ye've got two more fer yerself." Pop viewed the cardboard with distrust.

"Uh, huh," Silas answered indifferently. His chest expanded at least three inches beyond normal size.

The old man sat down and set himself to the laborious task of painstakingly counting the ruins of the race.

Squash! Si's fly swatter fell hard on Pop Jordan's shoe.

"Holy snuff boxes, ye weak-minded pup!" he exclaimed. "Watch what ye be adoin'!"

"Which makes the score 59 to 55," the week-minded individual stated, as he nonchalantly flicked another fly into his heaping collection.

Bang! Bang! Bang! Pop's plump hand and fast.

"Which makes the score 59 to 58," weakly supplied Silas. Pop Jordan agreed.

Pop! The score was now 59 to 59. "Son" this reminds me of the time I fought in the war. Wherever I happened to be the action was there, too." Old Pop comfortably settled himself for the speech he usually gave, when he had the other contestant in the palm of his hand.

"I always wondered why you could run so fast, Pop. You must have had plenty of practice." Si grunted as he dropped another fly in his collection with a faint smile of victory playing about his lips.

Five seconds remained to play, another point. Might as well beat Silas looked around hopefully for the old man by as much as he could.

PRATTLE

Miss Martindale was aware of the April Fool because she wouldn't bite when bitten.

Chemistry field trips spoil Jerry. (He wants more.)

Don't you think Irene Govert is looking pretty friendly with cupid lately? How about it Irene, is he from out of town?

Everyone come and see the Civic parade in room 209. There is plenty to see and everything is free.

Miss Carnefix's 11B English class makes use of a dunce seat. Clarence Clayton holds the honor of being its first dunce.

What's the trouble, William Willmoth? Are you getting laryngitis, too, now?

Can you guess who the dark haired senior gentleman is so infatuated with? Their initials are C. D. and P. D.

Leroy Brown would make an Eric Linden double, so some people think.

It's a funny thing but Nickey Motgan just can't hold her tongue. (Ain't it, though)

What happened to the 'chevy' that always came after Ann Bosnak every night after school?

Clive and Barney always seem to keep two high school girls from getting lonely at noon in room 208.

Nina Griffiths pines for Carl Flood who in turn pines for Dolores Prosser. Ah, me!

Ask Marie Sweet and Eleanor Nelson who they were riding with in a maroon Ford.

Helen Lute and Charles Denman used to be very close friends, but what happened? Maybe Mary Tatovich can answer that.

Mary Bosnak and Kenny Rieck seem to find plenty to talk about in E. E. History class.

Alice Vincent looks kind of dreamy lately. Was it because Virgil walked to the party with Louise Peterson?

Robert Baile says he's now a confirmed woman hater. What happened Bob, did Betty Loux have anything to do with your decision?

IN SYMPATHY

The Jr.-Sr. High School wishes to express their deepest sympathy to Mrs. Mann and son, Robert Pearson, for the death of their husband and father, Mr. Fred Mann, who passed away March 28, 1938.

SNOOPIN' AROUND

Here we are folks! We hope you like our column. If anyone has anything he would like to see printed in the Snoopers, please put in the box outside of the office.

We see that William Willmoth and Idabel Dembosky are quite friendly. We just can't seem to keep up with either of them.

We heard from a reliable source that 'Bill' and Myrtle have disputes every time they have dates. A remedy—discontinue the dates.

Marilyn Fleck seems to think she can catch scarlet fever from a table. When she found that Cecil Call had it she moved her chair the other way.

Florence Stewart seems to be going to extremes to win back the good graces of the "Three Cadets." For further information see "Bud" Pio.

We don't know how serious the case is between John Darosky and Eleanor Bartos. However, he talked to her so much during the eighth hour that he got his seat changed.

PET PEEVES

Gum Chewers—No place to park their gum while eating. (Oh yes, just look under any desk).

Miss Holman—Members of the Senior play who step out of character while acting in the play.

Warren Jones—The girls (since when did he turn woman-hater?)

Roger Marvel—Those ancient Remington typewriters.

Candy Salesmen—Students who never buy candy when they are selling.

Any of Us—People who always want to borrow your fountain pen or an extra pencil.

J. H. L. CLUB ENTERTAIN

SENIOR HIGH LIBRARIANS

The J. H. L. Club are planning a pot-luck and theater party for April 28. They will entertain the Senior High Librarians at this function.

Chairmen of the various committees are: Phyllis Hardman, time and place; Nettie Howatt, refreshments; and Cathern Woods, entertainment.

Plans for a May function are getting under way. At present they are planning an outdoor party after the final clean-up.

IT CAN'T HAPPEN HERE

(A Journalist's Hang-over from April Fool)

The cast of the senior class play, "I'll Leave It to You," was awarded a million dollar contract by the Petro-Poldwyn-Payer Studio of Hollywood, Palifornia, to appear in the movie, "It's Left to Us," by the wonder boy writer, Marcus Sellera. They left Hobart's new Municipal Airport on April 14 at 7:25 1-9 sec. on the Phina Plipper. Miss Holman, Miss Weaver, Mr. Williams, and Miss Lynch were signed to direct the super-magnificent movie. Miss Horne will accompany the group as chaperon.

Due to the billion dollar sale of tickets, the Junior Class Stage Production Company has laid aside other plans and is spending its time and effort to produce "Seven White and the Snow Dwarfs" to the capacity crowd expected. The play will be directed by the stupendous gigantic showman, Martini Scharbackski.

Seven White will be portrayed by that sweet and alluring actress, Mil-drana Morgana. Izzika Greenspanza, our tall, dark and handsome actor, will play Prince Charming. That enchanting villainous Effina Maina Ballina, will be the wicked queen. The supporting cast will be Grumpy Dwarf—Francovich Trombovich, Sleepy—Byronous Piovitch, Doc—Nolanda Rhoadesa, Sneezzy—Carlisky Nelsonback, Bashful—Lorenze Kenyby, Dopey—Davidson Mackeyson, and the other one, Georgesiz Smith-iza.

The Sophisticated Sophonic Swing Band of Painsworth's famous Petropolitan Opera House conducted by Robertini Gschaikowsky Parkerini will furnish the musical interludes.

Band seats in Hobart High's specially built print shop will sell for one-half a cent for a couple and one cent for a single seat.

Tickets may be purchased from any sophomore at the little purple and gold tent at the corner of State and Randolph in Chicago.

REPEAT THAT, PLEASE

SWEETIE PIES

Could it have been Russell Sonntag and Doris Bagby we saw at the show the other night?

Thelma Calvert seems to be doing all right with Leroy Brown during the noon hour.

We often wondered who Jean Walker went with, and we finally found out. It is none other than Bradford Coulburt.

Edward Fowble, who doesn't care for girls, is doing o. k. by taking Jacqueline Quinn to the Family theater in Gary.

We caught Edward Garber treating Irene Govert to a bottle of ice cold strawberry pop.

Any one wishing to learn the "shag," may do so by seeing our new dance couple, Betty Ittel and Dick Traeger.

WOULDN'T IT BE FUNNY IF—

Neal Smith asked Doris Bagby for a date?

Earl Cornett went to a dance and found nobody there?

Wilbur Dekema gave Alice Vincent an engagement ring at the last convocation?

All the teachers got spring fever and school was closed?

Miss Lynch's hair were really a wig?

Mr. Martin were a Home Economics teacher?

MARY'S LITTLE LAMB

Marian possessed an adolescent ruminant quadrupel of the genus Ovis.

It's woolly vestige was as leucocytic as crystallized precipitations of aqueous vapor.

And to every vicinity frequented by Marian.

The ubiquitous fondling indefatigably proceeded accordingly.

DID YOU KNOW THAT—
Almira Kasch and James Larson are romancing?

The senior play, "I'll Leave It to You" will be given April 29-30? Start saving your pennies.

Minerva Lazar has been receiving notes from Bob Wilson? Can it be a romance?

Frank Kosac is making a certain sophomore's heart go pitter-patter?

Mary Bosnak likes to chew gum? Watch her sometime.

Jane Seals and Bob McIntyre are a new two some?

Harley Martin's new nickname is "Snooze"?

Margaret Adams has two new names, "plough hand" and the "Great Lover"? Yes, it's an outcome of the senior play.

With the assembly decorated very attractively, carrying out the Arabian theme, the Girls' Club entertained their mothers, the faculty, and friends on Monday, March 28, at a tea.

Door prizes were won by different mothers, teachers and friends.

The program consisted of the invocation by Phyllis Schroeder, harp solo by Shirley Roper, Girls' Club songs by the quartette, welcome speech by Bette Johnson, acceptance speech by Mrs. Bleam, dance by Jean Walker, theme by Helen Knaga, songs by the boys' trio, the guest speaker, Mrs. Ludberg of Gary, and songs by Sabra Gernsey and Irene Govert.

After the program refreshments of ice cream, ice box cookies and candies were served by the refreshment committee.

FORMER HOBART STUDENT HONORED

Out of the membership of the junior and senior classes of Michigan University, thirteen students have been selected for initiation into Kappa Tau Alpha, national journalistic honor society.

Frank Davis, Ho-Hi graduate of '34, is one of the thirteen thus honored this year.

Students are chosen on the basis of character, scholarship, personality, and journalistic ability.

LOOK HERE!

Teachers Beware: A daily well-groomed head of brown hair on a certain young English teacher aroused much consternation between two certain people who decided she must be wearing a wig.

Girls Take Care! The wash room has recently been redecorated in purple and gold. One mark of lipstick on its new finishings would cause color scheme riot.

Students Take Heed! Be careful of those clicks on your heels. The teachers are going to inspect all shoes starting April 21st to avoid the assembly racket.

Boys Look Out! The mad rush at noon has caused a slight collapse of the steps leading to the basement. They shall be repaired as soon as students can take their time. Meanwhile carry your luggage, if you please.

In everyone's life there comes a time to be serious even in a student column in a newspaper. We have been more on the humorous side this far, but today we dedicate our efforts to a group of self-sacrificing junior high students for whose services we are deeply indebted. If they were not for these hall guards our corridors would be almost impassable. Each day they cooperate with the faculty member who is on duty and save the latter many steps and patience.

Perhaps, you have been stopped by them and resented it for a moment but think a moment—did you have a reason for being in the halls or were you just wandering around making it difficult for incoming students who wished to reach the checkroom or their lockers? Therefore, let us all realize that they are working for us and giving their time to keeping law and order which we need so badly. Here's to our hall guards and faculty guards.

Did you ever notice how faithful one girl in junior high has been in serving as hall guard? Let your detective instinct loose and watch for her.

Speaking of detectives, we shall ask right now—did you recognize Vivian Verplank in the last edition's Guess Who? I wonder why she dislikes red hair? If you missed that one, don't despair, for here's another to guess about.

BACKSTAGE HAPPENINGS

There is a fashion show occasionally at senior play practice with Jerry Killigrew and Chuck Donnelly as models. Jerry looked exceedingly charming in the fur coat that he borrowed from Dorothy Strattan. Chuck was received with applause when he appeared in a chic afternoon outfit. The dress was of a blue silk background with colored flowers. The light blue sailor hat was tipped at just the correct angle. Later Chuck stopped the show (well, one person clapped) when he appeared in the turquoise blue housecoat. The clothes were displayed through the courtesy of Emma Valette.

Well, the kiss between Charles Miller and Margaret Adams came eventually. Brightly Charles asked Miss Holman, "Shall I kiss her?" Was he thrilled when Miss Holman said "Yes." However, Margaret nearly spoiled his happiness when she replied, "Do I have to now?"

Why does Dorothy Strattan always giggle when she mentions "backwoods"?

Bill Kinsman has a new invention. It's an invisible telegram that he hands to Emma Valette. We didn't know you had it in you, Bill.

By gosh, Jane Rhodes is really a good actress! You should see her when she shows Uncle Dan what a "close-up" is.

POP'S TWENTIETH VICTORY

Continued from Page Three

Pop! Pop! Jordan's arm fell twice on a spot when two weary flies had never rested.

Silas choked; arose and muttered something about fools having all the luck. As he stumbled away, he could hear Pop's laughter ringing in his ears.

The chair creaked and groaned warningly, as Pop rocked back and forth chuckling to himself, "Funny how some people are so blind. Why there hadn't even been two flies."

You should have seen Emma Valette the first time she had to hurry down the steps. The noise was terrific.

Can you imagine "Uncle" Chuck Donnelly kissing little Helen Lazar? Well, come to the play and see it.

Doris Young is very artistic in the make-up line. You should have seen how glamorous Jerry and Chuck looked after she had applied rouge and lipstick on their faces.

Iris Zelenka can really shake her head. Come and see her in the third act of the play.

SENIORS TAKE LEAD IN EARLY EVENTS

Now that the boys have felt their spikes bite the cinders and are now acquainted with every turn and swell on the track, they are now practicing in earnest. The class meet has made a rivalry spring up between the senior and junior class.

On April 6 the seniors were in the lead in the classmeet by a slight margin of four points.

The juniors have been slowly cutting the lead of the seniors and are sure to give them "a run for their money."

Between the underclassmen a bitter feud also exists. At this time the sophomores have the lead by five points, their leading point getter being Donald Denman, who has collected five points. The other sophomore point was garnered by Flick.

The freshmen's point was made by Chuck Greenspan.

The senior's leading point maker, Schroeder, made eleven points.

The juniors' leader is Izzy Greenspan with 10½.

Summaries

Mile: Won by Milanovich, Schroeder, Denman, Worthington, and Flick.

Half mile: Won by Schroeder, Pio, I. Greenspan, D. Denman, and Mackey.

Broad jump: Won by Izzy Greenspan, Smith, Ramsey, Westerholm, and C. Greenspan.

Half mile relay: Won by Junior's, Seniors, and Seniors.

Score as it stands on April 8:
Juniors ----- 26 Sophomores - 6
Seniors ----- 30 Freshmen --- 1

SPORTS GOSSIP

The class track meet is on its way and the seniors are in the lead by 4 points. What's the matter, you juniors?

Traeger will be one of our tall, handsome heroes of the gridiron of next year. Well, he is plenty tall.

The football players run through signals in print shop class every morning. Last week signals were mixed and someone cut a ruler in two with the paper cutter.

The suits were handed out for the spring football season but the boys haven't been able to break them in on account of our slippery weather.

New equipment was bought by the athletic association. It consists of several white footballs for night games. We hope we get to use them on our new field.

Basketball letters and sweaters were handed out while Horace Mitchell pitched a swell game with the biscuits at the banquet. The boys had a swell time.

BAND ACTIVITY

RESULTS OF THE DISTRICT CONTEST

Whew! The boys did pretty well for themselves this week-end at Plymouth at the District contest.

Twenty-seven of the thirty-one solos entered will participate in the State contest at Huntington, May 6-7. Winners at this contest will compete for National honors at the Regional contest at Elkhart, May 19, 20 and 21.

The Regional contest is new this year. Up to date, we have had a National contest in which musicians over all the nation participated. However, as the contest grew, the housing problem developed into quite a serious one, and it became difficult to find a city large enough to take care of all the visitors at that time. This year the nation has been divided into five regions, each one holding its own contests. Perhaps, in a few years another contest will be added in which musicians will again compete for national honors.

Two of our outstanding members will go directly to the Regional contest this year because of their excellent work at the District and State last year. Good luck, Pete and Gene!

The ensembles entered in the District all received first division and will go to the State. They are: Saxophone quartet, woodwind trio, brass quartet, brass sextette, and four clarinet quartets.

The first division solos were: Robert Bailitz, Wallace McCathern, Shirley Hoos, Ruth Balitz, Byron Findling, Richard Worthington, Marilyn Baumer, Richard Averitt, Luther Howell, James Mulligan, Charles Jones, Charles Beckner, James Grinn, George Vossberg, George Ensey, Kenneth Pope, Richard Maleck, Lorenz Kinney, Virginia Marvel, Jack Howarth, Alan Abel, Robert Surprise, Howard Parker, Martin Harner, Marjorie Altmann.

The Second divisions were: Lucile Altmann, Charles Erickson, Roger Marvel.

The second band also lived up to the reputation it made for itself the last few years and carried off first division honors.

THE SHADOW KNOWS—

Shadow finds that Howard Parker lost his heart at the district contest. Master detectives report that it can be found in the vicinity of North Judson.

Do you know that out of Hobart's forty-two entries in the district contest, only four failed to make first division.

Congratulations are in order for the junior high band for carrying off first division honors Saturday.

Shadow discovers that Allan Abel was the smallest drummer at the district... also (his mother reports) the slipperiest!

ART EXHIBIT HELD
IN ASSEMBLY

A very interesting one-man art exhibit consisting of oil paintings by Glenn F. Bastin, was held in the auditorium on Tuesday, April 5.

Mr. Bastin painted the pictures shown while on his trip to Mexico in August, 1937.

Most of the pictures exhibited were painted in or near the town of Tasco. Tasco is a silver mining town which is about 125 miles from Mexico City. It is half way between Mexico City and the West Coast. It was built as a sort of half-way place for the pack trains which carried the silver to Mexico City.

In the 16th century a mine owner gave to Tasco a cathedral the inside of which is all of solid silver. This Cathedral still stands and can be seen in many of Mr. Bastin's pictures.

It is not possible to travel all the way to Tasco by automobile because of the narrow winding streets and ditches; therefore, most of the way one must go on foot.

Mr. Bastin has studied in many of the principal cities of Europe and has painted many lovely pictures on each of his sojourns abroad. He maintains a studio at 4458 Carolina street, Glen Park, where these pictures may be seen and purchased.

Mr. Bastin, a World War veteran, is not otherwise engaged at present and spends his time at his easel.

Mr. Nuzum arranged for the exhibit through Mrs. Matthew E. Donnelly, Service Sales Chairman of Hobart Unit No. 54, American Legion Auxiliary.

DRAMATIS PERSONAE
CONTINUES PLAYS

In continuance of their program of one-act plays, the second group of the Dramatis Personae enacted a comedy by the name of "Never Trust a Man," on Thursday, March 31, in the high school assembly.

The cast of the play included Hazel Perry as Mrs. Blake, Edith Pritchard as Betty Blake, Delores Sable as Sally, Florence Heine as Aunt Hattie, Marie Sonntag as Lucretia, and Ruth Kellberg as Rose Hill.

The third group will give another comedy April 14, entitled "Talk Is Cheap."

The cast will consist of the following people: Frances Reeves as Jane, Eunice Young as Harriet, Mildred Morgan as Mary, Ruth Domine as Polly, Helen Lazer as Peggy, Minerva Lazar as Caroline, Wilma Morgan as Sally, and Dorothy Siewin as Mabel.

WOODSHOP OFFICERS

A new plan was instigated in the woodshop at the beginning of the second six weeks. By this plan, a superintendent is appointed at the beginning of each six weeks. He must have certain qualifications in order to be appointed to this office and must live up to certain standards after he has accepted the office. There are also appointed by the class, a clerk, maintenance foreman, wood stock foreman, and tool room foreman.

The major duties of the superintendent are to call the class to order at the sound of the bell, give permits for the use of the electrical machinery, and look after the general appearance of the shop.

The maintenance foreman has charge of assigning duties that each student is to perform in the cleaning up of the shop at the end of the class period.

The wood stock foreman has charge of all the issuing of lumber and the keeping of a record of such.

The clerk checks the roll, signs absent blanks, and is the librarian for the shop's books and magazines.

The foreman of the tool room has charge of the issuing of tools and of reporting broken and missing ones.

Many students comment on this plan but the majority of the students see that it saves them time. Before the plan was originated the boys couldn't get to work until after the roll was taken, but now they can start to work when the bell rings and the roll will be taken as they work. This plan also helps students, for Mr. Martin can now have more time to plan and estimate the cost of the project and to advise the students in the assembling, staining, varnishing, and painting of their projects. He also has more time to impress upon their minds the right and safest way to handle tools.

LIBRARY GETS WORK TABLE

A new library work table has been placed in the little room back of the assembly.

This table, made by a WPA worker, will be used for book repair work and as a library work table.

JUNIORS TO ENTERTAIN SENIORS AT PROM

CRYSTAL BALLROOM OF HOTEL GARY TO BE SCENE OF THIS YEARS ENTERTAINMENT

On the night of Friday, May 13th, the Crystal Ballroom of the Hotel Gary will again be the scene of gay and feverish activity as the Juniors entertain the members of the Class of '38 at Ho-Hi's Annual Junior-Senior Prom. The upper classmen two-hundred strong, will dance to the syncopated swing of the Miller-Ramer orchestra of Peru, Indiana. This selection was made with the assistance of the consolidated Artists' Bureau of Bloomington.

Dancing will begin at nine o'clock and continue till one. By this stage of the evening the corsages on the various hued formal gowns of the girls are beginning to fade and the new shoes of the fellows are slightly scuffed.

Long before the dancing has begun the attractive programs are filled for the various dances.

Climaxing the Grand March, the juniors and their guests will receive a lovely favor that in the years to come will remind them of this eventful evening of pleasure and entertainment.

During the intermission a very appetizing buffet luncheon will be served to the dancers.

Other than the regular faculty chaperons, the prom will be under the guidance of Mr. and Mrs. Leininger, Mr. and Mrs. Jordan, and Mr. and Mrs. Gernsey.

LAWRENCE GAST PREVENTS SERIOUS ACCIDENT

Lawrence Gast, Hobart High School student, through his quick thinking and courage prevented a serious accident April 29, at the Nickel Plate tracks on Main street where he was on patrol duty.

An elderly lady who apparently did not hear the train, walked directly in its path. Lawrence rushed to her side and pulled her out of the path of the on-coming train.

Hobart High wishes to express its appreciation to Lawrence and also to the Traffic Squad for their unified efforts in behalf of safety.

DEPAUW UNIVERSITY

Depauw University is located in Greencastle, Indiana. Most of the buildings are grouped near the center of this city on several contiguous tracts, covering in all more than sixty acres of land.

Depauw was founded by the Methodist Episcopal church of Indiana and has received the support of that denomination. However, the school is not considered sectarian.

At Depauw is also "The School of Music." This school was founded in 1884, and is one of the oldest music schools in Indiana. It is an integral part of the University and enjoys a close interrelation with the other departments and derives great advantage from the association.

For the good of those students who are considering Journalism as a vocation, the following courses are being offered to the regular curriculum; news writing and news editing.

TWINS RECEIVE SCHOLASTIC HONORS

The well known Worthington twins will receive scholastic honors at commencement exercises, Friday evening, May 27, at the Roosevelt Gym. Ralph is the valedictorian and Richard is the salutarian.

It is very unusual for brothers to win these honors, especially twins. However, their hard work deserves an award. Ralph and Richard have always been near the top whenever scholastic rating was concerned.

Of the eighty-three seniors, Ralph Worthington, Richard Worthington, Marie Sonntag, Bette Johnson, Robert Wells, Charles Miller, Charles Donnelly, Evelyn Lowitt, Margaret Adams and Ruth Kellberg, are the ten ranking highest in their four years of scholastic work.

SAFETY ESSAY AWARDS

In the essay division of the safety contest, sponsored by the Traffic Squad, Shirley Hoos won first award; Herbert LaBaw, second; and Phyllis Schroeder, the third award.

In the poster division of the Safety Contest, William Drummond won first; Arthur Ledyard, second; and Emil Kasanovich, third.

The most delicate, the most sensible of all pleasures consists in promoting the pleasures of others—LaBryere.

83 SENIORS WILL BE GRADUATED MAY 27

SUPT. J. M. SELLERS TO PRESENT DIPLOMAS TO SENIORS; DR. R. LAFOLLETTE, SPEAKER

Hobart High School's fifteenth graduating class, composed of eighty-three seniors, will receive their diplomas from Supt. J. M. Sellers at Commencement exercises in the Roosevelt Gym, Friday evening, May 27.

Dr. Robert LaFollette will give the commencement address. Dr. LaFollette is a graduate of Indiana State Teachers' College and has earned higher degrees in graduate work from Wisconsin, Harvard, and George Washington Universities. He has traveled in all sections of the United States, in Europe, and in the Bermuda Islands. At present he is the head of the Social Science Department of Ball State Teachers' College of Muncie.

Senior Week, May 22-27

Again this year seniors will enjoy a senior week unless something unforeseen occurs. They are busily planning the week's program.

Sunday, May 22—Baccalaureate services will be held Sunday evening in the M. E. Church, with Rev. William Bleam delivering the sermon. The chorus classes under the direction of Miss Edith Dorsey, will sing several selections.

Monday, May 23—Kid Day will bring laughs to everyone. The refined senior girls will come to school in short dresses, hair ribbons, and anklets, while the dignified seniors will be seen in knickers and other clothes, any playthings reminiscent of childhood days.

Tuesday, May 24—Instruction Day will be the day that seniors show their authority. Those standing highest in their scholastic rating will take entire charge of school for several periods.

Wednesday, May 25—On this day the seniors will honor the juniors at the annual Junior-Senior party.

Thursday, May 26—Color Day will bring out the senior class colors with posters decorating each room and the seniors themselves wearing their class badges.

Friday, May 27—Friday is a full day for the seniors. The Senior Breakfast will be held in the morning at the M. E. Church.

SAFETY

At the present time it is the resolve of several of the large cities in our country to focus the public eye upon the necessity of promoting safety. Their purpose is to impress upon the mind of the individual that he is directly responsible for not only his own safety but also of others. Only through the full co-operation of each individual can a safe community exist.

The community of today and tomorrow can be made much safer through education of children. From the time the child begins to walk until he is through school, the principles of safety should be indelibly instilled in his mind by the combined efforts of parents and teachers. The realization of the importance of his role in the everyday drama of public and personal safety will gradually grow upon the child, and he will become an asset rather than a detriment to a safety-promoting community.

In these safety drives much is being done in the direction of destroying fire-traps and other menaces to public safety. Our school and other public buildings undergo inspection regularly. Through our education in school we are able to inspect our own homes to find fire-hazards and other dangers.

The modern factory of today is quite a step from the death-trap of yesteryear. The lives of the employees are important to the employer and he uses every device he can to protect them. Of course, without the co-operation of the workman the efforts of the employer are too often in vain. Nothing can be accomplished without the complete co-operation of each and every individual.

If every person would conduct a safety campaign in his own mind, we would jump a huge step toward building a safe and healthy nation in which to live.

—Shirley Hoos.

GUIDANCE HOUR

POPULAR WITH STUDENTS

Parental Approval Sought

The guidance hour recently instituted is enthusiastically received by students because of the very material aid their sponsors are giving them in planning their high school work.

One period during the school day has been given about each two weeks to give the advisers opportunity to meet with their groups to confer about high school subjects and to plan the full four year program for each individual pupil.

On last Tuesday the course plans were nearly completed for all pupils now enrolled. As soon as this work is done for the pupil he is asked to take the guidance sheet home to be approved by his parents, signed and returned. If the plan as laid out by the adviser is not satisfactory to the parent, the parent should write remarks, recommendations, or criticisms on the back of the sheet and return it to the adviser.

The course plans are not to be considered as absolutely final and unchangeable. Later, conditions may develop that will change the opinion of the pupil, the adviser, or the parent about the course plan. But the plan for next semester should not be subject to change, once it is approved, for from this plan will be made the pupil's program of studies for the fall term. Parents and pupils are therefore urged to list exactly the subjects that are chosen for next time. Once the program of studies is made out for the whole high school and the individual programs of pupils are made, no change will be permitted.

R. A. NUZUM,

Principal.

THE NEW LEAF

Winter has passed away, spring has come, and all the trees are putting out new leaves. Likewise the winter of this school year has passed away and spring of vacation is approaching.

Therefore, it is now a good time for the students to put out new leaves. We believe that the majority really need to tear out the old leaves and put in new ones. Most students put their books away in June and leave them there until September.

There are worse things than that, and two of them are forgetting the general knowledge learned in the past year, and ignoring the library.

We suggest that, at least, you should read enough books for your next year's book reports. Also, we think it would be a good idea to keep your English in good form so that you won't have to learn it all over again.

At any rate, whatever you do, don't loaf all the summer.

BYSTANDER

I stand in the hall and survey you as you pass by. You are short, tall, slender, and stout. I am all of these and none of these.

Some of you are freshman, some sophomores, or juniors, or seniors. Your nature varies from gay to melancholy, while some are blessed with an "April" temperament. I have no temperament, I do not vary, but neither do I stay the same.

You are students, loafers, or of that class which wavers between the two. I do not learn, I observe.

Even as persons, you differ. Some of you will go into the world and make a name for yourself, and others will be content to live in oblivion. I have done both of these, and do neither now.

You are the people who come out and help govern the world—I work silently.

You will not recognize me because I am both close to you and far away, but I will know you and I will watch as you fulfill your destiny.

SENIORS

Looking around the assembly today I find many faces that will go away. There are many seniors here that I know.

But, soon, into the world they'll go. Some may go to college. To secure a little more knowledge. But for most of them, this is the last. Their years in school have all slipped past.

They will look at the children trekking to school.

And wish that they were going there, too.

They will remember those twelve long years.

And each time shed new tears.

But they will also remember the joy they had when they were a girl or boy.

In good old "Hobart High School."

—Bob Parker.

ON THE SHELF

Do you not admire a man who has been downtrodden and has the courage to rise again, who will not admit defeat? Then you will enjoy "Sorrel and Son" by Warwick Deeping.

Our story concerns Sorrel and his son, Kit, and the beautiful relationship between them.

Sorrel had divorced his wife, who tried to get possession of Kit, Sorrel's one pride and joy. Was she successful? Did Kit leave Sorrel?

Another good feature of this book is the description of Winstonbury, England, where these incidents take place.

A movie actor and actress enter also into this interesting story and produce an unexpected result.

So, don't miss this story of pathos, interest and suspense.

"OUR" CAR

"Our" car is a nice little crate.

I use it on almost every date.

"She" runs so nice and smooth;

"She's" the very essence of youth.

But I always have a fight or two,

And all the work I have to do.

I have to get down on my hands and knees

Just to get the "doggone" keys.

Everytime I ask to take "her" out

Dad just sits and stares in doubt.

He says, "Your sister asked for it

tonight;"

He knows that this will start a fight.

I don't see why girls drive cars.

Especially this one of ours!

She thinks that she is pretty swell,

And that she can drive just awfully well.

But I'll show her a thing or two.

I'll show her what I can do.

When beneath the wheel I climb

And leave her standing there behind.

But what do I care?

My father's wrath I dare

But of my sister I'll beware

Before she pulls out all my hair.

EMILY JONES RECLIVES

HONOR AT ILLINOIS U.

Emily Jones, an alumni of Hobart High School, was included in this year's University of Illinois' Honor List.

The fourteenth annual "Honors Day" convocation was held in the University Auditorium Friday morning, April 29. On this occasion Miss Jones received public recognition of her scholastic ability. This honor is given to those students whose scholarship record ranks them within the first ten per cent of their class. The exercises were broadcast by the University Station, W-1-L-L.

FANCY THAT

Isaac Bickerstaff (some name), in the eighteenth century, also started that well-known expression, "Boys will be boys," only he worded it: "Young fellows will be young fellows." Ah, well, the same difference.

At last, we've hunted down the originator of the phrase, "Tall oaks from little acorns grow." The man was David Everett, and he wrote this in the 18th century especially for a school declamation. Maybe you'd like to know the whole thing: You'd scarce expect one of my age

To speak in public on the stage;
And if I chance to fall below
Demosthenes or Cicero,
Don't view me with a critic's eye,
But pass my imperfections by.
Large streams from little acorns
flow,

Tall oaks from little acorns grow.

MOTHER'S DAY

The honor of the origination of Mother's day belongs to Miss Ann Jarvis of Philadelphia. Her mother died in 1906. She wished to dedicate a day in remembrance to all mothers because of the death of her mother. In a year's time Miss Jarvis had interested many individuals and organizations in the observance of the second Sunday in May as Mother's Day.

Miss Jarvis became missionary of the idea. She wrote thousands of letters to influential men in all walks of life. She interviewed the public and pleaded for the observance of the day.

Since 1912 the governor of Texas has observed the day by pardoning a number of prisoners. State after state adopted its observance. On May, 1913, a resolution passed the Senate and House of Representatives to make the second Sunday in May a national holiday, "dedicated to the memory of the best Mother in the world, your Mother."

The second Sunday in May is observed in all churches irrespective of creed, and the previous Friday is observed in schools.

It is observed "through some distinct act of kindness, visit, letter, gift, or tribute to show remembrance of the mother to whom general affection is due." Its slogan is in honor of "the best mother who ever lived." The badge of the day is a white carnation.

CLASSROOM DETECTIVE

Spring is here—sure 'nough. In general, all classes have spring fever and together with the thought of summer vacation, there is not very much classroom news. Although Watson and I have investigated thoroughly, this is all that we have found.

Miss Edna Friedrich's 9A Literature Class is in the deep dark midsts of "Midsummer's Night Dream."

Extra! Seniors are exempt from Chorus Classes! Upon further investigation, we found that the class is working on Baccalaureate and Commencement music.

Miss Juanita Horne's shorthand class has finished the book and is taking dictation at 50, 60, and 70 words a minute.

Miss Dorothea Friedrich's 7th hour safety class has just finished a debate. The affirmative side, which was for society and said that the drivers and pedestrians are responsible for the accidents, won by the narrow margin of 2 points, 26-24. The negatives' side argued that the society is responsible for the accidents. They were very unfortunate to have one member of their team absent on the day of debate. The negative team consisted of Charles Jones, Harley Martin, Bud Pio, and William Willmoth, and the affirmative consisted of Albert Johnson, Lyle Lamb, Jack Hansen, and Lorenz Kinney. The judges for the occasion were: Miss Mildred McKenna, Miss Leta Weaver, and Miss Jeanne Lench.

Well, enough's 'nough. Aloha until next fall. Be good.

A paper is a wonderful invention. The school gets all the fame, The printer gets all the money, The staff gets all the blame.

Perhaps I'd better contemplate
On when I'll ever graduate
And put this foolishness aside
Or else in May we will betide
This idiotic poet.

The purpose of the meeting was to bring together the leading high school boys and the leaders of the District to share with each other their best thinking around the important problems of today.

WHAT'S YOUR I. Q.?

Here is the last set of I. Q. questions and the author sincerely hopes that you have liked all previous ones.

1. Who is the person that makes the linoleum blocks for the paper?
2. Who draws the cartoons for that extra page that has appeared in the last two issues?
3. Who writes "Prattle"?
4. To how many of you is the author of "Snoopin' Around" known?
5. Who is the little guy that writes "Sweetie Pies"?
6. If you haven't had your name in the paper, in some column, it must have been in the Birthday column. The author is a little blond that is known to many. Do you know her?
7. Last but by no means least, who is the author of "Classified Ads"? What, you don't know? What a pity!

The Sr. High Librarians will honor the nine senior girls in the club at an Hawaiian party at the Roosevelt Gym Monday evening, May 23.

Each senior girl will receive a gift as a remembrance of the happy days spent with the club and its sponsors. The nature of the gift is to be a surprise. Margaret Adams, Elma Allen, Lois Baker, Dorothy Correll, Vera Hartnup, Ruth Siewert, Luella Sonntag, Marie Sonntag, and Irene Young are the senior girls who will be honored.

An award will also be given to the girl who has received the highest number of white points this year by the sponsors, Misses Edna Friedrich and Leta Weaver.

Palms, ferns, and flowers will decorate the upper hall of the gym. Candles will furnish the light.

The program will consist of Hawaiian music, songs, and dances.

The chairmen of the committees are as follows: General chairman, Elaine Ludvigson; invitation, Anna Mihich; decoration, Mildred Hentschel; program, Mary Jane Galler; refreshments, Dorothy Stadler; favor, Marie Huff; entertainment, Madge Docter; and clean-up, Wilma Morgan.

J. H. L. Club News

The date for the theater party and pot-luck for the Sr. High Librarians was changed to May 4. "Reunion," starring the Dionne Quints, proved to be very entertaining.

Before attending the theater, the club was entertained with games and radio music while eating. The menu consisted of kidney bean salad, sandwiches, pickles, potato chips, and coco cola. Favors were marshmallow dolls.

Phyllis Hardman, the J. H. L. Club representative on the Student Council, was recently elected vice-president of that organization.

Librarians Enjoy Trip to Gary

The Sr. High Librarians' Club and its sponsors will leave for Gary the next period today, May 6.

They will visit first the Horace Mann School Library where a guide will explain interesting things about the library.

Later the club will visit the new Glen Park Library and the East Branch of the Public Library.

The girls will enjoy a dinner at the Gary Y. M. C. A. cafeteria afterward.

STUDENTS ATTEND GARY CIVIC THEATER

Members of the Girls' Club, Dramatics Club, and the Senior Play Cast, attended the Gary Civic Theater on Monday, May 2. "Skidding" was the title of the play presented.

The seventh and eighth grade boys have reported for football and baseball practice to Coach Belshaw. Kenny Jordan became so excited about the whole thing that this is what happened.

Our Baseball Team

Our ball team hasn't won a game, but we will win one just the same. Lewis Rose is really very good. He would hit a homer if he could. But it's Lautzenhiser who stops the ball.

I think that's why we lose them all. Our ball team will win some day. An' if it does, will we be gay. We will win a game we know. If we play until we're old. Now, don't blame him—it's just the mood he's in.

What we meant by mentioning hope chests was the news that Miss Edna Friedrich's Home Economics Class is discussing their possibilities. Surely, you're convinced by now that it's just the air, and oh, well, you know.

Vivian Verplank had a birthday party just to encourage our poor hard working junior highs that there still is a little fun in life. Cathern Woods was glad she got to go because she won a prize—how does she do it? We never win. Here are the rest of the guests: Phyllis Hardman Evelyn Adams, Rosemary Pequignot, Jean Walker, Dorothy Bolluss, Junior Lautzenhiser, Raymond Pesjecke, Elmer Ballantyne, Jimmy Shows, Paul Sohn, Harold Woods, and Richard Packham.

We find Floyd Denman and John Flick are the chatterboxes of the 7A Science Class.

You know, the weather even affects the faculty. It makes them absent-minded like Don McC. Mr. Todd, chairman of awards committee, is having his trouble trying to get judges to remember the meetings. Poor Clara Schroeder just can't get announcements in the bulletin even when she reminds Miss Lynch.

Oh, you thought your fact finding Phillip had forgotten his detective work???? No, sir, he's trying to

SNOOPIN' AROUND

What is the reason for Florence Stewart's sudden interest in music? She has been seen in the portable listening to ensemble practice every night. Could the interest be Richard Worthington?

Snoopin' around we find some boys who still don't have their prom dates. Boys, what is the trouble?

We wonder when Thelma and Dick find time to study. Do you enjoy writing letters? Oh, excuse me, are they supposed to be notes?

Jump into your dancing slippers and attend the big Hi-Y Couples' Dance tonight. It will do much to limber your limbs for the prom.

Carol Haddock should be more careful about her notes. You know, Carol it isn't a good practice to go around dropping them on the streets.

Miss Carnefix prevented a feud between Gretna and Mr. Yunker just in time. As usual, Mr. Yunker had to pay for the "Readers' Digest."

Notice! Here's a new one. Lawrence Gast has been seen at locker 63 quite often with Betty Eaton.

We have a new name for Minerva Lazar. "Blushing Minerva." She always blushes when a certain boy's name is mentioned.

CLASSIFIED ADS

Charles Denman has found Charlotte Kubiak quite interesting. Could it have been the Glee Club Party? We wonder?

Charles Henderson is always in room 209. Could it be that Betty Jane Shafer is always there?

Izzy Bright and a certain sophomore boy were caught writing notes in the fourth hour assembly. Tsk! Tas! Must be love.

The seniors will be going to and from work instead of to and from school.

Alice Vincent really can get mad. From what I heard she surely can fight.

Question: Doesn't it seem funny that Virgil Cornett should have a low toned voice?

The worst swindler of all is the man who cheats himself.

TRAFFIC SQUAD NEWS

Mr. Wendell Elpers, with the support of the Traffic Squad, has decided on purchasing white hats and raincoats with black belts to be used on traffic duty on rainy days.

The Traffic Squad members received a banquet Wednesday, May 4, at Phil Schmidt's Restaurant. All the traffic members that attended the banquet enjoyed it immensely.

This was made possible because of the frosty drive which has been going on for the last few months. The Traffic Squad wishes to thank each and every student who helped to make it a success. They also wish to thank the students for their cooperation, by obeying the traffic regulations and supporting safety week.

Francis Redar.

PRATTLE

Have you heard this buzz?

"Are you going to the prom?"

"Yes." "With whom?" "Ohohohohohoh!"

Did you know that Steve Szewczyk has already visited heaven and found Paul Jordon there?

Nice compliment Hobart High received at the last paid convo, don't you think?

Margie Louks better look out! Notes aren't safe in the eighth hour assembly.

ORCHIDS AND NUTS

Orchids to the moon and the dark romantic sky.

Orchids to the stars that twinkle on high.

Orchids to artificial flowers that refuse to die.

Orchids to the Seniors — Good-by, Good-by.

Orchids to spring, the birds, and the bees.

Nuts to spring fever and all those leaves.

Orchids to the warm, soft south breeze.

Nuts to spring colds and the bronchial wheeze.

Orchids to the printing class and good type lice sneeze.

Nuts to the spring bugs and sand fleas.

Orchids to "I'll Leave It to You." Boy, What a Show!

Nuts to these last weeks, they go so slow.

Orchids to the Seniors, we wish them health, happiness and dough.

Nuts—we sure hate to see you go.

Mr. Yunker is in favor of the rubber dollar because it stretches.

Don't mention Saint Peter and the golden gate to Richard Maleck because he gets the dropies.

SPORTS DEPARTMENT SUFFERS MINOR LOSS

Eleven boys are leaving the Brickie sports fold behind, when they leave Hobart High School in the coming "radiation" exercises. Although the list is small, several of the boys were versatile in their sports activities.

Many familiar faces will be missing on the gridiron this fall. They are: George Baribeau, Robert Fowler, Philip Roper, Vernon Schmelzer, Neal Smith, Russell Sonntag, Captain Robert Wells, and Carl Westerholm.

The cinder paths will see no more of Emil Milanovich, Philip Roper, Lloyd Schroeder, Neal Smith, Robert Wells, and Carl Westerholm.

The basketball court will seem empty without Neal Smith, Philip Roper, and Robert Fowler.

George Baribeau, Russell Sonntag, Robert Wells, and Carl Westerholm's grappling days are over in this high school.

Thus every year old faces leave and new faces take their places, and through time old faces will be forgotten.

SPORTS GOSSIP

Neal Smith has several feminine admirers especially when he skims over the high hurdles. Do they ever hold their breath!

The Hobart High Track team has been doing some very good running so far. Keep it up, boys.

Don Ramsey is Hobart's number one dash man but he seems to be down on the women. Is this true, Don!

Fred Sonntag has taken up the half mile and runs it without spikes on his toesies. How about it, Fred?

Spring Fever has hit the football team and left its mark. Practice has been postponed until the last two weeks of school. The boys will get their regular dose of sulphur and molasses.

Paul Jordon has one of the few black eyes handed out in spring football and is he ever proud. He is willing to show it off, aren't you, Paul?

HOBART BAND AND FIFTEEN
MEMBERS RECEIVE NA-
TIONAL HONORARY AWARDS

Fifteen of the seventy-two members of our nationally famous band were selected to receive the highest honor obtainable to a high school musician, that is, membership in the National Band & Orchestra Honorary Society.

This organization is of recent origin, going into operation for the first time this year. The purpose of this organization is to honor the most outstanding members of the most outstanding high school bands and orchestras in the United States.

Because of its renown reputation as a National Champion band, our band has received the honor of being selected as one of the Charter members of this already nationally known society. You may see the Charter hanging in the main room in the portable.

The Director of a band or orchestra chosen by this society may select up to twenty-five per cent of the members of the band to receive membership in this society. The Director is advised to select only the outstanding junior and senior members, even though they do not fill the entire per cent allowed to a band or orchestra. This keeps the average of the players in the society exceptionally high.

The following are the members of our National Champion Hobart High School Band to receive this high distinction and honor. Seniors are Byron Findling, Richard Worthington, Bill Kinsman, Ralph Worthington, Peter Montville, Eugene Beckner, Luther Howell, Kenneth Pope, and Edward Fowble. The Juniors are: Shirley Hoos, Charles Jones, Richard Averitt, Richard Maleck, Martin Harner.

THE SHADOW KNOWS

Who was Howard Parker writing so diligently to the other day? Was it North Judson?

Shadow finds that Austin Edwards, one of the outstanding cornetists of Chicago, is engaged as cornet teacher for Hobart High Band members.

Shadow files a want ad. Wanted: Upholstered chairs for certain band members who like to combine business with pleasure.

There is a deep mystery afoot in the portable. Why does everyone speak in whispers about Wallace McCathren and Idabelle Dembosky?

Romance has finally enthralled Billy Montville — Jeannette Crond seems to be the main reason.

We're rootin' for Chuck Jones and and Shirley Hoos. If they succeed in taking first honors at the National, they will be awarded a scholarship to LaGrange Music Camp.

ALUMNI NOTES

Our Lee Chrisman, who substitutes for Mr. Revelli in that director's absence from the University of Michigan concert band, is doing a great amount of work in and about Ann Arbor along the music line. He supervises everything from Jr. high to regimental bands.

Frank Davis, playing bass drum in the University of Michigan concert band, is studying journalism.

Eldor Pflughoeft, who is technical assistant on the flute at Ann Arbor, spent the Easter holidays with his parents here in Hobart.

Billy Rhodes and Donald Marrs are playing clarinet and baritone in the University of Michigan concert band.

Robert Thiede, a former member of the Hobart band, is now directing his own dance orchestra.

Roberta Fleck, national winner in the alto clarinet division, has recently been graduated from the Chicago School of Commerce.

James Boyer is accompanying the band to the state contest. Jim was a very popular French hornist while with the band.

BAND MOTHERS SPONSOR
DOUGHNUT SALE

On Friday, April 29, the Hobart High School Band Mothers sponsored a doughnut sale, the proceeds of which are to be used to defray housing and transportation expenses of the District and Regional Contests.

Lever Bros. of Hammond, Indiana, very generously donated 39 pounds of Spry, the vegetable shortening, to the cause of the Band Mothers.

dozen doughnuts were delivered from the home of Mrs. Geo. Park, President.

People didn't leave home so much in the old days; there were fewer bill collectors to dodge.

the 1990s, the number of people in the UK who are aged 65 and over has increased by 1.5 million, and the number of people aged 75 and over has increased by 1.2 million (Office of National Statistics 2000). The number of people aged 65 and over is projected to increase to 6.5 million by 2020, and the number of people aged 75 and over to 4.5 million (Office of National Statistics 2000).

There is a growing awareness of the need to develop strategies to meet the needs of the ageing population. The Department of Health (1999) has published a strategy for ageing, which sets out the government's commitment to improve the lives of older people. The strategy is based on three main principles: (1) to ensure that older people have the opportunity to live independently; (2) to ensure that older people have access to the services and support they need; and (3) to ensure that older people are able to participate in the life of their communities.

The strategy is based on the following assumptions: (1) that older people are a diverse group with different needs; (2) that older people are a resource to be valued; (3) that older people should be able to live independently; (4) that older people should have access to the services and support they need; and (5) that older people should be able to participate in the life of their communities. The strategy is based on the following objectives: (1) to improve the lives of older people; (2) to ensure that older people have the opportunity to live independently; (3) to ensure that older people have access to the services and support they need; and (4) to ensure that older people are able to participate in the life of their communities.
